Antología del modernismo (1884-1921) Ediciones Era
NEW YORK TIMES BESTSELLER • From the author of *The House of the Spirits*, this epic novel spanning decades and crossing continents follows two young people as they flee the aftermath of the Spanish Civil War in search of a place to call home. “One of the most richly imagined portrayals of the Spanish Civil War to date, and one of the strongest and most affecting works in [Isabel Allende’s] long career.”—*The New York Times Book Review*
NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *Esquire* • *Good Housekeeping* • *Parade*
In the late 1930s, civil war grips Spain. When General Franco and his Fascists succeed in overthrowing the government, hundreds of thousands are forced to flee in a treacherous journey over the mountains to the French border. Among them is Roser, a pregnant young widow, who finds her life intertwined with that of Victor Dalmau, an army doctor and the brother of her deceased love. In order to survive, the two must unite in a marriage neither of them desires. Together with two thousand other refugees, Roser and Victor embark on the SS *Winnipeg*, a ship chartered by the poet Pablo Neruda, to Chile: “the long petal of sea and wine and snow.” As unlikely partners, the couple embraces exile as the rest of Europe erupts in world war. Starting over on a new continent, they face trial after trial, but they will also find joy as they patiently await the day when they might go home. Through it all, their hope of returning to Spain keeps them going. Destined to witness the battle between freedom and repression as it plays out across the world, Roser and Victor will find that home might have been closer than they thought all along. A masterful work of historical fiction about hope, exile, and belonging, *A Long Petal of the Sea* shows Isabel Allende at the height of her powers. Praise for *A Long Petal of the Sea* “Both an intimate look at the relationship between one man and one woman and an epic story of love, war, family, and the search for home, this gorgeous novel, like all the best novels, transports the reader to another time and place, and also sheds

light on the way we live now.”—J. Courtney Sullivan, author of *Saints for All Occasions* “This is a novel not just for those of us who have been Allende fans for decades, but also for those who are brand-new to her work: What a joy it must be to come upon Allende for the first time. She knows that all stories are love stories, and the greatest love stories are told by time.”—Colum McCann, National Book Award-winning author of *Let the Great World Spin*

John Keegan's groundbreaking portrayal of the common soldier in the heat of battle -- a masterpiece that explores the physical and mental aspects of warfare *The Face of Battle* is military history from the battlefield: a look at the direct experience of individuals at the "point of maximum danger." Without the myth-making elements of rhetoric and xenophobia, and breaking away from the stylized format of battle descriptions, John Keegan has written what is probably the definitive model for military historians. And in his scrupulous reassessment of three battles representative of three different time periods, he manages to convey what the experience of combat meant for the participants, whether they were facing the arrow cloud at the battle of Agincourt, the musket balls at Waterloo, or the steel rain of the Somme. *The Face of Battle* is a companion volume to John Keegan's classic study of the individual soldier, *The Mask of Command*: together they form a masterpiece of military and human history.

Lugubrious Nights follows the protagonist Tediato on his nightly visits to the temple where his beloved is interred. His ultimate intention is to disinter her body and kill himself in her presence. Tediato is a religious skeptic whose grief is cosmic, and he sees no reason not to join his beloved in death, torn as he is between the emptiness of his soul and the emptiness of the world. Hispanist Russell P. Sebold offers the first English translation of the eighteenth-century Spanish lyrical poem in prose by José de Cadalso (1741-1782). Inspired by his grief over the death of the

actress María Ignacia Ibáñez, Cadalso composed *Lugubrious Nights* in 1771. Sebold considers it to be the first fully Romantic work of continental European literature, written three years before the publication of Goethe's *Werther*.

“Allende can spin a yarn with the grace of a poet.”—*Entertainment Weekly*
AN INSTANT NEW YORK TIMES BESTSELLER, NOW WITH A NEW DEAR READER LETTER From the New York Times bestselling author of *A Long Petal of the Sea* and *The House of the Spirits*, an enthralling and suspenseful coming-of-age story about a teenage girl who must unravel the mysteries of her past in order to save herself. Nineteen-year-old Maya Vidal grew up in a rambling old house in Berkeley with her grandmother Nini—a force of nature whose formidable strength helped her build a new life after she emigrated from Chile in 1973—and Popo, an African-American astronomer and professor whose solid, comforting presence helps calm the turbulence of Maya's adolescence. When Popo dies of cancer, Maya comes undone and turns to drugs, alcohol, and petty crime. When she becomes lost in the dangerous underworld of Las Vegas, Maya becomes caught in the crosshairs of deadly warring forces. Her one chance for survival is Nini, who helps her escape to a remote island off the coast of Chile. Here, Maya tries to make sense of the past to discover the truth about her life and her family, and embarks on her greatest adventure: a journey of self-discovery and forgiveness.

The Legend and Life of A. A.'s Cofounder Henry Holt and Company (BYR)

In *The Postcolonial State in Africa*, Crawford Young offers an informed and authoritative comparative overview of fifty years of African independence, drawing on his decades of research and first-hand experience on the African continent. Young identifies three cycles of hope and disappointment common to many of the African states (including those in North Africa) over the last half-century: initial euphoria at independence in the 1960s followed by disillusionment with a lapse into single-party autocracies and military rule; a period of renewed confidence, radicalization, and ambitious state expansion in the 1970s preceding state crisis and

