*A First Book of Jurisprudence for Students of the Common Law* Chicago, Callaghan  
 This thoroughly engaging book uses empirical analysis to illustrate that the response of individuals to global terror events, via social media, provokes an opportunity to interpret the ways in which individuals view their place in the world and their relation to law and

justice. It is through analysing these responses that Cassandra Sharp demonstrates that a 'hashtag jurisprudence' can be constructed. Sharp offers a theory of law that combines narratives, the experience of terror and the expression of emotion through social media engagement. Using thought-provoking case studies of terrorist attacks between 2014 and 2018 from around the

world, the book examines how social media has quickly become the new forum for members of the public to express their opinions on current law and justice. It further demonstrates the significant impact that comments on social media platforms can have on social justice issues and activism. This timely book will be required reading for academics in law, social sciences and humanities. Scholars with

an interest in legal theory, philosophy, and law and emotion will find the case study findings insightful and informative. The Elements of Law; Being a Comprehensive Summary of American Civil Jurisprudence Edward Elgar Publishing This collection of essays centers around ethics and includes input from important ancient philosophers. Though this volume is heavily oriented towards the

practice of law, Marcus Aurelius, as arguably the most well-known of the Stoic Philosophers, is included as an important influence. The Rise & Fall of Classical Legal Thought Routledge “This little book will give you the information, the know-how and the tools to successfully challenge alleged Authority in and out of court. Barristers, QCs and lawyers worldwide have read and

discussed the content with the author and cannot find a legal argument against it. It works. Use it for defence, appeal or to challenge any claim made upon you.”-- Publisher’s Notes. **The Law Magazine, Or, Quarterly Review of Jurisprudence** Pearson UK Legal Reasoning and Objective Writing: A Comprehensive Approach is a textbook for the objective writing segment of a first-year legal

writing class, written by two professors who have collaborated for many years, and who between them have over 50 years of experience teaching legal analysis and writing. The book, which is written in a conversational manner to engage students and put them at ease so that they grasp difficult concepts easily, uses a variety of short examples throughout the chapters as well as

sample documents in the appendices with comprehensive annotations keyed to relevant portions of the book. Each chapter and accompanying optional closed-memo problem provide students with a sophisticated yet concrete step-by-step method to learn the analytical, organizational, and presentational skills necessary to convey legal analysis

effectively. The accompanying optional introductory problem and related assignment materials use a flipped-class approach to guide students through the memo project independently, allowing teachers to adapt the problem to fit a variety of teaching sequences.

**Law Express Question and Answer: EU Law (Q&A revision guide)**  
Routledge  
Maximise your marks for

every answer you write with 'Law Express Question and Answer'. This series is designed to help you understand what examiners are looking for, focus on the question being asked, and make even a strong answer stand out.

So, They Say You've Broken the Law

Pearson  
Higher Ed  
Routledge  
Q&As give you the tools to practice and refine your exam technique, showing you how to apply

your knowledge to maximum effect in assessment. Each book contains essay and problem-based questions on the most commonly examined topics, complete with expert guidance and model answers that help you to:

Plan your revision and know what examiners are looking for:  
Introducing how best to approach revision in each subject  
Identifying and explaining

the main elements of each question, and providing marker annotation to show how examiners will read your answer

Understand and remember the law: Using memorable diagram overviews for each answer to demonstrate how the law fits together and how best to structure your answer

Gain marks and understand areas of debate:  
Providing revision tips

and advice to help you aim higher in essays and exams

Highlighting areas that are contentious and on which you will need to form an opinion

Avoid common errors:

Identifying common pitfalls students encounter in class and in assessment

The series is supported by an online resource that allows you to test your progress during the run-up to exams.

Features

include: multiple choice questions, bonus Q&As and podcasts.

Tried and tested by undergraduate law students across the UK.

94% of students polled agree that Law Express helps them to revise effectively and take exams with confidence.

88% agree that Law Express helps them to understand key concepts

quickly. Make your answer stand out with Law Express, the UK's bestselling law revision series.

Review the key cases, statutes and legal terms you need to know for your exam.

Improve your exam performance with helpful advice on effective revision.

Maximise your marks with tips for advanced thinking and further debate.

Avoid losing marks by understanding common

pitfalls. Practise answering sample questions and find guidance for structuring strong answers. Hone your exam technique further with additional study materials on the companion website. *A Dictionary of Law* Pearson Higher Ed My dissertation for LLD (or JSD) Att beskriva rätten (To Describe Law), which was written under my bachelor surname of

Andréasson, was presented for public examination on Nov 4, 2004. Since then the text has been developed in two separate directions. On the one hand, three of the chapters have been made more accessible to students of jurisprudence and have been included in the second edition of the te- book *Rättsfilosofi, samhälle och moral genom tiderna* edited by Joakim Nergelius. On the other hand, the whole

dissertation has been revised, translated and published as the present book. In the time that has passed since my dissertation, many things have changed. On the personal level, my friend and tutor, Aleksander Peczenick, was sadly taken away from my circle of colleagues. In contrast to that sad event, I have spent two nine-month periods on paternity leave, raising my two

children, Selma and Bernhard. This past year, I have decided to move from theory to practice and have started working in a court of law. During my work on the dissertation, I had the opportunity to spend a rewarding term at Rutgers University in Camden, NJ visiting Professor Dennis Patterson. Since this book is a continuation of that project, it feels appropriate to

repeat my thanks to Professor Patterson and STINT (The Swedish Foundation for International Cooperation in Research and Higher Education) for making that visit possible.

