This Book gives an outline of the method I used to make \$40,000 pure profit selling books on Amazon over the course of about 4 Years. When I first started I didn't know have much of a clue on how to sell books on Amazon in Volume. After about four years I was able to pretty much create an easy system that can be duplicated. The main 3 keys to doing this is being able to find #1 profitable books (sourcing) and also knowing how to #2 price your books correctly. Key #3 is a rinse and repeat system that is very effective and efficient. This book will give you a basic outline of a

system that has been proven to work. The reason book selling can be profitable is that often you can pick up used books for very cheap. Sometimes nearly for free. After that you can flip them on Amazon for \$20-\$100. Of course not all books are profitable, but some are. These are the books you need to search for!
