The 6th World Symposium on Pulmonary Hypertension proposed some fundamental changes to the hemodynamic and clinical classification of pulmonary hypertension (PH). The 6th World Symposium on PH: Hemodynamic Definitions and ... The recent publication in the European Respiratory Journal of the proceedings of the 6th World Symposium on Pulmonary Hypertension (WSPH) is an important milestone in pulmonary vascular medicine. Since the first WHO meeting on primary pulmonary hypertension in Geneva in October, 1973, these World Symposia have taken place in Evian (France, 1998), Venice (Italy, 2003), Dana Point (USA, 2008), and twice in Nice (France, 2013, and 2018). An insider view on the World Symposium on Pulmonary ... Since 1973 the World Symposia on Pulmonary Hypertension (WSPH) proceedings have summarised the scientific advances and future needs in this field through the efforts of multiple task forces, each focusing on a different aspect of pulmonary hypertension (PH). The 6th WSPH comprised 124 experts, divided into 13 task forces, that began their work in January 2017 and presented their consensus opinions to an audience of 1376 participant attendees between February 27 and March 1, 2018 in Nice ...
