Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic, economic disaster and racial unrest. Woodward, the #1 international bestselling author of *Fear: Trump in the White House*, has uncovered the precise moment the president was warned that the Covid-19 epidemic would be the biggest national security threat to his presidency. In dramatic detail, Woodward takes readers into the Oval Office as Trump's head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675,000 Americans. In 17 on-the-record interviews with Woodward over seven volatile months—an utterly vivid window into Trump's mind—the president

provides a self-portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the “dynamite behind every door.” At key decision points, *Rage* shows how Trump's responses to the crises of 2020 were rooted in the instincts, habits and style he developed during his first three years as president. Revisiting the earliest days of the Trump presidency, *Rage* reveals how Secretary of Defense James Mattis, Secretary of State Rex Tillerson and Director of National Intelligence Dan Coats struggled to keep the country safe as the president dismantled any semblance of collegial national security decision making. *Rage* draws from hundreds of hours of interviews with firsthand

witnesses as well as participants' notes, emails, diaries, calendars and confidential documents. Woodward obtained 25 never-seen personal letters exchanged between Trump and North Korean leader Kim Jong Un, who describes the bond between the two leaders as out of a "fantasy film." Trump insists to Woodward he will triumph over Covid-19 and the economic calamity. "Don't worry about it, Bob. Okay?" Trump told the author in July. "Don't worry about it. We'll get to do another book. You'll find I was right."

A commemoration of the 20th anniversary of 9/11 as told through stories and photographs from The Associated Press--covering everything from the events of that tragic day to the rebuilding of the World Trade Center and beyond. This important and comprehensive book commemorates the 20th anniversary of September 11 as told through stories and images from the correspondents and photographers of The Associated Press--breaking news reports, in-depth investigative pieces, human interest accounts, approximately 175 dramatic and moving photos, and first-person recollections. AP's reporting of the world-changing events of 9/11; the heroic rescue efforts and aftermath; the world's reaction; Operation Enduring Freedom; the continuing legal

proceedings; the building of the National September 11 Memorial & Museum in New York City as a place of remembrance; the rebuilding of downtown NYC and much more is covered. The book tells the many stories of 9/11--not only of the unprecedented horror of that September morning, but also of the inspiring resilience and hope of the human spirit.

Reading, Mass. : Addison-Wesley
As immigration, technological change, and globalization reshape the world, journalism plays a central role in shaping how the public adjusts to moral and material upheaval. This, in turn, raises the ethical stakes for journalism. In short, reporters have a choice in the way they tell these stories: They can spread

panic and discontent or encourage adaptation and reconciliation. In *Murder in Our Midst*, Romaine Smith Fullerton and Maggie Jones Patterson compare journalists' crime coverage decisions in North America and select Western European countries as a key to examine culturally constructed concepts like privacy, public, public right to know, and justice. Drawing from sample news coverage, national and international codes of ethics and style guides, and close to 200 personal interviews with news professionals and academics, they highlight differences in crime news reporting practices and emphasize how crime stories both reflect and shape each nation's attitudes in unique ways. *Murder in Our Midst* is both an empirical look at varying journalistic styles and an

ethical evaluation of whether particular story-telling approaches do or do not serve the practice of democracy.

“Field of Dreams was only superficially about baseball. It was really about life. So is *The Baseball Whisperer* . . . with the added advantage of being all true.”

—MLB.com From an award-winning journalist, this is the story of a legendary coach and the professional-caliber baseball program he built in America's heartland, where boys would come summer after summer to be molded into ballplayers—and men. Clarinda, Iowa, population 5,000, sits two hours from anything. There, between the cornfields and hog yards, is a ball field with a bronze bust of a man named Merl Eberly,

who specialized in second chances and lost causes. The statue was a gift from one of Merl's original long-shot projects, a skinny kid from the Los Angeles ghetto who would one day become a beloved Hall-of-Fame shortstop: Ozzie Smith. *The Baseball Whisperer* traces the “deeply engrossing” story (Booklist, starred review) of Merl Eberly and his Clarinda A's baseball team, which he tended over the course of five decades, transforming them from a town team to a collegiate summer league powerhouse. Along with Ozzie Smith, future manager Bud Black, and star player Von Hayes, Merl developed scores of major league players. In the process, he taught them to be men, insisting on hard work, integrity, and responsibility. More than a book about ballplayers in the nation's

agricultural heartland, *The Baseball Whisperer* is the story of a coach who put character and dedication first, reminding us of the best, purest form of baseball excellence. “Mike Tackett, talented journalist and baseball lover, has hit the sweet spot of the bat with his first book. *The Baseball Whisperer* takes one coach and one small Iowa town and illuminates both a sport and the human spirit.” —David Maraniss, New York Times bestselling author of *Clemente* and *When Pride Still Mattered*

