 (horizontally polarised) Concept. The
 design follows the idea of the so called
 "CobWebb-Antenna" for the high
 frequent shortwave bands. The basic

concept of this idea appears to be a
 folded dipole made of twin-lead which is
 then bend in a circle of rectangle.6m
 Horizontally Polarized Omnidirectional
 Antennahorizontally polarized
 omnidirectional antenna has been
 presented. The proposed antenna is
 well-matched across the LTE band and is
 able to provide a stable radiation
 patterns in both the azimuth and
 elevation planes across the bandwidth.
 Moreover, the variation in the patterns in
 the azimuth plane isA Wideband
 Horizontally Polarized Omnidirectional
 AntennaAbstract: This communication
 presents a broadband horizontally
 polarized (HP) omnidirectional antenna
 array with low gain variation for base-
 station applications. It consists of six
 omnidirectional antenna units. In order
 to generate HP omnidirectional radiation
 patterns for each unit, three wideband
 planar dipoles are employed as basic
 elements and they are connected by a
 wideband three-way ...Broadband
 Horizontally Polarized Omnidirectional
 Antenna ...These antennas represent a
 radical departure from previous
 attempts to design a horizontally
 polarized omnidirectional antenna.
 Previous attempts to create omnis have
 centered around shortening a half wave
 dipole and shaping it into a circle or
 square. The intent of shortening the
 dipole is to "pull" more current around
 towards the ends ...Omniangle Antennas
