What lies beyond the era of fossil fuels? While most answers focus on different primary energy resources, Energy Systems in the Era of Energy Vectors provides a completely new approach. Instead of providing a traditional consumption analysis of classical primary energy resources such as oil, coal, nuclear power and gas, Energy Systems in the Era of Energy Vectors describes and assesses energy technologies, markets and future strategies, focusing on their capacity to produce, exchange, and use energy vectors. Special attention is given to the renewable energy resources available in different areas of the world and made exploitable by the integration of energy vectors in the global energy system. Clear definitions of energy vectors and energy systems are used as the basis for a complete explanation and assessment of up-to-date, available technologies for energy resources, transport and storage systems, conversion and use. The energy vectors scheme allows the potential realization of a worldwide sustainable energy system to fulfill global development expectations by minimizing both the impact on the environment, and the international political frictions for access to limited and concentrated resources. Energy Systems in the Era of Energy Vectors is an informative read for researchers and advanced students in industrial, energy and environmental engineering. It also contains valuable information for managers and technicians working in the energy sector.

Choose a stroke and get paddling through the human history of swimming! From man's first recorded dip into what's now the driest spot on earth to the splashing, sparkling pool party in your backyard, humans have been getting wet for 10,000 years. And for most of modern history, swimming has caused a ripple that touches us all--the heroes and the ordinary folk; the real and the mythic. Splash! dives into Egypt, winds through ancient Greece and Rome, flows mostly underground through the Dark and Middle Ages (at least in Europe), and then reemerges in the wake of the Renaissance before taking its final lap at today's Olympic games. Along the way, it kicks away the idea that swimming is just about moving through water, about speed or great feats of aquatic endurance, and shows you how much more it can be. Its history offers a multi-tiered tour through religion, fashion, architecture, sanitation and public health, colonialism, segregation and integration, sexism, sexiness, guts, glory, and much, much more. Unique and compelling, Splash! sweeps across the whole of humankind's swimming history--and just like jumping into a pool on a hot summer's day, it has fun along the way.

Cahaba Prison and the Sultana Disaster McFarland

"A delight for any student of the Civil War". -- The Courier

Stonewall Jackson's Valley Campaign University Alabama Press

The steamship Sultana explosion remains the worst maritime disaster for the loss of life in US history. Most casualties were paroled prisoners of the war recently released from the notorious Confederate prisons in Andersonville, Georgia, and Cahaba, Alabama. After surviving the horrors of the Civil

War and the atrocities of Southern prisoner camps, our American heroes were "Almost Home" when disaster struck the Sultana. Based on true events, we follow the journeys of Commander of Camp Sumter Prison - Henry Wirz, Sultana Steamship Captain - Cass Mason, and two young Ohio soldiers - Richard White and Thad Lewis through the war and explore their struggles, accomplishments, and growth as human beings. Each man is "Almost Home" when the tumultuous events of the war forever alter their lives.

This is the story of the little-known prisoner-of-war camp on the banks of the Alabama River near Selma where 5,000 Union soldiers were interned during the latter part of the Civil War. After surviving imprisonment and a forced march overland to the Mississippi River, they were to die in the worst accident of its type in U.S. history -- when the Sultana steamship exploded in mid-river while transporting them back to their homes in the North. 191 pp. New paperback. Erastus Winters was born in Cincinnati in 1843. In 1862 he enlisted in Company K of the 50th Ohio Volunteer Infantry, which was organized at Camp Dennison near Cincinnati, and mustered in for three years service under the command of Colonel J. R. Taylor. The regiment was attached to 34th Brigade, 10th Division, Army of the Ohio. In straightforward and measured prose, Winters describes his Civil War experiences, from camp life to pitched battles to prison. The 50th saw early action at the Battle of Perryville, Kentucky, and later joined General Sherman's Atlanta Campaign. In 1864, Winters was captured at the Battle of Franklin, Tennessee, and spent the remaining months of the war at the notorious Cahaba Prison in Alabama. Having survived the war, he nearly perished on his way back to Ohio, when the steamboat on which he and hundreds of other paroled prisoners were travelling, the Sultana, exploded and sank near Memphis. It was among the worst naval disasters in American history with over 1700 souls lost. Winters was not a remarkable soldier, neither gallant officer or daring hero, but he offers in his memoir the Civil War that an average infantry soldier experienced: fear, courage, death, humor, camaraderie, and ultimately a lifelong sense of pride. Until he died in 1925, Winters remained active in the Union veterans organization, the Grand Army of the Republic, and though decades removed, the Civil War was never far from him.