“A thorough and damning exploration of the incestuous relationship between Trump and his favorite channel.” —The New York Times “A Rosetta Stone for stuff about this presidency that doesn’t otherwise make sense to normal

humans.” —Rachel Maddow, MSNBC “Stelter’s critique goes beyond salacious tidbits about extramarital affairs (though there are plenty of those) to expose a collusion that threatens the pillars of our democracy.” —The Washington Post The urgent and untold story of the collusion between Fox News and Donald Trump from the New York Times bestselling author of *Top of the Morning*. While other leaders were marshaling resources to combat the greatest pandemic in modern history, President Donald Trump was watching TV. Trump watches over six hours of Fox News a day, a habit his staff refers to as “executive time.” In January 2020, when Fox News began to downplay COVID-19, the President was quick to agree. In March, as the deadly virus spiraled out of control, Sean

Hannity mocked “coronavirus hysteria” as a “new hoax” from the left. Millions of Americans took Hannity and Trump's words as truth—until some of them started to get sick. In *Hoax*, CNN anchor and chief media correspondent Brian Stelter tells the twisted story of the relationship between Donald Trump and Fox News. From the moment Trump glided down the golden escalator to announce his candidacy in the 2016 presidential election to his acquittal on two articles of impeachment in early 2020, Fox hosts spread his lies and smeared his enemies. Over the course of two years, Stelter spoke with over 250 current and former Fox insiders in an effort to understand the inner workings of Rupert Murdoch's multibillion-dollar media empire. Some of the confessions

are alarming. “We don't really believe all this stuff,” a producer says. “We just tell other people to believe it.” At the center of the story lies Sean Hannity, a college dropout who, following the death of Fox News mastermind Roger Ailes, reigns supreme at the network that pays him \$30 million a year. Stelter describes the raging tensions inside Fox between the Trump loyalists and the few remaining journalists. He reveals why former chief news anchor Shep Smith resigned in disgust in 2019; why a former anchor said “if I stay here I'll get cancer;” and how Trump has exploited the leadership vacuum at the top to effectively seize control of the network. Including never before reported details, *Hoax* exposes the media personalities who, though morally bankrupt, profit outrageously by

promoting the President's propaganda and radicalizing the American right. It is a book for anyone who reads the news and wonders: How did this happen?

The Boys on the Bus McGraw-Hill
Former executive editor of The New York Times and one of our most eminent journalists Jill Abramson provides a "valuable and insightful" (The Boston Globe) report on the disruption of the news media over the last decade, as shown via two legacy (The New York Times and The Washington Post) and two upstart (BuzzFeed and VICE) companies as they plow through a revolution that pits old vs. new media. "A marvelous book" (The New York Times Book Review), Merchants of Truth is the groundbreaking and gripping story of the precarious state of the news

business. The new digital reality nearly kills two venerable newspapers with an aging readership while creating two media behemoths with a ballooning and fickle audience of millennials. "Abramson provides this deeply reported insider account of an industry fighting for survival. With a keen eye for detail and a willingness to interrogate her own profession, Abramson takes readers into the newsrooms and boardrooms of the legacy newspapers and the digital upstarts that seek to challenge their dominance" (Vanity Fair). We get to know the defenders of the legacy presses as well as the outsized characters who are creating the new speed-driven media competitors. The players include Jeff Bezos and Marty Baron (The Washington Post), Arthur

Sulzberger and Dean Baquet (The New York Times), Jonah Peretti (BuzzFeed), and Shane Smith (VICE) as well as their reporters and anxious readers.

Merchants of Truth raises crucial questions that concern the well-being of our society. We are facing a crisis in trust that threatens the free press. “One of the best takes yet on journalism’s changing fortunes” (Publishers Weekly, starred review), Abramson’s book points us to the future.

