STEELS: Metallurgy and Applications provides a metallurgical understanding of

commercial steel grades and the design, manufacturing and service requirements that govern their application. The properties of different steels are described, detailing the effect of composition, processing and heat treatment. Where appropriate an introduction is given to standard specifications and design codes provided on component manufacture and property requirements for successful service performance. The book deals with steel products in some depth, in four chapters covering wide strip, structural steels, engineering and stainless steel grades. At the beginning of each chapter an overview is given which details important features of the grades and a historical perspective of their development. Also featured are up to date information on steel prices and specifications. David Llewellyn has over thirty years experience in the steel industry and is currently lecturing in the Materials Engineering Department at University College Swansea. '..the book unfolds into an easily readable and a valuable source of highly relevant and contemporary information

on steels' - METALS AND MATERIALS '.. a high quality product from all points of view' - INSTITUTE OF METALS AND MATERIALS AUSTRALASIA features up to date information on steel prices and specifications.

 Amharic is the most widely spoken language in Ethiopia and therefore the most useful for travelers to this destination to know. Co-authored by a native Amharic speaker, this phrasebook features an easy-to-follow layout and makes an obvious companion to Lonely Planet's Ethiopia, Eritrea and Djibouti.

Clap When You Land
 Simon and Schuster
 Many young people and their families sacrifice a lot for the sake of pursuing a good education. Some leave their loved ones and dear friends behind to cross boundaries and even oceans, besides footing the bill for college education. But what if, in spite of apparent academic success, and with it improved career prospects, you still wonder where your life is headed? What if your new reality doesn't match your expectations, and instead

of mere homesickness, you succumb to loneliness, instead of fulfilling your dreams, you flounder for want of direction and wholeness? *ERMIAS* is a story about a young African student who comes to Europe in pursuit of a good education, but along the way struggles to determine what differentiates his primary desire from all other desires, including the desire to fall in love with a married woman.

Ethiopian Literature in Amharic

Vintage Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this

historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. *Historical Dictionary of Ethiopia* appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision, debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland,

Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

This is a fascinating portrait of Ethiopian writers of fiction of the 20th century and an in-depth analysis of the history of the development of Amharic literature and those who have shaped it. The range of writers covered varies from the aristocrats, educators and pioneers to the latest revolutionary writers. A vivid picture of the personal development and progress of these writers is given, as well as the impact these writers have had on Ethiopian society at large in changing old ideas, contributing towards the modernization of the country and revolutionizing the educational, social and political systems. All in all, this volume presents the portraits and sketches of thirty-two Ethiopian writers, including such notable literary giants as Hiruy Welde-Sillase,

Girmacchew Tekle-Hawariyat, Kebede Mikael, Haddis Alemayehu, Abbe Gubennya, Mammo Widdneh, Tsegaye Gebre-Medhin, Mengistu Lemma, Dannyachew Werqu, Birhanu Zerihun, and last but not least Be'alu Girma.

A Solemn Appeal Ember The mathematical sciences are part of nearly all aspects of everyday life-the discipline has underpinned such beneficial modern capabilities as Internet search, medical imaging, computer animation, numerical weather predictions, and all types of digital communications. The *Mathematical Sciences in 2025* examines the current state of the mathematical sciences and explores the changes needed for the discipline to be in a strong position and able to maximize its contribution to the nation in 2025. It finds the vitality of the discipline excellent and that it contributes in expanding ways to most areas of science and engineering, as well as to the nation as a whole, and recommends that training for future generations of mathematical scientists should be re-assessed in light of the increasingly cross-disciplinary nature

of the mathematical sciences. In addition, because of the valuable interplay between ideas and people from all parts of the mathematical sciences, the report emphasizes that universities and the government need to continue to invest in the full spectrum of the mathematical sciences in order for the whole enterprise to continue to flourish long-term.

