#### *Understanding Millennials Business Plus*

Get inspired by the women who discovered that working with your best friend can be the secret to professional success--and maybe even the future of business--from the co-founders of the website *Of a Kind*. When Erica Cerulo and Claire Mazur met in college in 2002, they bonded instantly. Fast-forward to 2010, when they founded the popular fashion and design website *Of a Kind*. Now, in their first book, Cerulo and Mazur bring to light the unique power of female friendship to fuel successful businesses. Drawing on their own experiences, as well as the stories of other thriving "work wives," they highlight the ways in which vulnerability, openness, and compassion--qualities central to so many women's relationships--lend themselves to professional accomplishment and innovation. Featuring interviews with work

wives such as Amanda Hesser and Merrill Stubbs of the influential food community site *Food52*, Ann Friedman, Aminatou Sow, and Gina Delvac of the hit podcast *Call Your Girlfriend*, and Misty May-Treanor and Kerri Walsh Jennings of Olympic volleyball fame, *Work Wife* addresses a range of topics vital to successful partnerships, such as being co-bosses, tackling disagreements, dealing with money, and accommodating motherhood.

Demonstrating how female partnerships in the office are productive, progressive, and empowering, Cerulo and Mazur offer an invaluable roadmap for a feminist reimagining of the workplace. Fun, enlightening, and informative, *Work Wife* is a celebration of female friendship and collaboration, proving that it's not just feasible but fruitful to mix BFFs with business. Advance praise for *Work Wife* "Is the old adage 'Friends and business don't mix' true? Not according to college friends Cerulo and Mazur, who translated their love of fashion and desire to support emerging fashion

designers into a successful business, the e-commerce site *Of a Kind*. . . . By exploring topics such as setting expectations, defining roles, dividing responsibility, dealing with finances, and addressing disputes, they deftly demonstrate how female friendships produce empowering business partnerships. . . . This insightful, engaging work is an essential guidebook for friends considering a business collaboration."--*Library Journal* (starred review) "Friends since college, entrepreneurs Cerulo and Mazur . . . capture the energy of the current social climate of women empowering women in their first book. . . . Engaging and thoughtful, *Work Wife* champions strong relationships, healthy attitudes, and pragmatic decision-making--an excellent primer for women interested in creating their own opportunities."--*Booklist* (starred review) **Don't Help** American Library Association "Working with Involuntary Clients" aims to be a practical guide to working with both clients and their families. The book offers a

new problem-solving model which places emphasis on clarifying roles, promoting pro-social values, and more. *High Growth Handbook* Amacom Books

College does not teach you how to be successful in the working world. There is no course or textbook that explains how to create the fulfilling careers many aspire to. The Millennial generation is 80 million members strong and each year more than 1.5 million enter the working world with little to no idea of how to succeed. While companies spend millions of dollars scrambling to learn more about Millennials and adapt their work cultures to fit this generation, there are remarkably few resources dedicated to teaching young professionals the traits and techniques that will help them succeed in an ever-changing and always-challenging corporate environment. The *Young Professional's Guide to the Working World* fills this void, offering relevant advice to young professionals seeking to build a strong career foundation. A fellow Millennial, McDaniel draws on personal experiences from the beginning of his own

career to illustrate key lessons. The *Young Professional's Guide to the Working World* provides important insights on the topics essential to success within the first 5–10 years of any corporate career, including: How to get promoted faster and drive results no matter what your industry or job title. The 25 attributes all successful young professionals possess. How to avoid being a DOPE (someone who Disses Opportunity, Potential & Earnings). The keys to becoming a STAR in your career (someone who is Savvy, Tenacious, Adaptive & Resourceful). How to create and implement a career blueprint plan, the right way. Leveraging mentoring to ensure career success. [Staffing for Results](#) Atlantic Publishing Company

Paraeducators also known as teacher aides, teaching assistants, and instructional assistants are playing an increasingly important role in schools. Most teachers, however, have never been trained to work effectively with other adults in their classrooms. In *A Teacher's Guide to Working with Paraeducators and Other*

