Fernando Sor Alfred Music

Lyrical Solos from the British Isles is a collection of folk and traditional songs and dances with one hymn and a few original pieces added, all with the aspiring young clarinetist in mind. The author's 2018 "English Sonatina" is prominently featured. The modal and folk song-like character of the sonatina is reflected in the clarinet and piano arrangements of the other eleven songs in the collection, including such stalwarts as: "The Maiden's Lament", "Emerald Jig", "Wild Mountain Thyme", and "Scarborough Fair" plus two more Marshall originals — "Ballad" and "The Highlands". The folk influence in

this music is further enhanced by the innate lyrical quality of the clarinet in combination with stylistically complimentary piano accompaniment. All in all, these arrangements of well-known tunes together with the author's original compositions and performance notes present an engaging recital repertoire for the young clarinetist.

Easy Clarinet Duets
Below the Break is a
collection of 10 duets
which I have written
especially for young
students who have not
yet ventured over the
break. This collection
would be very useful
for teachers who are
looking for something
fun to do at the end of
a lesson, and they
could be performed at

an end of term concert or a school assembly. As a teacher, I found that there were very few clarinet duet books that didn't get too difficult too quickly, and the ones that were easy were just a bit boring for the students. This collection aims to fill that niche and there is something for everyone in there, without being difficult or overwhelming. The contents include: 1. Marigold 2. Summer Moment 3. Sparkle 4. Ghost Train 5. Weekend Winner 6. Philosophy 7. Class 8. Meditation 9. Cloudy Lemonade 10. Shady Subway There is a wide variety of styles included in this collection, and each duet focuses on a different technique, from staccato and legato to dynamics and syncopation. These

duets should provide a fun break from exam materiel, while still providing an educational element.
