Inside the Court of Vladimir Putin

Hachette Books

An extraordinary behind-the-scenes portrait of the court of Vladimir Putin, the oligarchs that surround it, and the many moods of modern Russia that reads like a "real House of Cards"(Lev Lurie). All the Kremlin's Men is a gripping narrative of an accidental king and a court out of control.

Based on an unprecedented series of interviews with Vladimir Putin's inner circle, this book presents a radically different view of power and politics in Russia. The image of Putin as a strongman is dissolved. In its place is a weary figurehead buffeted -- if not controlled -- by the men who at once advise and deceive him. The regional governors and bureaucratic leaders are immovable objects, far more powerful in their fiefdoms than the president himself. So are the gatekeepers--those officials who guard the pathways to power--on whom Putin depends as much as they rely on him. The tenuous edifice is filled with all of the intrigue and plotting of a Medici court, as enemies of the state are invented and wars begun to justify personal gains, internal rivalries, or one faction's biased advantage. A bestseller in Russia, All the

Kremlin's Men is a shocking revisionist portrait of the Putin era and a dazzling reconstruction of the machinations of courtiers running riot.

The Invention of Russia Yale University Press

The arrest of Mikhail Khodorkovsky, the head of the Yukos oil company, on 25 October 2003, was a key turning point in modern Russian history. At that time Khodorkovsky was one of the world's richest and most powerful men, while Yukos had been transformed into a vast and lucrative oil company that was set to go global. On all counts, this looked like a success story, but it was precisely at this moment that the Russian authorities struck. After two controversial trials, attracting widespread international condemnation, Khodorkovsky was sentenced to fourteen years in jail. In this

book, Richard Sakwa examines the rise and fall of Yukos, and the development of the Russian oil industry more generally. Sakwa analyses Russia's emergence as an energy superpower, and considers the question of the 'natural resource curse' and the use of energy rents to bolster Russia as a great power and to maintain the autonomy of the regime. Crucially this book also examines the relationship between Putin's state and big business during Russia's traumatic shift from the Soviet planned economy to the market system. It is a detailed analysis of one of the most dramatic confrontations between economic and political power in our era, full of human drama and moral dilemmas. It is also a study of political economy, with the market and state coming into confrontation. Above all, the 'Yukos affair' continues to shape contemporary Russian politics, with a weakened judiciary and insecure property rights. It traces the struggles of the Putin era as two visions of society came into conflict. The attack on Khodorkovsky had - and continues to have - far-reaching political and economic consequences but it also raises fundamental questions about the quality of freedom in Putin's Russia as well as in the world at large.

Godfather of the Kremlin Princeton University Press

Chronicles the life of the head of one of Moscow's gangster families, who financed the reelection of Boris Yeltsin and became one of his key advisors.

A Gentleman in Moscow Simon and Schuster

A provocative, comprehensive analysis of Vladimir Putin and Russia's master plan to destroy democracy in the age of Donald Trump. In the greatest intelligence operation in the history of the world, Donald Trump was made President of the United States with the assistance of a foreign power. For the first time, *The Plot to Destroy Democracy* reveals the dramatic story of how blackmail, espionage, assassination, and psychological warfare were used by Vladimir Putin and his spy agencies to steal the 2016 U.S. election -- and attempted to bring about the fall of NATO, the European Union, and western democracy. It will show how Russia and its fifth column allies tried to flip the cornerstones of democracy in order to re-engineer the world political order that has kept most of the world free since 1945. Career U.S. Intelligence officer Malcolm Nance will examine how Russia has used cyber warfare, political propaganda, and manipulation of our perception of reality -- and will do so again -- to weaponize

