Brooklands Books Limited

In deciding which models to choose for
inclusion in this book selected from Fiat's
huge inventory, the author concentrated
on three criteria - greatness, size and
emotion. Where size is an easy parameter
to qualify, greatness is more complicated
because it is a combination of both the
manufacturer's and the public's opinion. A

car that is highly regarded by the public
may not have been a commercial success
and vice versa. A truly great car is one
that works well for both parties. Emotion
may be considered to be an element of
greatness in that the public's 'love' for a
car is a fantastic benefit for a
manufacturer and must be treasured. Fiat
have made the mistake of 'improving' an
icon on several occasions only to find that
public opinion went against them.
Fortunately Fiat has been magnanimous
enough to respond by giving the car

buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

National Union Catalog Glénat BD
This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. & break;& break; Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. & break;& break; Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

World Car Catalogue Krause Publications
Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby'

Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

Les Années rouges Motorbooks International
Now available in this softbound edition. The complete story of the elegant Boano-designed Coupe, timeless Pininfarina-styled Spider, and Abarths hard-charging 124 Spider-based rally car. Follow the evolution of the 124 from drawing board to the end of production. All the background you need to purchase, restore and maintain any of the Spiders built from 1966-1985. Filled with history, production, evolution and motorsport data. Foreword by Dante Giacosa.

Playboy's Guide to Rallying, Racing, and Sports Car Driving Veloce Publishing Ltd
Presents a history of sports cars from the earliest models, to the hot rods of the 1950s and 1960s, to contemporary styles Herald Books

Les nouveaux seigneurs. 1958. Vainqueur des 1000 kilomètres de Buenos Aires puis des 12 heures de Sebring avec leur 250 Testa Rossa, Ferrari s'annonce comme le grand favori du championnat du monde des voitures de sport, succédant ainsi à l'hégémonie Jaguar. Mais l'écurie Aston Martin ne compte pas leur rendre la tâche facile. David Brown, repreneur de la marque depuis 10 ans et à qui les récents modèles doivent leurs initiales « DB », exige de ses équipes des résultats concrets. Et la prochaine édition des 24 heures du Mans en sera l'occasion rêvée pour briller. Ferrari contre Aston Martin : un nouveau duel au sommet s'annonce pour les années à venir... Toujours orchestré par Denis Bernard et Christian Papazoglakis et bénéficiant du partenariat de l'ACO, ce nouvel album des 24 heures du Mans enclenche l'épopée Ferrari de l'après Seconde Guerre mondiale.

Time & Tide Herald Books
This portfolio covers one of Fiat's iconic cars, the Pininfarina-designed 124 Spider. Production started in 1966 at which time Fiat also introduced the Coupe. The sixties was a great time for sports cars with the 124 Spider competing with Alfa Romeo Spider, MGB, Triumph TR4 and 5 and the Datsun Fairlady. As the years rolled on by - the Spider would remain in production for almost two decades - Fiat kept up a program of continual improvements that involved regular engine capacity increases to 1608cc, then to 1756cc and finally to 1995cc. Along the way there were only minor cosmetic changes to the styling of the 124 Spider - it remained as pure a design as any during a time of some turmoil in the world's automobile industry and production ended in 1985.