On the occasion of her acceptance of the National Book Foundation Medal for Distinguished Contribution to American Letters on the sixth of November, 1996, Nobel laureate Toni Morrison speaks with brevity and passion to the pleasures, the difficulties, the necessities, of the reading/writing life in our time. Contains the articles by Ellen G. White which appeared in the book *A Solemn Appeal Relative to the Solitary Vice and Abuses and Excesses of the Marriage Relation*, published in 1870 by the Steam Press of Battle

Creek. Articles include *Appeal to Mothers*, *The Marriage Relation*, *Obedience to the Law of God*, *Female Modesty*, and *Sentimentalism*. About the Author Ellen Gould (Harmon) White, co-founder of the Seventh-day Adventist Church, writer, lecturer, and counselor, and one upon whom Seventh-day Adventists believe the gift of prophecy was bestowed, was born in Gorham, Maine, November 26, 1827, one of eight children of Robert and Eunice Harmon. During her seventy years of active service to the church, she found time to write voluminously. She is credited with having written 100,000 manuscript pages. This remarkable legacy to the church could alone have occupied Ellen White's entire life, had she dedicated her time to little else but writing. However, her service for the church embraces much more than writing. Her diaries tell of her public work, her travels, her personal labor, hostessing, contacts with neighbors, as well as of her being a mother and housewife. God blessed her abundantly in these activities. Her ambitions and concerns, her

satisfactions and joys, her sorrows--her whole life--were for the advancement of the cause she loved. Ellen G White is reputed to be the most translated woman author and the most translated author in American history. After a full life dedicated to the service of God and others, she died on July 16, 1915, confidently trusting in Him whom she believed.

The Greatest Story Ever Told--So Far Boydell & Brewer

In the early morning hours of June 6, 1944, a small detachment of British airborne troops stormed the German defense forces and paved the way for the Allied invasion of Europe. Pegasus Bridge was the first engagement of D-Day, the turning point of World War II. This gripping account of it by

acclaimed author Stephen Ambrose brings to life a daring mission so crucial that, had it been unsuccessful, the entire Normandy invasion might have failed. Ambrose traces each step of the preparations over many months to the minute-by-minute excitement of the hand-to-hand confrontations on the bridge. This is a story of heroism and cowardice, kindness and brutality—the stuff of all great adventures.

In a novel-in-verse that brims with grief and love, National Book Award-winning and New York Times bestselling author Elizabeth Acevedo writes about the devastation of loss, the difficulty of forgiveness, and the bittersweet bonds that shape our lives. Camino Rios lives for the summers when her father visits her in the Dominican Republic. But this time, on the day when his plane is supposed to land, Camino arrives at the airport to see crowds of crying people... In New York City, Yahaira Rios is called to the principal's office, where her mother is waiting to tell her that her father, her hero, has died in a plane crash. Separated by distance—and Papi's secrets—the two girls are forced to face a new

reality in which their father is dead and their lives are forever altered. And then, when it seems like they've lost everything of their father, they learn of each other. Great for summer reading or anytime! Clap When You Land is a Today show pick for "25 children's books your kids and teens won't be able to put down this summer!" This book is a first attempt to combine insights from the two perspectives with regard to the question of meaning by examining a collection of theoretical and empirical works. This volume therefore is destined to become an important addition to psychological literature: both from the viewpoint of the history of ideas (again this would be one of the first times that positive and existentialist psychologies meet) and from the viewpoint of theoretical and empirical research into the meaning concept in psychology. TEACH Services, Inc.

"This volume contains a collection of articles, written over a period of

ten years, which address different aspects of the literary tradition of the Ethiopian Orthodox Church. Most are editions of texts and their translations. These include new sources on the continuous controversy surrounding the meaning of Christ's Unction, a lengthy study on symbolism in the Church's ritual, the Vision of Baruch, and a compilation of different sources on Priest Yared the Musician and his works. ...author's original contributions..., such as the authorship of the Ethiopic anaphoras and the Ḥatāta "Discourse" of Zar'a Ya'āqob."--Title page verso.

'Sound Unseen' explores acousmatic sound - a sound that one hears without seeing its cause. Pierre Schaeffer, the inventor of musique concrète, in his *Traité des objets musicaux*, first popularized the term 'acousmatic'. After an introduction, the first chapter provides a thorough exegesis of Schaeffer's theory of

acousmatics. It also presents three objections to Schaeffer's theories (myth, phantasmagoria, and ontology) around which the book is structured.