even failure in the disastrous 1980s; and a phase of reborn optimism during the continental wave of democratization beginning around 1990. He explores in depth the many African civil wars--especially those since 1990--and three key tracks of identity: Africanism, territorial nationalism, and ethnicity. Only more recently, Young argues, have the paths of the fifty-three African states begun to diverge more dramatically, with some leading to liberalization and others to political, social, and economic collapse--outcomes impossible to predict at the outset of independence. "This book is the best volume to date on the politics of the last 50 years of African independence."--*International Affairs* "The book shares Young's encyclopedic knowledge of African politics, providing in a single volume a comprehensive rendering of the first 50 years of independence. The book is sprinkled with anecdotes from his vast experience in Africa and that of his many students, and quotations from all of the relevant literature published over the past five decades. Students and scholars of African politics alike will benefit immensely from and enjoy reading *The Postcolonial State in Africa*."--*Political Science Quarterly* "The study of African politics will continue to be enriched if practitioners pay homage to the erudition and the nobility of spirit that has anchored the engagement of this most esteemed doyen of Africanists with the continent."--*African History Review* "The book's strongest attribute is the careful way that comparative political theory is woven into historical storytelling throughout the text. . . . Written with great clarity even for all its detail, and its interwoven use of theory makes it a great choice for new students of African studies."--*Australasian Review of African Studies*

In this classic analysis of travel and sightseeing, author Dean MacCannell brings social scientific understandings to bear on tourism in the postindustrial age, during which the middle class has acquired leisure time for international travel. In *The Tourist*—now with a new introduction framing it as part of a broader contemporary social and cultural analysis—the author examines notions of authenticity, high and low culture, and the construction of social reality around tourism.

What constitutes a "real" man or woman in the twenty-first century? Since birth control pills, erectile dysfunction remedies, and factory-made testosterone and estrogen were developed, biology is definitely no longer destiny. In this penetrating analysis of gender, Paul B. Preciado shows the ways in which the synthesis of hormones since the 1950s has fundamentally changed how gender and sexual identity are formulated, and how the pharmaceutical and pornography industries are in the business of creating desire. This riveting continuation of Michel Foucault's *The History of Sexuality* also includes Preciado's diaristic account of his own use of testosterone every day for one year, and its mesmerizing impact on his body as well as his imagination.

The Second Sex Polity

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—*The New York Times* Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary

issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

American Indian affairs are much in the public mind today—hotly contested debates over such issues as Indian fishing rights, land claims, and reservation gambling hold our attention. While the unique legal status of American Indians rests on the historical treaty relationship between Indian tribes and the federal government, until now there has been no comprehensive history of these treaties and their role in American life. Francis Paul Prucha, a leading authority on the history of American Indian affairs, argues that the treaties were a political anomaly from the very beginning. The term "treaty" implies a contract between sovereign independent nations, yet Indians were always in a position of inequality and dependence as negotiators, a fact that complicates their current attempts to regain their rights and tribal sovereignty. Prucha's impeccably researched book, based on a close analysis of every treaty, makes possible a thorough understanding of a legal dilemma whose legacy is so palpably felt today.

A revealing journey of a knight following the Templar trace on the road to Santiago 1,300,000 copies sold worldwide by the so called 'Queen of the Spanish Adventure Fiction', one of the top writers in Spanish language, and author of the bestseller *The Last Cato* Galceran de Born is a knight of a military religious order, the mortal enemy of the Knights of Templar. He has been commissioned by Pope John XXII to investigate the murders of Pope Clement V, King Philippe IV of France, and William of Nogaret. Helped by his son Jonas and Sara, a white-haired Jewish witch, Galceran finds incriminating evidence against the outlawed Knights of Templar, who avenged their master's death by perpetrating these three murders. On their way to Santiago, they also find a parchment which reveals that when the Knights of Templar were banned by the previous pope, they hid their gold all

along the road, in places marked by the golden cross Tau. The Pope's greed, however, is insatiable and so he entrusts Galceran with another important mission: Galceran has to disguise himself as a pilgrim and seize the treasures that the Knights of Templar had hidden along the road: more than a thousand five hundred chests full of gold, silver and precious stones. In an underground labyrinth, they will find one of the greatest secrets in history: the Ark of the Covenant. The book has been successfully published in five countries: Italy, Germany, France, Poland and Brazil.

Health in the Mexican-American Culture Vintage

Historian Isaac Campos combines wide-ranging archival research with the latest scholarship on the social and cultural dimensions of drug-related behavior in this telling of marijuana's remarkable history in Mexico. Introduced in the sixteenth century by the Spanish, cannabis came to Mexico as an industrial fiber and symbol of European empire. But, Campos demonstrates, as it gradually spread to indigenous pharmacopoeias, then prisons and soldiers' barracks, it took on both a Mexican name--marijuana--and identity as a quintessentially "Mexican" drug. A century ago, Mexicans believed that marijuana could instantly trigger madness and violence in its users, and the drug was outlawed nationwide in 1920. *Home Grown* thus traces the deep roots of the antidrug

ideology and prohibitionist policies that anchor the drug-war violence that engulfs Mexico today. Campos also counters the standard narrative of modern drug wars, which casts global drug prohibition as a sort of informal American cultural colonization. Instead, he argues, Mexican ideas were the foundation for notions of "reefer madness" in the United States. This book is an indispensable guide for anyone who hopes to understand the deep and complex origins of marijuana's controversial place in North American history.

Based on the experience of real-life Auschwitz prisoner Dita Kraus, this is the incredible story of a girl who risked her life to keep the magic of books alive during the Holocaust. Fourteen-year-old Dita is one of the many imprisoned by the Nazis at Auschwitz. Taken, along with her mother and father, from the Terezín ghetto in Prague, Dita is adjusting to the constant terror that is life in the camp. When Jewish leader Freddy Hirsch asks Dita to take charge of the eight precious volumes the prisoners have managed to sneak past the guards, she agrees. And so Dita becomes the librarian of Auschwitz. Out of one of the darkest chapters of human history comes this extraordinary story of courage and hope. This title has Common Core connections.
