Spiritual Warfare and the Discernment of Spirits Cambridge University Press

Satan is always at work breeding sadness and anxiety while providing obstacles that prevent souls from making spiritual progress. In this concise yet powerful book, author Dan Burke presents the venerable, time-tested wisdom of Catholic mystics to help you understand the influence of the Enemy on your mind and heart, and the tactics you need to combat him. With St. Ignatius as his guide, Burke presents here an indispensable, authoritative manual for engaging in daily battle with the Adversary—combat that is both inevitable and winnable. Burke will help you recognize the ebbs and flows of consolation and desolation, and distinguish between the voices of God and of Satan. Best of all, you'll come to see the spiritual life not as a science to be learned, but as an intuitive art to be practiced as you move with increasing success from habitual sin to sanctity. The battle for our souls is unavoidable. The saints won theirs by learning how to be spiritual warriors and by recognizing that we become stronger through battle and grow weaker from avoidance. With this book as your guide, you'll grow in strength and contentment as you learn: -How to take captive every negative thought and make it obedient to Christ -St. Ignatius's revelations exposing how the Devil seeks to influence us -The Paradigm of Ascent and the Five Steps to Sanctity -The three ways you can discern "Good Spirits" from "Bad Spirits" -The three principal causes of desolation—and what you must do when it afflicts your soul -Proven methods for moving away from sin and toward self-giving love of God and neighbor.

From 1400 through 1700, the number of reports of demonic possessions among European women was extraordinarily high. During the same period, a new type of mysticism—popular with women—emerged that greatly affected the risk of possession and, as a result, the practice of exorcism. Many feared that in moments of rapture, women, who had surrendered their souls to divine love, were not experiencing the work of angels, but rather the ravages of demons in disguise. So how then, asks Moshe Sluhovsky, were practitioners of exorcism to distinguish demonic from divine possessions? Drawing on unexplored accounts of mystical schools and spiritual techniques, testimonies of the possessed, and exorcism manuals, *Believe Not Every Spirit* examines how early modern Europeans dealt with this dilemma. The personal experiences of practitioners, Sluhovsky shows, trumped theological knowledge. Worried that this could lead to a rejection of Catholic rituals, the church reshaped the meaning and practices of exorcism, transforming this healing rite into a means of spiritual interrogation. In its efforts to distinguish between good and evil, the church developed important new explanatory frameworks for the relations between body and soul, interiority and exteriority, and the natural and supernatural.

The Practice of Prayerful Discernment The Way of Discernment Spiritual Practices for Decision Making

Many of us do not trust our own thoughts, feelings, and desires when it comes to discerning God's will. Instead we look outside ourselves to determine what God wants from and for us. In *God's Voice Within*, spiritual director Mark E. Thibodeaux, SJ, shows us how to use Ignatian discernment to access our own spiritual intuition and understand that the most trustworthy wisdom of all comes not from outside sources, but from God working through us. *God's Voice Within* is intended for people who know that there is more to the spiritual life than they are currently experiencing and are ready to take the next step in their walk of faith by making effective discernment—specifically Ignatian discernment—a daily practice. Ultimately, *God's Voice Within* teaches us to discern what is at the root of our actions and emotions, which in turn allows us to respond to God's promptings inside us rather than unconsciously reacting to life around us.

We all make decisions constantly—some with careful reflection, some without much thought. But what if we understood these decisions, minor as well as major, as matters of faithful Christian living? In this helpful and encouraging book, Elizabeth Liebert introduces the practice of discernment and guides readers through the process of faithful decision making. Following the way of discernment

means becoming increasingly able to notice where God is at work in the world and in one's own life—and becoming increasingly generous with one's own life in response. After briefly exploring the Christian tradition of discernment, Liebert then turns to practical steps and exercises that will help readers as they seek God's call in the midst of their decisions, allowing readers to internalize some of these practices and incorporate them into their daily lives.

Discover a time-tested approach to making good decisions Do I go to graduate school? Whom should I marry? Should I change careers? What do I do with my life now that I'm retired? All of us have important decisions to make—decisions that radically alter our lives. Yet without a sound process in place for making key decisions, we are likely to question whether or not our final decision was a good decision; more to the point, we will never feel fully confident that our decision was what God truly desired for us. *What's Your Decision?* presents a time-tested, trustworthy approach to decision making based on the insights of Ignatius of Loyola, founder of the Jesuits and the author of the *Spiritual Exercises*, one of history's most influential spiritual texts. Throughout this fast-moving and highly practical book, the authors present an "Ignatian toolkit" for making sound choices and provide answers to many common questions such as What's important and what's not when it comes to making choices? Do I trust my gut? What do I really want? Ultimately, *What's Your Decision?* helps us understand that a God decision always precedes a good decision: When we invite God—who cares deeply about what we do—into the decision-making process, we find the freedom to make the best choice.

