Six murders. One hundred pages. Millions of possible combinations... but only one is correct. Can you solve Torquemada's murder mystery? In 1934, the Observer's cryptic crossword compiler, Edward Powys Mathers (aka Torquemada), released a novel that was simultaneously a murder mystery and the most fiendishly difficult literary puzzle ever written. The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Only three puzzlers have ever solved the mystery of Cain's Jawbone: do you have what it takes to join their ranks? Please note: this puzzle is extremely difficult and not for the faint-hearted.

Adobe Design Achievement Award winner - Social Impact Category A portion of proceeds will be donated to Rainbow Railroad, an organization that helps LGBTQ people around the world find a safe haven from persecution. A cheeky, progressive adult alphabet book that celebrates and illuminates LGBTQ terminology. What would happen if someone picked up a classic ABC book, crossed out the words, and replaced them with LGBTQ terms? The result would be GAYBCs --a playful, subversive alphabet book that aims to spread awareness and demystify queer terminology for everyone. Instead of apple, ball, and chick, this book's ABCs are ally, bisexual, and cisgender. A ladybug gains a matching girlfriend to become lesbian, kiss becomes kink, and tie gets a gender-bending twist to become transgender. Using straightforward, accessible language, GAYBCs also defines less commonly known terms, such as "femme," "Mx.," and "ze," and puts LGBTQ-friendly spins on words like "wedding" and "equality." With clear definitions and clever illustrations, this book is accessible to everyone from teenagers to grandparents and those in the LGBTQ community as well as family, friends, and

allies of all backgrounds. A fun and informative adult picture book, *GAYBCs* is a queer ABCs for our modern world.