*Classroom Aides*, Jill Morgan and Betty Y. Ashbaker provide straightforward advice and focused activities that can help forge productive working relationships between teachers and paraeducators. The authors cover key topics related to working with and supervising paraeducators, including how to assign responsibilities, communicate, monitor quality of work, provide on-the-job training, and create a feedback loop. Tips from practicing teachers explain ways to find the time to effectively supervise paraeducators. The authors discuss how the supervisory techniques involved in working with paraeducators are similar to and different from those that teachers use with students. The authors give concise suggestions for translating the information to your classroom; fill-in-the-blank forms outline self-directed steps for improving in select areas. As both a practical workbook and a thoughtful reflection of the authors' experiences in working with teachers and paraeducators, this book is an indispensable resource for any teacher who wants to create a

successful instructional team.

From the creator of the Dear Businesslady column comes a fresh, proactive book with advice for women entering the workforce as well as those looking to move up the

ladder. Everyone deals with some nonsense early in their career—whether it's accepting a less-than-ideal position just to get a foot in the door, or having a manager who sleeps with his smartphone under his pillow and expects his staff to do the same. But how do young professionals know if the choices they're making are moving them closer to their ultimate career goals? How do they know the answer when they ask themselves, "Is This Working?" Courtney Guerra, a.k.a. The Businesslady, knows how to set you on the path where you belong. In a fun-to-read Q&A format, this book focuses on situations young people are likely to encounter in the workplace, along with a set of strategies you can use to get through them. In her signature tone that has gained her hundreds of thousands of readers, Guerra discusses topics relevant to young professionals, like how to make the jump from "just a job" to a career in line with what you went to school for, and how to stay productive when working from home at an apartment filled with distractions. No matter what the scenario, The Businesslady has the

answer to get you on the path to long-term career success.

Successful natural resource management is much more than good science; it requires working with landowners, meeting deadlines, securing funding, supervising staff, and cooperating with politicians. The ability to work effectively with people is as important for the conservation professional as it is for the police officer, the school teacher, or the lawyer. Yet skills for managing human interactions are rarely taught in academic science programs, leaving many conservation professionals woefully unprepared for the daily realities of their jobs. Written in an entertaining, easy-to-read style, The

Conservation Professional's Guide to Working with People fills a gap in conservation education by offering a practical, how-to guide for working effectively with colleagues, funders, supervisors, and the public. The book explores how natural resource professionals can develop skills and increase their effectiveness using strategies and techniques grounded in social psychology, negotiation, influence, conflict resolution, time management, and a wide range of other fields. Examples from history and current events, as well as real-life scenarios that resource professionals are likely to face, provide context and demonstrate how to apply the skills described. The Conservation Professional's Guide to Working with People should be on the bookshelf of any environmental professional who wants to be more effective while at the same time reducing job-related stress and improving overall quality of life. Those who are already good at working with people will learn new tips, while those who are petrified by the thought of conducting public

meetings, requesting funding, or working with constituents will find helpful, commonsense advice about how to get started and gain confidence. The Practitioner's Guide to Working with Families Simon and Schuster Born out of the author's cry for help, and the surprise at receiving an answer from angels, come these inspirational channelled messages giving guidance and answers to questions that are universal to all mankind. The angels made it clear that their words in print carry the essence of the divine, positively affecting all who read them. The methods and techniques given by the angels to heal physical and mental pain, in answers to the author's questions, are in fact answers to issues we all face at this time. The key theme throughout the angels' messages is Transformation. Transformation from Fear, Despair and Ill Health to Joy, Abundance, Happiness and Well-being by following the Truth of our Hearts, by the Power of our Minds, by Forgiveness (of ourselves and others), and through Gratitude and Trust. This book is not a story but a

guide to self-empowerment through the power of light and love. A power which transforms, as it did for the author, all that is negative and dark to all that is positive and light. **Put Your Science to Work** Macmillan International Higher Education Running a business with your spouse is a high-stakes game.