The personal and poignant debut poetry collection from the award-winning singer, songwriter, and producer revolves around the emotions, struggles, and experiences of finding your voice and confidence as a woman. “I’ve

realized that some feelings can’t be turned into a song . . . so I’ve started writing poems. Just like my songs, they are personal and honest. Just like my songs, they have hooks and rhymes. Just like my songs, they talk about what it’s like to be twenty-something trying to navigate a wildly beautiful and broken world.” Deeply emotional and candid, *Feel Your Way Through* explores the challenges and celebrates the experiences faced by Kelsea Ballerini as she navigates the twists and turns of growing into a woman today. In this book of original poetry, Ballerini addresses themes of family, relationships, body image, self-love, sexuality, and the lessons of youth. Her poems speak to the often harsh, and sometimes beautiful, onset of

womanhood. Honest, humble, and ultimately hopeful, this collection reveals a new dimension of Ballerini's artistry and talent.

For the first time, nine women who made journalism history talk candidly about their professional and deeply personal experiences as young reporters who lived, worked, and loved surrounded by war. Their stories span a decade of America's involvement in Vietnam, from the earliest days of the conflict until the last U.S. helicopters left Saigon in 1975. They were gutsy risk-takers who saw firsthand what most Americans knew only from their morning newspapers or the evening news. Many had very particular reasons for going to

Vietnam—some had to fight and plead to go—but others ended up there by accident. What happened to them was remarkable and important by any standard. Their lives became exciting beyond anything they had ever imagined, and the experience never left them. It was dangerous—one was wounded, and one was captured by the North Vietnamese—but the challenges they faced were uniquely rewarding. They lived at full tilt, making an impact on all the people around them, from the orphan children in the streets to their fellow journalists and photographers to the soldiers they met and lived with in the field. They experienced anguish and heartbreak—and an abundance of friendship and love. These stories not only introduce a remarkable group of

individuals but give an entirely new perspective on the most controversial conflict in our history. Vietnam changed their lives forever. Here they tell about it with all the candor, commitment, and energy that characterized their courageous reporting during the war. *Flash!* National Academies Press

Based on massive new research, a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F. Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century, yet the accounts to date have been remarkably unbalanced. Far more attention is given to Kennedy's side than to Nixon's. The imbalance began with the first book on that election, Theodore White's *The*

Making of the President 1960--in which (as he later admitted) White deliberately cast Kennedy as the hero and Nixon as the villain--and it has been perpetuated in almost every book since then. Few historians have attempted an unbiased account of the election, and none have done the archival research that Irwin F. Gellman has done. Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski, vice-presidential candidate Henry Cabot Lodge, and many others, this book presents the first even-handed history of both the primary campaigns and the general election. The result is a fresh, engaging chronicle that shatters long-held myths and reveals the strengths and weaknesses of both candidates.

Pharma-funded mainstream media has convinced millions of Americans that Dr. Anthony Fauci is a hero. He is anything but. As director of the National Institute of Allergy and Infectious Diseases (NIAID), Dr. Anthony Fauci dispenses \$6.1 billion in annual taxpayer-provided funding for scientific research, allowing him to dictate the subject, content, and outcome of scientific health research across the globe. Fauci uses the financial clout at his disposal to wield extraordinary influence over hospitals, universities, journals, and thousands of influential doctors and scientists—whose careers and institutions he has the power to ruin, advance, or reward.

During more than a year of painstaking and meticulous research, Robert F. Kennedy Jr. unearthed a shocking story that obliterates media spin on Dr. Fauci . . . and that will alarm every American—Democrat or Republican—who cares about democracy, our Constitution, and the future of our children’s health. The Real Anthony Fauci reveals how “America’s Doctor” launched his career during the early AIDS crisis by partnering with pharmaceutical companies to sabotage safe and effective off-patent therapeutic treatments for AIDS. Fauci orchestrated fraudulent studies, and then pressured US Food and Drug Administration (FDA) regulators into approving a deadly chemotherapy treatment he had good reason to know was worthless against

AIDS. Fauci repeatedly violated federal laws to allow his Pharma partners to use impoverished and dark-skinned children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies. In early 2000, Fauci shook hands with Bill Gates in the library of Gates’ \$147 million Seattle mansion, cementing a partnership that would aim to control an increasingly profitable \$60 billion global vaccine enterprise with unlimited growth potential. Through funding leverage and carefully cultivated personal relationships with heads of state and leading media and social media institutions, the Pharma-Fauci-Gates alliance exercises dominion over global health policy. The Real Anthony Fauci details how Fauci, Gates, and their cohorts use their control of media

outlets, scientific journals, key government and quasi-governmental agencies, global intelligence agencies, and influential scientists and physicians to flood the public with fearful propaganda about COVID-19 virulence and pathogenesis, and to muzzle debate and ruthlessly censor dissent.

