 The book traces the evolution of some of the most notable brands in the Indian marketplace by looking at the interplay of forces that created the environment in which they operated and the strategies they adopted. In a vibrant economy like India-where competition from novel and captivating launches is relentless; where customers' preferences change rapidly-these winning brands have shown resilience and the ability to identify and seize opportunities. The book proves the point that it is the capacity to adapt to changes and formulate effective strategies that determines who survives in the hyper-competitive marketplace of today.

 Cycle World Magazine Penguin Books India
 This book is aimed to bring out the understanding of brand positioning of two wheelers in the minds of customers i.e., whether the customers have brand awareness, brand image, brand identity, brand knowledge about two wheelers which lead them to satisfaction. In turn, their brand preferences towards specific two wheelers among popular brands such as Hero, Honda, TVS, Suzuki, Bajaj and Yamaha were associated with brand positioning.

See the Drag Specialties/Parts Unlimited Tire catalog. It has tires, tire accessories and tire/wheel service tools from all the top brands. And for riding gear or casual wear, see the Drag Specialties/ Parts Unlimited Helmet/Apparel catalog. Combine all three catalogs for the most complete powersports resource of 2014.

An Industry History

Educreation Publishing

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

WALNECK'S CLASSIC CYCLE TRADER, DECEMBER 1993 SAGE Publishing India

Everything you need to know to restore or customize your classic Japanese motorcycle. Whether you want to correctly restore a classic Japanese motorcycle or create a modified, custom build, you need the right information about how to perform the mechanical and cosmetic tasks required to get an old, frequently neglected, and often long-unridden machine back in working order. How to Rebuild and Restore Classic Japanese Motorcycles is your thorough, hands-on manual, covering all the mechanical subsystems that make up a motorcycle. From finding a bike to planning your project to dealing with each mechanical system, How to Rebuild and Restore Classic Japanese Motorcycles includes everything you need to know to get your classic back on the road. Japanese motorcycles have been the best-selling bikes in the world since the mid-1960s, driven by the "big four": Honda, Yamaha, Suzuki, and Kawasaki. Of course certain bikes have always had a following - Honda CB750, 305 Hawk, CB400-4, Benly; Suzuki GT750, Katana, GS1000S; Yamaha XS650, RD400 Daytona, TZ; Kawasaki H1, H2, Z1R - and these have now become the blue-chip Japanese bikes leading collectors to seek out more common (and now more affordable) alternatives. This is the perfect book for anyone interested in classic Japanese motorcycles, as well as prepping a bike to build a cafe racer, street tracker, or other custom build.

The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropriate gear, to how to ride safely, and how to make the most out of trips on the open road.

How to Rebuild and Restore Classic Japanese Motorcycles Causey Enterprises, LLC

The book arose from a multi-disciplinary study which looked at the development of global-local manufacturing clusters in the context of a developing, Asian economy. The study demonstrates the connection amongst theoretical perspectives such as international business, development studies, economic geography, and organisational learning clusters/production networks through an in-depth case study of the Indonesian automotive cluster. The book gives a detailed account of two automotive clusters (Toyota and Honda) and their contribution to regional economic development in

emerging economies in Asian region. The book builds on existing literature to develop a theoretical framework to shed light on the study's empirical findings. The book discusses practical implications for both the business community and policy makers. The discussion on global-local networks in an Asian context supplements existing literature and case studies in the field. This is one of the few books that explicitly links regional clusters to global networks. The book offers a refreshingly international (Asian) perspective to the literature on clusters and economic geography for emerging economies.