American news, traditional media, social media, and the workings of the internet to attack and break apart democratic institutions from within, and what we can expect to come should we fail to stop their next attack. Nance has utilized top secret Russian-sourced political and hybrid warfare strategy documents to demonstrate the master plan to undermine American institutions that has been in effect from the Cold War to the present day. Based on original research and countless interviews with espionage experts, Nance examines how Putin's recent hacking accomplished a crucial first step for destabilizing the West for Russia, and why Putin is just the man to do it. Nance exposes how Russia has supported the campaigns of right-wing extremists throughout both the U.S. and Europe to leverage an axis of autocracy, and how Putin's agencies have worked since 2010 to bring fringe candidate Donald Trump into elections. Revelatory, insightful, and shocking, *The Plot To Destroy Democracy* puts a professional spy lens on Putin's plot and unravels it play-by-play. In the end, he provides a better understanding of why Putin's efforts are a serious threat to our national security and global alliances -- in much more than one election -- and a blistering indictment of Putin's puppet, President Donald J. Trump.

Putin: His Downfall and Russia's Coming Crash Public Affairs

A celebrated foreign policy expert and key impeachment witness reveals how declining opportunity has set America on the grim path of modern Russia--and draws on her personal journey out of poverty, and her unique perspectives as an historian and policy maker, to show how we can return hope to our forgotten places.

Weak Strongman Mariner Books

Two courageous journalists chart how the KGB rose from the Soviet ashes and recreated itself as the FSB at the prompting and with the assistance of Vladimir Putin. In *The New Nobility*, two courageous Russian investigative journalists open up the closed and murky world of the Russian Federal Security Service. While Vladimir Putin has been president and prime minister of Russia, the Kremlin has deployed the security services to intimidate the political opposition, reassert the power of the state, and carry out assassinations overseas. At the same time, its agents and spies were put beyond public accountability and blessed with the prestige, benefits, and legitimacy lost since the Soviet collapse. The security services have played a central- and often

mysterious-role at key turning points in Russia during these tumultuous years: from the Moscow apartment house bombings and theater siege, to the war in Chechnya and the Beslan massacre. The security services are not all-powerful; they have made clumsy and sometimes catastrophic blunders. But what is clear is that after the chaotic 1990s, when they were sidelined, they have made a remarkable return to power, abetted by their most famous alumnus, Putin. [The Code of Putinism](#) PublicAffairs "Charting the transformation of Vladimir Putin from a passionate fan of the West and a liberal reformer into a hurt and introverted outcast, *All the Kremlin's Men* is a historical detective story, full of intrigue and conspiracy. This is the story of the political battles that have taken place in the court of Vladimir Putin since his rise to power, and a chronicle of friendship and hatred between the Russian leader and his foreign partners and opponents..."-- *Inside the Court of Vladimir Putin* Random House

What is Vladimir Putin up to? This book shows how the mentality of Putin and his team - the code of Putinism - has shaped Russian politics over the past two decades. It explains not only the thoughts and ideas that motivate Putin's decisions, but also the set of emotions and habits that influence how Putin and his close allies view the world. The code of Putinism has powerfully shaped the nature of Russia's political system, its economy, and its foreign policy. Taylor draws on a large number of interviews, the speeches of Putin and other top officials, and the Russian media to analyze the mentality of Team Putin. Key features of Russian politics today -- such as authoritarianism, Putin's reliance on a small group of loyal friends and associates, state domination of the economy, and an assertive foreign policy - are traced to the code of Putinism. Key ideas of the code include conservatism, anti-Americanism, and the importance of a state that is powerful both at home and abroad. Dominant habits of Putin and his associates include control, order, and loyalty. Important feelings driving Russia's rulers include the need for respect, resentment about lost status and mistreatment by the West, and vulnerability. While some observers portray Putin as either a cold-blooded pragmatist or a strident Russian nationalist, Taylor provides a more nuanced and compelling interpretation of Putin's motives and actions. *The Code of Putinism* also shows how Putin's choices, guided by this mentality, have led to a Russia that is misruled at home and

punching above its weight abroad.

