 The Russian aircraft industry has, over the years, produced a staggering number of aircraft, large and small, for civil and military purposes. These aircraft have been powered by an equally extraordinary number of engines, built in Russian factories to both native and foreign designs. This detailed study of the piston aero engines produced by Russian factories form the birth of flight to the present is a tour de force of historical research, which has used many resources and archives not previously known in the west. The book includes every piston engine built from an original Russian design or copied from a foreign design; from engines used in the first Russian flying machines to microlight engines still in production. Each is written with its history, specifications and details of use.

What if walls could talk? For historian Madeleine Pelling, they can - if you know where to look. A brilliant new cultural history of the long eighteenth century, *Writing on the Wall* is told through the marks its citizens left behind, bringing into focus lost voices from the highest to the lowest in society. From the centre of London to the islands of the Caribbean, Pelling goes in search of graffiti, evidence of how ordinary people experienced the world-changing events that defined their lives - from political prisoners to sex workers, homesick sailors, Romantic poets and the artisans of the industrial revolution. Here are lives, loves, triumphs and failures, scratched into the walls of prisons and latrines, chalked up on doors and etched into windows. The names of their creators may be lost to history, but together they tell the real story of Britain's most rebellious and transformative century.

 In what ways are language, cognition and perception interrelated? Do they influence each other? This book casts a fresh light on these questions by putting individual speakers' cognitive contexts, i.e. their usage-preferences and entrenched patterns of linguistic knowledge, into the focus of investigation. It presents findings from original experimental research on spatial language use which indicate that these individual-specific factors indeed play a central role in determining whether or not differences in the current and/or habitual linguistic behaviour of speakers of German and English are systematically correlated with differences in non-linguistic behaviour (visual attention allocation to and memory for spatial referent scenes). These findings form the basis of a new, speaker-focused usage-based model of linguistic relativity, which defines language-perception/cognition effects as a phenomenon which primarily occurs within individual speakers rather than between speakers or speech communities.

No Period Simon and Schuster
 In the backwoods of Mississippi, a land of honeysuckle and grapevine, Jewel and her husband, Leston, are truly blessed; they have five fine children. When Brenda Kay is born in 1943, Jewel gives thanks for a healthy baby, last-born and most welcome. Jewel is the story of how quickly a life can change; how, like lightning, an unforeseen event can set us on a course without reason or compass. In this story of a woman's devotion to the child who is both her burden and God's singular way of smiling on her, Bret Lott has created a mother-daughter relationship of matchless intensity and beauty, and one of the finest, most indomitable heroines in contemporary American fiction.

The Free Bards

Deep in her heart was death which believed that a life like hers could be perfect no more with such a ruinous start. Brokenness was all that she knew growing up, threatening callousness of heart. A modern-day Cinderella was make-believe as an opiate of our senses towards the cruelty of life. No good things would last,

she came to believe. So, her safest bet was not to strive for them lest her fall would be more crippling from a greater height when life came crushing down on her again. By this she effectively put a curse on herself as she shut out future blessings that could have been hers. Life was an unknown and she did not know how it would turn out. To break this curse, she needed courage, faith and trust to respond to the call of love and let its transforming

power to take hold of her so that she could blossom into the person she could be. It did not promise plain sailing but riding through the storms, big and small, was the way of perfecting. To break hopelessness is having the faith to hope. She summoned all her courage to take this bumpy ride on invitation. Did she waver in her resolve? Did she manage to persevere? What did she discover about herself? Where would this bold step finally take her in life?
