Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious

coming-of-age story.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

Car values fluctuate wildly, never more so than in our current economic environment. Pricing information is a must for collectors, restorers, buyers, sellers, insurance agents and a myriad of

others who rely on reliable authoritative data. With well over 300,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1901 and 2012, this is the most thorough price guide on the market. This invaluable reference is for the serious car collector as well as anyone who wants to know the value of a collector car they are looking to buy or sell. Prices in this must-have reference reflect the latest values, in up to six grades of condition, from the esteemed Old Cars Price Guide database. New information for the most recent model year will also be added to our new Old Car Report database.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids

and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Dundurn Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information. *Hearing Before the Subcommittee on Consumer Protection, Product Safety, and Insurance of the Committee on Commerce, Science, and Transportation, United States Senate, One Hundred Thirteenth Congress, First Session, May 21, 2013* World Almanac Education From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an

impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

"I've seen my country lately. Frankly, I don't like what I see. Nevertheless, it's not too late to restore the great and unique wonder that is the United States. We are the beacon of hope for the world, and we will remain so as long as we stand up for our principles." In keeping with his no-holds-barred on-air style, conservative radio talk show host Jerry Doyle has the guts to ask the tough questions about the state of our nation today. In this informative, entertaining, and challenging narrative, he urges Americans to take back the things that make our country great, and delivers his hard-hitting and oftentimes humorous spin on: • ECONOMIC FASCISM—the rapid government domination that began with the egregious takedown of GM • BAILOUTS—the missteps, wrong moves, and rules of salary caps, bank buy-ins, and bonuses that changed from day to day • EDUCATION—how our "everybody wins" obsession is destroying teaching and fostering an

obnoxious self-entitlement trend • THE OBAMA PRESIDENCY—will American capitalism survive this administration? . . . and much more. If you like your politics straight up, with a commonsense chaser and a shot of dry wit, you'll be galvanized and enlightened by Jerry Doyle—the man, his story, and his insights into America today.

Television Dundurn

For nearly two decades, *Television: Critical Methods and Applications* has served as the foremost guide to television studies. Designed for the television studies course in communication and media studies curricula, *Television* explains in depth how television programs and commercials are made and how they function as producers of meaning. Author Jeremy G. Butler shows the ways in which camera style, lighting, set design, editing, and sound combine to produce meanings that viewers take away from their television experience. He supplies students with a whole toolbox of implements to disassemble television and read between the lines, teaching them to incorporate critical thinking into their own television viewing. The fourth edition builds upon the pedagogy of previous editions to best accommodate current modes of understanding and teaching television. Highlights of the fourth edition include: New chapter and part organization to reflect the current approach to teaching television—with greatly expanded methods and theories chapters. An entirely new chapter on modes of production and their impact on what you see on the screen. Discussions integrated throughout on the latest developments in television's on-going convergence with other media, such as material on transmedia storytelling and YouTube's impact on video distribution. Over three hundred printed illustrations, including new and better quality frame grabs of recent television shows and commercials. A companion website featuring color frame grabs, a glossary, flash cards, and editing and sound exercises for students, as well as

PowerPoint presentations, sample syllabi and other materials for instructors. Links to online videos that support examples in the text are also provided. With its distinctive approach to examining television, Television is appropriate for courses in television studies, media criticism, and general critical studies.

When General Motors and Chrysler

declared bankruptcy in 2009 and immediately targeted thousands of dealerships for closure, tens of thousands of jobs and billions of dollars were on the line. Staring down two of the largest manufacturers in the world - as well as President Obama's Automotive Task Force - a determined triumvirate of car dealers banded together and went to Washington, D.C. to make their voices heard. Alan and Alison Spitzer's fast-paced memoir takes readers behind the scenes as "citizen's lobbyists" traverse throughout all of the major corridors of power in the nation's capital to make their case and bring justice to thousands of small business across the country.