From the founders of nonprofits

Water.org & WaterEquity Gary White and Matt Damon, the incredible true story of two unlikely allies on a mission to end the global water crisis for good On any given morning, you might wake up and shower with water, make your coffee with water, flush your toilet with water—and think nothing of it. But around the world, more than three-quarters of a billion people can't do any of that—because they have no clean

water source near their homes. And 1.7 billion don't have access to a toilet. This crisis affects a third of the people on the planet. It keeps kids out of school and women out of work. It traps people in extreme poverty. It spreads disease. It's also solvable. That conviction is what brought together movie actor Matt Damon and water expert and engineer Gary White. They spent years getting the answer wrong, then halfway right, then almost right. Over time, they and their organization, Water.org, have found an approach that works. Working with partners across East Africa, Latin America, South Asia, and Southeast Asia, they've helped over 40 million people access water and/or sanitation. In *The Worth of Water*, Gary and Matt take us along on the journey—telling stories as

they uncover insights, try out new ideas, and travel between the communities they serve and the halls of power where decisions get made. With humor and humility, they illuminate the challenges of launching a brand-new model with extremely high stakes: better health and greater prosperity for people all over the world. *The Worth of Water* invites us to become a part of this effort—to match hope with resources, to empower families and communities, and to end the global water crisis for good. All the authors' proceeds from the sale of this book will be donated to Water.org.

Adam Nicolson explores the marine life inhabiting seashore rockpools with a scientist's curiosity and a poet's wonder

in this beautifully illustrated book. The sea is not made of water. Creatures are its genes. Look down as you crouch over the shallows and you will find a periwinkle or a prawn, a claw-displaying crab or a cluster of anemones ready to meet you. No need for binoculars or special stalking skills: go to the rocks and the living will say hello. Inside each rock pool tucked into one of the infinite crevices of the tidal coastline lies a rippling, silent, unknowable universe. Below the stillness of the surface course different currents of endless motion—the ebb and flow of the tide, the steady forward propulsion of the passage of time, and the tiny lifetimes of the rock pool’s creatures, all of which coalesce into the grand narrative of evolution. In *Life Between the Tides*, Adam Nicolson

investigates one of the most revelatory habitats on earth. Under his microscope, we see a prawn’s head become a medieval helmet and a group of “winkles” transform into a Dickensian social scene, with mollusks munching on Stilton and glancing at their pocket watches. Or, rather, is a winkle more like Achilles, an ancient hero, throwing himself toward death for the sake of glory? For Nicolson, who writes “with scientific rigor and a poet’s sense of wonder” (*The American Scholar*), the world of the rock pools is infinite and as intricate as our own. As Nicolson journeys between the tides, both in the pools he builds along the coast of Scotland and through the timeline of scientific discovery, he is accompanied by great thinkers—no one can escape

the pull of the sea. We meet Virginia Woolf and her *Waves*; a young T. S. Eliot peering into his own rock pool in Massachusetts; even Nicolson's father-in-law, a classical scholar who would hunt for amethysts along the shoreline, his mind on Heraclitus and the other philosophers of ancient Greece. And, of course, scientists populate the pages; not only their discoveries, but also their doubts and errors, their moments of quiet observation and their thrilling realizations. Everything is within the rock pools, where you can look beyond your own reflection and find the miraculous an inch beneath your nose. "The soul wants to be wet," Heraclitus said in Ephesus twenty-five hundred years ago. This marvelous book demonstrates why it is so. Includes *Color and Black-and-*

A New York Times bestseller In this triumphant memoir, Carl Bernstein, the Pulitzer Prize-winning coauthor of *All the President's Men* and pioneer of investigative journalism, recalls his beginnings as an audacious teenage newspaper reporter in the nation's capital—a winning tale of scrapes, gumshoeing, and American bedlam. In 1960, Bernstein was just a sixteen-year-old at considerable risk of failing to graduate high school. Inquisitive, self-taught—and, yes, truant—Bernstein landed a job as a copyboy at the *Evening Star*, the afternoon paper in Washington. By nineteen, he was a reporter there. In *Chasing History: A Kid in the Newsroom*, Bernstein recalls the origins of his

storied journalistic career as he chronicles the Kennedy era, the swelling civil rights movement, and a slew of grisly crimes. He spins a buoyant, frenetic account of educating himself in what Bob Woodward describes as “the

genius of perpetual engagement.” Funny and exhilarating, poignant and frank, Chasing History is an extraordinary memoir of life on the cusp of adulthood for a determined young man with a dogged commitment to the truth.