"I'll sue you!"

In America's litigious society, everyone needs to know a few basics to avoid being snowed, cowed and generally abused. Even those who can afford to hire lawyers need to know what they are up to. This introduction to legal doctrines is a good first

step if you want to file suit or help prepare your own legal defenses.

When a conflict arises, what are the main doctrines of law that give one side an advantage? What do they mean, and how do they apply? When you can see through the legal jargon, the intimidation factor loses its power and you can concentrate on real issues and use these tools to take care of yourself.

Some of America's doctrines go back to the 17th-century English Bench and have had a lasting impact on our legal system. Other doctrines are of more recent vintage but have had an equally profound influence. The author has researched 1,000 legal cases and identified 326 different doctrines of law; of those, he has selected 25 doctrines that Americans are most likely to

encounter in everyday activities. In these pages he reviews actual cases to show how the doctrines apply in real-life scenarios and relates what happened in court. These non-jargon explanations of legal scenarios provide handy background reading for fans of courtroom dramas and, since any one of us may end up in court these days, important general education for every adult in the United States. The 25 doctrines discussed are:

1. Res Ipsa Loquitur
2. Promissory Estoppel
3. Respondeat Superior
4. Doctrine of Sudden Danger
5. Rescue Doctrine
6. Doctrine of Comparative Negligence
7. Doctrine of Unjust Enrichment
8. Doctrine of Unclean Hands
9. Doctrine of Unconscionability
10. Fruit of the Poisonous Tree Doctrine
11. Attractive Nuisance Doctrine
12. Doctrine of Mitigated Damages
13. Quantum Meruit Doctrine
14. Doctrine of Sovereign Immunity
15. Doctrine of Absolute Immunity
16. Doctrine of Qualified Immunity
17. Last Clear Chance Doctrine
18. Open and Obvious Danger Doctrine
19. Assumption of Risk Doctrine
20. Public Duty Doctrine
21. Statute of Limitations
22. Equitable Estoppel
23. Res Judicata
24. Collateral

Estoppel 25. Stare Decisis As an accessible point of introduction for those interested in the U.S. legal system, this book is suitable as a popular reference work for public libraries, auxiliary reading for business-school courses, a starting place for anyone caught in a legal conflict, and handy background reading for fans of courtroom drama novels and T.V.

**Q&A Jurisprudence**

Law Express Question and Answer: EU Law is designed to ensure you get the most marks for every answer you write by improving your understanding of what examiners are looking for, helping you to focus in on the question being asked and showing you how to make even a strong

answer stand out.  
Fundamental Legal Conceptions as Applied in Judicial Reasoning  
 Law Express: Jurisprudence Pearson UK  
The Theory of Legal Duties and Rights  
 Legal historian G. Edward White recently described it as the "most widely circulated and cited unpublished manuscript in twentieth-century American legal scholarship since Hart & Sacks' Legal Process

materials." It began the re-evaluation of law in the Gilded Age, and gave it its current name of Classical Legal Thought. It was also one of the first and most influential of the works that introduced European critical theory and structuralism into the study of American law. This reprint comes with a substantial new Introduction that puts the work in context and relates it to current scholarship in the field. It should interest historians generally as well as readers curious about how our legal system got its special modern character -- *Collected Legal Papers* Social Control Through Law is remarkable in manner and style. Roscoe Pound shows himself to be a jurist, philosopher, and scientist. For Pound, the subject matter of law involves examining manifestations of human nature which require social control to assert or realize individual expectations. Pound formulates a list of social-ethical principles, with a three-fold purpose. First, they are meant to identify and explain human claims, demands, or interests of a given social order. Second, they express what the majority of individuals in a given society want the law to do. Third, they are

meant to guide the courts in applying the law. Pound distinguishes between individual interests, public interests, and social interests. He warns that these three types of interests are overlapping and interdependent and that most claims, demands, and desires can be placed in all three categories. Pound's theory of social interests is crucial to his

thinking about law and lies at the conceptual core of sociological jurisprudence. Pound explains that rights unlike interests, are plagued with a multiplicity of meanings. He rejects the idea of rights as being natural or inalienable, and argues that to the contrary, interests are natural. The contemporary significance of the book is aptly demonstrated by the skyrocketing rate of

litigation in our postmodern society. As the influence of familial and religious institutions declines, the courts exert an unprecedented degree of control over the public and private lives of most Americans. Law is now the paramount agency of social control. In the new introduction, A. Javier Treviño outlines the principal aspects of Roscoe Pound's legal philosophy as

<p>it is conveyed in several of his books, articles, and addresses, and shows their relationship to Social Control Through Law.</p>	<p>This book is an insightful, concise summary of Pound's ideas that, after more than half a century, remains surprisingly fresh and</p>	<p>relevant. It will doubtlessly continue to engage jurists, legal theorists, and sociologists for many years to come.</p>
