*Life Is Short And So Is This Book: Brief Thoughts On Making The Most Of Your Life* Simon and Schuster

Life is short. You can, if you work hard and are lucky, get more of almost anything, but you can't get more time. Time only goes one way. The average American has a lifespan of less than 30,000 days. So how you choose to live matters. That's the topic of this book. I don't pretend to have all the answers. I'm still learning every day, and many of the good ideas here I've picked up from other people either directly or by reading. But this is what's worked for me. Like life, this book is short. Many books I read could communicate their ideas in fewer pages. So I've tried to be brief in line with the wise person who noted: "If I'd had more time I would have written a shorter letter". I don't think brevity implies lack of content. The concepts here have improved the quality of my life, and I hope they're useful to you as well. Using these concepts, I have created a life I love. My job doesn't feel like work. I love and respect the people with whom I spend time. And I'm also passionate about my life outside work. I've learned how to create a balance that makes me happy between work and other interests, including my family, friends and exercise. Sadly I think that's rare. And yet, while I know I'm lucky, most people can work towards those goals in their own lives. My interest in making the most of my life began when I was just starting college, but when I was in my mid-thirties a boss I admired died of cancer. He was young. He had a great wife; he had three young children; he had a fantastic career -- he had everything in life. He just didn't have enough time. So, while I'd often thought about how to get the most out of life, the death of someone so young and vital increased my sense of urgency to act on it. One of the things I've always wanted to do was to work for myself. As a result, I left an exciting job at Microsoft in 2001 amidst the Internet bust to found the investing firm I now run. It was hard to do, both financially

and emotionally. When I left Microsoft, many people - friends, family, and even some of the press - thought I was deluding myself to start a fund focused on Internet-related companies during a market crash. A press quote from the time said: "Call him a little crazy. Call him a little nuts." I'd never seen that type of coverage before. And, in a sense, the press was right; the business wasn't easy to start. Fortunately, from a vantage point of ten years down the road, it's worked out quite well. A key part of my job is reading and thinking about a broad variety of topics. So writing this book was relatively easy. It's even easier to read. But, like many things in life, actually executing each day on these concepts is extremely difficult. With thanks to Thomas Edison, life is 1% inspiration and 99% perspiration. Even so, I hope you have fun perspiring. Peter Atkins Seattle, WA December, 2010

Work on your own weirdness - own it! Stay weird. They say freak, you say unique. Look this is all very, very weird and I love it. I'd rather be weird than boring. Who is weirder - you or I? I'm not a one in a million kind of person - I'm a once in a lifetime kind of me. Keep calm and love your weirdness. I am like Friday - everybody likes me. Weirdness is truly special. Weird definition (noun, archaic, chiefly Scottish: a person's destiny. Stay true to your destiny. Stay weird. Do what's right for you. Stay weird. Celebrate your individuality.

Stay weird. I don't go along with the crowd because I was born to stand out. The truth is, I'm just weird. I am not common because I am unique. I am fine with being weird...it keeps me from being bored with myself. Hang up the phone on an alien and a vampire - the definition of my differences. Some people are never human - it's rather weird. Do yourself the biggest favor - stay weird. You're weird...I know that, what's your point? I am weird and you know what? That's ok. So are the most interesting people. I chose to stay weird. I am destined to be weird because normal is not in my DNA. Weird is good - it's normal that is overrated. In the sea of ordinary people, it's always the weird that stands out. I don't do normal. We can't just be done with religion, argues David Dark. The fact of religion is the fact of us. Religion is the witness of everything we're up to--for better or worse. David Dark is one of today's most respected thinkers, public intellectuals, and cultural critics at the intersection of faith and culture. Since its original release, Dark's *Life's Too Short to Pretend You're Not Religious* has become essential reading for those engaged in the conversation on

religion in contemporary American society. Now, Dark returns to his classic text and offers us a revised, expanded, and reframed edition that reflects a more expansive understanding, employs inclusive language, and tackles the most pressing issues of the day. With the same keen powers of cultural observation, candor, and wit his readers have come to know and love, Dark weaves in current themes around the pandemic and vaccine responses, Black Lives Matter, the #MeToo and #ChurchToo movements, Critical Race Theory, and more. By looking intentionally at our weird religious background (we all have one), he helps us acknowledge the content of our everyday existence--the good, the bad, and the glaringly inconsistent. When we make peace with the idea of being religious, we can more practically envision an undivided life.

This is a collection of stories diverse in subject but united by the limitless affection the author holds for the land and the people of New England. Donald Hall tells about life on a small farm where, as a boy, he spent summers with his grandparents. Gradually the boy grows to be a young man, sees his grandparents aging, the farm become marginal, and finally, the cows sold and the barn

abandoned. But these are more than nostalgic memories, for in the measured and tender prose of each episode are signs of the end of things: a childhood, perhaps a culture. In an Epilogue written for this edition, Donald Hall describes his return to the farm twenty-five years later, to live the rest of his life in the house that held a box of string too short to be saved.

Chris Hani's assassination in 1993 gave rise to one of South Africa's great imponderables: if he had survived, what impact would he have had on politics and government in South Africa? More pointedly, could this charismatic leader have risen to become president of the country? Hani was a hero of South Africa's liberation, a communist party leader and Umkhonto we Sizwe chief of staff who was both intellectual and fighter, a man who could inspire an army but carried a book of poetry in his backpack. Hani led MK into its earliest battles, and carved a

formidable reputation as a thinker, debater and peacemaker.

Hani: A Life Too Short tells the story of Hani's life, from his childhood in rural Transkei and education at Fort Hare University to the controversial Memorandum of 1969, the crisis in the ANC camps in Angola in the 1980s and the heady dawn of freedom. Drawing on interviews and the recollections of those who knew him, this vividly written book provides a detailed account of the life of a great South African.

"This is my kitchen. Come on in, but be prepared—it might not be quite what you expect. There is flour on the counter, oats that overflowed onto the floor, chocolate-encrusted spoons in the sink. There is Joey, the husband, exhausted by the thirty-five preschoolers who were hanging on him all day, and he is stuffing granola into his mouth to ease his five o'clock starvation. There are two little girls trying to show me cartwheels in that miniscule space between the refrigerator and the counter where I really need to be." In her debut cookbook, Alana Chernila inspires you to step inside your kitchen, take a look around, and change the way you relate to food. *The Homemade Pantry* was born of a tight budget, Alana's love for sharing recipes with her farmers' market customers, and a desire to enjoy a happy cooking and eating life with her young family. On a mission to kick their packaged-food habit, she learned that with a little determination, anything she could buy at the store could be made in her kitchen, and her homemade versions were more satisfying, easier to make than she expected, and tastier. Here are her very approachable recipes for 101 everyday staples, organized by supermarket aisle—from crackers to cheese, pesto to sauerkraut, and mayonnaise to

toaster pastries. *The Homemade Pantry* is a celebration of food made by hand—warm mozzarella that is stretched, thick lasagna noodles rolled from flour and egg, fresh tomato sauce that bubbles on the stove. Whether you are trying a recipe for butter, potato chips, spice mixes, or ketchup, you will discover the magic and thrill that comes with the homemade pantry. Alana captures the humor and messiness of everyday family life, too. A true friend to the home cook, she shares her "tense moments" to help you get through your own. With stories offering patient, humble advice, tips for storing the homemade foods, and rich four-color photography throughout, *The Homemade Pantry* will quickly become the go-to source for how to make delicious staples in your home kitchen.

The New York Times, BusinessWeek, and Wall Street Journal Bestseller that redefined what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.