Once Upon a Time in Russia Simon and Schuster

National Book Award winner Masha Gessen's biography of a ruthless man's ascent to near-absolute power. "In a country where journalists critical of the government have a way of meeting untimely deaths, Ms. Gessen has shown remarkable courage in researching and writing this unflinching indictment of the most powerful man in Russia." —The Wall Street Journal The Man Without a Face is the chilling account of how a low-level, small-minded KGB operative ascended to the Russian presidency and, in an astonishingly short time, destroyed years of progress and made his country once more a threat to her own people and to the world. Handpicked as a successor by the "family" surrounding an ailing and increasingly unpopular Boris Yeltsin, Vladimir Putin seemed like a perfect choice for the oligarchy to shape according to its own designs. Suddenly the boy who had stood in the shadows, dreaming of ruling the world, was a public figure, and his popularity soared. Russia and an infatuated West were determined to see the progressive leader of their dreams, even as he seized control of media, sent political rivals and critics into exile or to the grave, and smashed the country's fragile electoral system, concentrating power in the hands of his cronies. As a journalist living in Moscow, Masha Gessen experienced this history firsthand, and for *The Man Without a Face* she has drawn on information and sources no other writer has tapped. Her account of how a "faceless" man maneuvered his way into absolute—and absolutely corrupt—power is the definitive biography of Vladimir Putin.

The Khodorkovsky-Yukos Affair Simon and Schuster

WINNER OF THE ORWELL PRIZE WINNER OF THE CORNELIUS RYAN AWARD FINALIST FOR THE LIONEL GELBER PRIZE FINANCIAL TIMES BOOK OF THE YEAR "Fast-paced and excellently written." —New York Times "Filled with sparkling prose and deep analysis." —The Wall Street Journal An essential analysis to understanding Putin's playbook and understanding the real Russian threat to World order and peace How did a country that embraced freedom over twenty-five years ago end up as an autocratic police state bent once again on confrontation with the West? In this Orwell Prize-winning book, Arkady Ostrovsky reaches back to the darkest days of the Cold War to tell the story of Russia's stealthy and largely unchronicled post-Soviet transformation. A

highly regarded Moscow correspondent for the Economist, Arkady Ostrovsky comes to this story both as a participant and a foreign correspondent. His knowledge of many of the key players allows him to explain the phenomenon of Vladimir Putin - his rise and astonishing longevity, his use of hybrid warfare and the alarming crescendo of his military interventions. In his new paperback preface, Ostrovsky explores how Putin influenced the US election, the Trump Putin access, and shows how Putin's methods - weaponizing the media and serving up fake news - came to enter American politics.

The Empire Must Die UNC Press Books

The untold story of how Russia refined the art and science of targeted assassination abroad -- while Western spies watched in horror as their governments failed to guard against the threat. They thought they had found a safe haven in the green hills of England. They were wrong. One by one, the Russian oligarchs, dissidents, and gangsters who fled to Britain after Vladimir Putin came to power dropped dead in strange or suspicious circumstances. One by one, their British lawyers and fixers met similarly grisly ends. Yet, one by one, the British authorities shut down every investigation -- and carried on courting the Kremlin. The spies in the riverside headquarters of MI6 looked on with horror as the scope of the Kremlin's global killing campaign became all too clear. And, across the Atlantic, American intelligence officials watched with mounting alarm as the bodies piled up, concerned that the tide of death could spread to the United States. Those fears intensified when a one-time Kremlin henchman was found bludgeoned to death in a Washington, D.C. penthouse. But it wasn't until Putin's assassins unleashed a deadly chemical weapon on the streets of Britain, endangering hundreds of members of the public in a failed attempt to slay the double agent Sergei Skripal, that Western governments were finally forced to admit that the killing had spun out of control. Unflinchingly documenting the growing web of death on British and American soil, Heidi Blake bravely exposes the Kremlin's assassination campaign as part of Putin's ruthless pursuit of global dominance -- and reveals why Western governments have failed to stop the bloodshed. The unforgettable story that emerges whisks us from London's high-end night clubs to Miami's million-dollar hideouts ultimately renders a bone-chilling portrait of money, betrayal, and murder, written with the pace and propulsive power of a thriller. Based on a vast trove of unpublished documents, bags of discarded police

evidence, and interviews with hundreds of insiders, this heart-stopping international investigation uncovers one of the most important -- and terrifying -- geopolitical stories of our time.

