How Bluegrass Music Destroyed My Life Hal Leonard Corporation

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried

out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

This is a revised second edition of Dr. Steblin's important work on key characteristics, first published in 1983 by UMI Research Press and re-issued by the University of Rochester Press in 1996. The revision has been limited to a thorough correction and update of the material in the first edition, so as to not disrupt the content and organization, for which the book has been praised as a significant and noteworthy reference for both scholars and research students alike. The book discusses the extra-

musical meanings associated with various musical keys by ancient Greek and medieval-renaissance theorists and in particular composers and writers on music in the Baroque, Classical, and early Romantic periods. Chapters focus on Mattheson's extensive key descriptions from 1713, the Rameau-Rousseau and Marpurg-Kirnberger controversies regarding unequal versus equal temperaments, and C.F.D. Schubart's influential list based on the sharp-flat bright-dark] principle of key-distinctions. Rita Katherine Steblin is a world-renowned music scholar, living and working in Vienna.

lungo tutto il Novecento, che va oltre le limitazioni di “genere” e abbraccia una definizione il più ampia possibile di “cultura”: si prende in considerazione infatti non solo il “sapere” musicale strettamente inteso, dunque, ma - allargandosi su una declinazione di campo culturale più aggiornata dal punto di vista teorico e storiografico - ogni tipo di esperienza che può configurarsi come pratica culturale. Le grandi direttrici di ricerca individuate sono tre: 1) la formazione musicale all'interno dei percorsi educativi istituzionali e i percorsi formativi non istituzionali; 2) le pratiche musicali non professionali e partecipative (dilettantismo, associazionismo, usi sociali della musica); 3) la fruizione collettiva e individuale di musica, con

particolare accento sul ruolo svolto dai mezzi di comunicazione di massa lungo il corso del Novecento. Dai Conservatori alle bande di paese ai cori amatoriali, dalla programmazione dei teatri e delle istituzioni musicali alle trasmissioni radiofoniche e televisive e all'editoria musicale, fino alla musica in rete, un itinerario completo e aggiornato nella vasta gamma di interessi e manifestazioni che percorrono il nostro Paese.

Wine insiders called André Tchelistcheff the "winemaker's winemaker," the "wine doctor," and simply "maestro." After Prohibition brought Napa Valley and its wine industry to the brink of catastrophe, Tchelistcheff (1901-94)

proved essential in its revitalization. Tchelitcheff's unique background--a sickly child, a Russian émigré forced from his homeland during the Bolshevik Revolution, a White Army lieutenant who fought in the Crimea, a physical laborer in a Bulgarian coal mine, a Czechoslovakian-trained agronomist, and a French-schooled viticulturist and enologist--prepared him for a remarkable winemaking career. He spent thirty-five years in Napa Valley's Beaulieu Vineyard and nearly two "post-retirement" decades doing freelance consulting work for more than thirty wineries. His early struggles forged his principal character traits, which he passed on to an entire generation of winemakers. His students, including some of the most accomplished winemakers of the post-

Prohibition period, marveled over their mentor's sense of authority, profound insight, humble presence, and abundant wisdom. This inspiring account of Tchelitcheff's life includes interviews with friends, family, and mentees, which reveal how one man used his passion and knowledge to help save a community on the edge of disaster. In Maestro James O. Gump preserves the memory of a fascinating individual and one of the most influential winemakers of the modern era.