History of Lawrence and Monroe Counties, Indiana U of Nebraska Press

On a cold night in late April 1865, on the mighty Mississippi River just north of Memphis, Tennessee, scores of unsuspecting souls suddenly found themselves desperately struggling for their lives after the boilers exploded on the riverboat steamer Sultana. Although more lives were lost in this incident than would be lost on the Titanic in 1912, these homeward bound veterans of war have been nearly forgotten by the country they served so bravely. The author rectifies this oversight with his book-length treatment of the tragedy. Most of the men served in cavalry or infantry units from Indiana, Kentucky, Michigan, and Ohio, or cavalry units from Tennessee and Virginia. J2358HB - \$18.00

When Stephen's father passes away in 1861, he and his mother and brother are left at the mercy of a cruel uncle. As the Civil War intensifies to the south, Stephen's brother enlists to fight for the Union and help support the family. The war drags on and Stephen, an accomplished bugler in the town band, is witness to the sad consequences of slavery. The opportunity to enlist as Colonel Eli Lilly's personal bugler arises and Stephen jumps at the chance. After surviving the Battle of Sulphur Trestle in Alabama, Stephen is sent to a Confederate prison camp to await the end of the war. The trials of prison camp are severe but at war's end Stephen is set to be sent home to Indiana aboard the steamboat Sultana. However, disaster strikes and the ship catches fire and capsizes in America's largest maritime disaster. Through luck and fortitude Stephen survives, but his Civil War journey is one that will engage readers of all ages. Based on historical facts and characters, Stephan's story truly captures the essence of the era.

At two o'clock in the morning on 27 April 1865, seven miles north of Memphis on the Mississippi, the sidewheel steamboat Sultana's boilers suddenly exploded. Legally registered to carry 376 people, the boat was packed with 2,100 recently released Union prisoners-of-war. Over 1,700 people died, making it the worst marine disaster in U.S. history. This book looks at the disaster through the eyes of the victims themselves. It offers a concise, minute-by-minute account on the cause of the explosion and its effect on different parts of the boat. To focus on the personal stories of the victims, both civilian and soldier, Gene Eric Salecker patiently collected material from hundreds of letters, period newspaper stories, and other sources. Readers are first introduced to victims while they are languishing in Confederate prisons and follow their release to an exchange camp outside of Vicksburg to their eventual crowding onto the Sultana. His knowledgeable narrative is interwoven with individual reminiscences, including those of the heroic rescuers. He offers unprecedented details about the captain's handling of the steamboat and corrects some long-held myths about the placement of the soldiers on the Sultana and newspaper coverage of the disaster. A large portion of the book covers rescue attempts, both successful and failed, and the aftermath of the disaster as it affected those involved. With its emphasis on the human-interest aspect of the Sultana, this book brings to the literature a critical point of view and much new research.

A Buckeye in the 50th Ohio Pelican Publishing Company

In the fine tradition established by her Southern grandmama, Aurora Daughtry has recently orchestrated the marriage of her eldest sister and facilitated her middle sister's engagement. She also rejoices in her part in transforming the family's dilapidated plantation manor into a luxurious and

lucrative resort hotel. Just when it seems there is nothing left to absorb her considerable talent for managing people, in walks federal deputy marshal Zane Sager. But Zane is not at Daughtry House for a vacation. He's tracking a killer and collecting two key witnesses to a federal judge's murder. Aurora takes it upon herself to disabuse the cynical lawman of his conviction that the world is out to get him. But just as she's on the verge of cracking Zane's defenses, the man he is after reminds him that no one he loves is safe. Ever. Award-wining author Beth White closes out her Daughtry House series with this exciting and emotional tale of two strong-willed people who may have met their match.

Incidents of the War Harper Collins

The holding of prisoners of war has always been both a political and a military enterprise, yet the military prisons of the Civil War, which held more than four hundred thousand soldiers and caused the deaths of fifty-six thousand men, have been nearly forgotten. Now Lonnie R. Speer has brought to life the least-known men in the great struggle between the Union and the Confederacy, using their own words and observations as they endured a true ?hell on earth.? Drawing on scores of previously unpublished firsthand accounts, *Portals to Hell* presents the prisoners' experiences in great detail and from an impartial perspective. The first comprehensive study of all major prisons of both the North and the South, this chronicle analyzes the many complexities of the relationships among prisoners, guards, commandants, and government leaders.

Sinking the Sultana McFarland

In 1865 there were just 600 people living on Kelleys Island in Lake Erie. But this little island sent almost 100 of its men to fight in the Civil War.

Through the soldier's letters, newspaper accounts and historical documents, the island's development can be explored. Her soldiers fought in the 3rd Ohio Cavalry, 24th, 38th, and 101st Ohio Infantries, the 1st Ohio Heavy Artillery and the 130th Ohio Volunteer Militia. Douglas Kelley was wounded at Libby prison, Simon Huntington was killed in action at Stone River and Jacob Rush was captured as a spy, sent to Cahaba prison where he helped lead an escape attempt and on his return home, was one of the few survivors of the Sultana explosion. This is life on an Ohio island, told by the islanders themselves.