Young Vietnamese women seeking to discern a religious vocation often confuse their own unconscious motivations and desires with what they perceive as the "will of God" for their lives. This study argues that a clearer understanding of the "will of God" will lead young women to a more mature decision-making process when discerning a vocation to religious life. The thesis investigates how the "will of God" has been interpreted and understood in the Christian tradition and uses these insights to develop a systematic structure aiming to assist young Vietnamese women in their life discernment. It first examines how the will of God has been variously interpreted in the Scriptures and the lives of several distinguished spiritual figures in the Church. Second, it analyzes this concept in the life of Saint Ignatius of Loyola, whose writings and spiritual practices have been considered one of the most important tools for discernment in the Christian tradition—for detecting the language of God. Notably, the study will consider how the practice of active listening (by both director and directee) supports candidates in understanding their own inner motions and authentic desires, and through these movements, to hear the voice of God. Finally, it demonstrates how contextualizing these insights for the Vietnamese context will enlighten and empower young Vietnamese women in discerning their life vocation. The study makes a contribution to the academic discipline of Christian Spirituality concerning the concept of the "will of God," proposing that a clearer understanding of this concept can lead to a richer and more effective discernment process. The discussion also seeks to assist spiritual directors of religious communities who are accompanying candidates in their spiritual journeys. It is my hope that it may also prove beneficial to all those who are interested in their own discernment process or in directing others in their

spiritual journey.

This ground-breaking study explores spiritual and secular discernment. It is a detailed study of the process of Quaker practice of discernment and of Theory U, a secular framework for change. Joycelin Dawes cross-fertilises the insights of Quaker practice with the methods and visual 'U map' of Theory U. Her purpose is to bring greater clarity strength to Quaker discernment through 'mutual irradiation' with Theory U. Joycelin is an established writer on Quaker and contemporary spirituality. What others are saying about this book: "This compelling book provides an original and insightful

understanding of the art of discernment for the modern world in all its complexities. Joycelin Dawes explores the Quaker tradition and practice of discernment alongside modern secular leadership approaches of presencing and sensing. She offers an invaluable synthesis and makes a significant intellectual and practical contribution to the field of discernment and decision making for individuals, leaders and members of organisations. I cannot recommend it highly enough for its wisdom and insights." Dr Lynne Sedgmore CBE. Former Chief Executive of 157 Group, The Centre for Excellence in Leadership UK. "Joycelin Dawes'book explores Quaker discernment in the context of 'Theory U', a model for understanding the flow of decision making. It helpfully illuminates Quaker discernment without turning it into an artificial or theoretical process but retaining the connection to deep spiritual experience that we as Friends are seeking and encounter when engage in discernment processes. This book will help Friends to better understand, practise and share Quaker discipline and the source from which we act." Simon Best, Head of Learning, Woodbrooke Quaker Study Centre. "What a fascinating and scholarly exploration of the nature and practice of discernment. Joycelin Dawes has carried out an exquisitely detailed investigation into the heart, head and hands of Quaker discernment; she draws on her equally forensic study of 'Theory U' to portray the light it can shed on both discernment theory and action. This is an exciting and timely study and of interest to anyone interested in improving collective thinking and decision-making." Jane Reed, Facilitator, coach and researcher. Much of the conversation and concern of churches and of Christian individuals is centred around Christian discernment or knowing God's leading in decision-making. The language we use around these moments is fluid, and often feels inadequate – ask someone how they 'know' what God might be saying in a given situation and they may well reach for the phrase 'I just know'. In "How Do You Know it's God?", Lynn McChlery draws on ethnographic research amongst those in different kinds of 'discernment' processes, along with theological, spiritual and psychological insights to try and understand this phenomenon of 'insight' – or 'just knowing'. Challenging the perception that such intuition needs to be marginalised and removed from discernment conversations, McChlery suggests that instead intuition can and should be intentionally matured both individually and in communities; and that it can be verified, articulated and recorded in forms appropriate to its own mode of insight. It is a vital new contribution to the scholarship for all practical theologians researching ecclesiology, vocation, group dynamics in churches, and communal decision-making processes of any kind.