Inside the Court of Vladimir Putin Macmillan

How the West's obsession with Vladimir Putin prevents it from understanding Russia It is impossible to think of Russia today without thinking of Vladimir Putin. More than any other major national leader, he personifies his country in the eyes of the world, and dominates Western media coverage. In Russia itself, he is likewise the centre of attention both for his supporters and his detractors. But, as Tony Wood argues, this focus on Russia's president gets in the way of any real understanding of the country. The West needs to shake off its obsession with Putin and look beyond the Kremlin walls. In this timely and provocative analysis, Wood explores the profound changes Russia has undergone since 1991. In the process, he challenges several common assumptions made about contemporary Russia. Against the idea that Putin represents a return to Soviet authoritarianism, Wood argues that his rule should be seen as a continuation of Yeltsin's in the 1990s. The core features of Putinism—a predatory elite presiding over a vastly unequal society—are in fact integral to the system set in place after the fall of Communism. Wood also overturns the standard view of Russia's foreign policy, identifying the fundamental loss of power and influence that has underpinned recent clashes with the West. Russia without Putin concludes by assessing the current regime's prospects, and looks ahead to what the future may hold for the country.

All the Kremlin's Men Oxford University Press

"I read this book in one night, truly a page-turner. It leaves a profoundly scary impression: [Putin's court is the] real House of Cards." --Lev Lurie, writer and historian *All the Kremlin's Men* is a gripping narrative of an accidental king and a court out of control. Based on an unprecedented series of interviews with Vladimir Putin's inner circle, this book presents a radically different view of power and politics in Russia. The image of Putin as a strongman is dissolved. In its place is a weary figurehead buffeted--if not controlled--by the men who at once advise and deceive him. The regional governors and bureaucratic leaders are immovable objects, far more powerful in their fiefdoms than the president himself. So are the gatekeepers--those officials who guard the pathways to power--on whom

Putin depends as much as they rely on him. The tenuous edifice is filled with all of the intrigue and plotting of a Medici court, as enemies of the state are invented and wars begun to justify personal gains, internal rivalries, or one faction's biased advantage. A bestseller in Russia, *All the Kremlin's Men* is a shocking revisionist portrait of the Putin era and a dazzling reconstruction of the machinations of courtiers running riot.

A Russian Diary ABRAMS

In *The Long Hangover*, Shaun Walker provides a deeply reported, bottom-up explanation of Russia's resurgence under Putin. By cleverly exploiting the memory of the Soviet victory over fascism in World War II, Putin's regime has made ordinary Russians feel that their country is great again. Shaun Walker provides new insight into contemporary Russia and its search for a new identity, telling the story through the country's troubled relationship with its Soviet past. Walker not only explains Vladimir Putin's goals and the government's official manipulations of history, but also focuses on ordinary Russians and their motivations. He charts how Putin raised victory in World War II to the status of a national founding myth in the search for a unifying force to heal a divided country, and shows how dangerous the ramifications of this have been. The book explores why Russia, unlike Germany, has failed to come to terms with the darkest pages of its past: Stalin's purges, the Gulag, and the war deportations. The narrative roams from the corridors of the Kremlin to the wilds of the Gulags and the trenches of East Ukraine. It puts the annexation of Crimea and the newly assertive Russia in the context of the delayed fallout of the Soviet collapse. *The Long Hangover* is a book about a lost generation: the millions of Russians who lost their country and the subsequent attempts to restore to them a sense of purpose. Packed with analysis but told mainly through vibrant reportage, it is a thoughtful exploration of the legacy of the Soviet collapse and how it has affected life in Russia and Putin's policies.