History of a Disaster where Over One Thousand Five Hundred Human Beings Were Lost, Most of Them Being Exchanged Prisoners of War on Their Way Home After Privation and Suffering from One to Twenty-three Months in Cahaba and Andersonville Prisons Smashwords

It is the worst Civil War POW camp you've probably never heard of. A larger percentage of those who left Cahaba died once back in Union lines than of those who left Andersonville. it was five times more crowded than Andersonville. Jesse Hawes was an 18-year-old enlistee in the 9th Illinois Cavalry who was captured and imprisoned at Cahaba. In one of the most articulate, unique, and moving accounts of prison life in the south, the Colorado physician looks back more than thirty years to the desperate days filled with starvation, death, and disease. Not only did he rely on his memory but he researched the Union and Confederate records to bring incredible detail to this comprehensive work. After the war, Hawes became a respected Colorado surgeon. He attended many reunions of the 9th Illinois and never forgot the friendships born of unspeakable hardships. Every memoir of the American Civil War provides us with another view of the catastrophe that changed the country forever. The Civil War, the Island Soldiers, & the Island Queen Springer Science & Business Media

The worst maritime disaster in American history wasn't the Titanic. It was the steamboat Sultana on the Mississippi River — and it was completely preventable. In 1865, the Civil War was winding down and the country was reeling from Lincoln's assassination. Thousands of Union soldiers, released from Confederate prisoner-of-war camps, were to be transported home on the steamboat Sultana. With a profit to be made, the captain rushed repairs to the ship so the soldiers wouldn't find transportation elsewhere. More than 2,000 passengers boarded in Vicksburg, Mississippi . . . on a boat with a capacity of 376. The journey was violently interrupted when the ship's boilers exploded, plunging the Sultana into mayhem; passengers were bombarded with red-hot iron fragments, burned by scalding steam, and flung overboard into the churning Mississippi. Although rescue efforts were launched, the survival rate was dismal — more than 1,500 lives were lost. In a compelling, exhaustively researched account, renowned author Sally M. Walker joins the ranks of historians who have been asking the same question for 150 years: who (or what) was responsible for the Sultana's disastrous fate?

Energy Systems in the Era of Energy Vectors BIG BYTE BOOKS

Captain George W. Alexander was a controversial figure in Richmond during the Civil War, honored as a hero and condemned as a cruel prison superintendent. He was appointed Provost Marshall and put in charge of Castle Thunder in 1862, after escaping imprisonment at Fort McHenry. At his Confederate prison in Richmond, he oversaw prisoners of all types, including Confederates, women, slaves, Federal deserters, and spies. This biography traces his entire life from his career in the U.S. Navy and the voyage with Commodore Perry to Japan, to his hiding in Canada after Lees surrender, to his editorship of Washington DC's "Sunday Gazette" and death in 1895. The main body of the text concentrates on Alexanders time at Castle Thunder, but the book also explores the evolution of the prison system and the provost marshalls department, touching on unusual prisoners and escape attempts. Appendix 1 is a partial list of prisoners at Castle Thunder and when, where, and why they were arrested. Appendix 2 is a transcript of the court martial of Private John R. Jones. Appendix 3 lists prisoners sent from Camp Holmes and appendix 4 is a report of Alexander as Assistant Provost Marshall. Appendix 5 is a pamphlet published by the Republican Party National Committee; it struck at the it struck at the Democratic Party by scorning its military prison keepers.

Lee Surrenders! "President Murdered!" "Booth Killed!" screamed the headlines of American newspapers in April 1865, leaving little room for mention

of a maritime disaster that to this day is America's worst. On April 27, 1865, the Sultana, a 260-foot, wooden-hulled steamboat-smaller than the Titanic but carrying more passengers-exploded on the Mississippi River near Memphis, Tennessee. More than 1,800 men, mostly Union soldiers on their way home from Confederate prison camps, died. On board were over 2,400 passengers-six times the ship's legal capacity. Although jubilant about the war's end, most of the men were weakened by malnutrition and disease from their imprisonment at Andersonville and Cahaba. Hundreds who were not killed in the explosion drowned in the cold, swift waters of the muddy river. Because of the timing of the sinking, coverage of the

Sultana's demise was scant, and the tragedy has passed almost unnoticed in the pages of American history. In this highly documented book, author Jerry Potter focuses on how greed, indifference, gross stupidity, and criminal misconduct reaching as far as the White House led to the overloading of the Sultana at Vicksburg. Such irresponsible conduct characterized the actions of President Lincoln, an entire chain of army command, and several profit-hungry civilians. This authoritative work contains abundant photographs and illustrations, as well as the most complete list of the ship's passengers available.
