Learning cursive handwriting in children has been found to be vital for every child's spelling skills and fluency, as thorough practice enables them to recognize words as they read them later on. It's been suggested that cursive writing provides the brain similar benefits as when it learns to play a musical instrument. All the handwriting practices in this book are designed to encourage writing proficiency, while they learn the English language, at the same time. This workbook is great for writing beginners in 2nd, 3rd, 4th and 5th grade. It can also be fun for preschool and kindergarten kids who wants to learn cursive since the book has funny images of cats and dogs. What's inside?: Part 1 starts off with the alphabet where writing letters in both capital and lowercase forms are practiced through tracing and connecting the dots. Each letter is presented with directional arrows to guide the hand movements of the child as he or she learns to write. We've also added the numbers 1-10 to the first chapter. Part 2 consists of age-appropriate words to be traced and copied. Part 3 moves on to practicing sentences. Unlike other cursive workbooks this book has plenty of space with a whole page for practicing each letter.