The Cardinal of the Kremlin Penguin
Following his explosive New York Times bestseller *Red Notice*, Bill Browder returns with another gripping thriller chronicling how he became Vladimir Putin's number one enemy by exposing Putin's campaign to steal and launder hundreds of billions of dollars and kill anyone who stands in his way. When Bill Browder's young Russian lawyer, Sergei Magnitsky, was beaten to death in a Moscow jail, Browder made it his life's mission to go after his killers and make sure they faced justice. The first

step of that mission was to uncover who was behind the \$230 million tax refund scheme that Magnitsky was killed over. As Browder and his team tracked the money as it flowed out of Russia through the Baltics and Cyprus and on to Western Europe and the Americas, they were shocked to discover that Vladimir Putin himself was a beneficiary of the crime. As law enforcement agencies began freezing the money, Putin retaliated. He and his cronies set up honey traps, hired process servers to chase Browder through cities, murdered more of his Russian allies, and enlisted some of the top lawyers and politicians in America to bring him down. Putin will stop at nothing to protect his money. As *Freezing Order* reveals, it was Browder's campaign to expose Putin's corruption that prompted Russia's intervention in the 2016 US presidential election. At once a financial caper, an international adventure, and a passionate plea for justice, *Freezing Order* is a stirring morality tale about how one man can take on one of the most ruthless villains in the world—and win.

All the Kremlin's Men PublicAffairs

A Sunday Times bestseller | A New York Times Book Review Editors' Choice Named a best book of the year by The Economist | Financial Times | New Statesman | The Telegraph "[Putin's People] will surely now become the definitive account of the rise of Putin and Putinism." —Anne Applebaum, The Atlantic "This riveting, immaculately researched book is arguably the best single volume written about Putin, the people around him and perhaps even about contemporary Russia itself in the past three decades." —Peter Frankopan, Financial Times
Interference in American elections. The sponsorship of extremist politics in Europe. War in Ukraine. In recent years, Vladimir Putin's Russia has waged a concerted campaign to expand its influence and undermine Western institutions. But how and why did all this come about, and who has orchestrated it? In *Putin's People*, the investigative journalist and former Moscow correspondent Catherine Belton reveals the untold story of how Vladimir Putin and the small group of KGB men surrounding him rose to power and looted their country. Delving deep into the workings of Putin's Kremlin, Belton accesses key inside players to reveal how Putin replaced the freewheeling tycoons of the Yeltsin era with a new generation of loyal oligarchs, who in turn subverted Russia's economy and legal system and extended the Kremlin's reach into the United States and Europe. The result is a chilling and revelatory exposé of the KGB's revanche—a story that begins in the murk of the Soviet collapse, when networks of operatives were able to siphon billions of dollars out of state enterprises and move their spoils into the West. Putin and his allies subsequently completed the agenda, reasserting Russian power while taking control of the economy for themselves, suppressing independent voices, and launching covert influence operations abroad. Ranging from Moscow and London to Switzerland and Brooklyn's Brighton Beach—and assembling a colorful cast of characters to match—*Putin's People* is the definitive account of how hopes for the new Russia went astray, with stark consequences for its inhabitants and, increasingly, the world.

Spymaster Houghton Mifflin Harcourt
Ever since Vladimir Putin came to power in Russia, his critics have turned up dead on a regular basis. According to Amy Knight, this is no coincidence. In *Orders to Kill*, the KGB scholar ties dozens of victims together to expose a campaign of political murder during Putin's reign that even includes terrorist attacks such as the

Boston Marathon bombing. Russia is no stranger to political murder, from the tsars to the Soviets to the Putin regime, during which many journalists, activists and

political opponents have been killed. Kremlin defenders like to say, "There is no proof," however convenient these deaths have been for Putin, and, unsurprisingly,

because he controls all investigations, Putin is never seen holding a smoking gun. Orders to Kill is a story long hidden in plain sight with huge ramifications.
