[Travelers in the Third Reich](#) Psychology Press

The best-selling author of *Hitler: Ascent and Hitler: Downfall* reconstructs the chaotic, otherworldly last days of Nazi Germany. In a bunker deep below Berlin's Old Reich Chancellery, Adolf Hitler and his new bride, Eva Braun, took their own lives just after 3:00 p.m. on April 30, 1945—Hitler by gunshot to the temple, Braun by ingesting cyanide. But the Führer's suicide did not instantly end either Nazism or the Second World War in Europe. Far from it: the eight days that followed were among the most traumatic in modern history, witnessing not only the final paroxysms of bloodshed and the frantic surrender of the Wehrmacht, but the total disintegration of the once-mighty Third Reich. In *Eight Days in May*, the award-winning historian and Hitler biographer Volker Ullrich draws on an astonishing variety of sources, including diaries and letters of ordinary Germans, to narrate a society's descent into Hobbesian chaos. In the town of Demmin in the north, residents succumbed to madness and committed mass suicide. In Berlin, Soviet soldiers raped German civilians on a near-unprecedented scale. In Nazi-occupied Prague, Czech insurgents led an uprising in the hope that General George S. Patton would come to their aid but were brutally put down by German units in the city. Throughout the remains of Third Reich, huge numbers of people were on the move, creating a surrealist tableau: death marches of concentration-camp inmates crossed paths with retreating

Wehrmacht soldiers and groups of refugees; columns of POWs encountered those of liberated slave laborers and bombed-out people returning home. A taut, propulsive narrative, *Eight Days in May* takes us inside the phantomlike regime of Hitler's chosen successor, Admiral Karl Dönitz, revealing how the desperate attempt to impose order utterly failed, as frontline soldiers deserted and Nazi Party fanatics called on German civilians to martyr themselves in a last stand against encroaching Allied forces. In truth, however, the post-Hitler government represented continuity more than change: its leaders categorically refused to take responsibility for their crimes against humanity, an attitude typical not just of the Nazi elite but also of large segments of the German populace. The consequences would be severe. *Eight Days in May* is not only an indispensable account of the Nazi endgame, but a historic work that brilliantly examines the costs of mass delusion.

Nazi Wives Grub Street Publishers

How does a nation recover from fascism and turn toward a free society once more? This internationally acclaimed revelatory history—"filled with first-person accounts from articles and diaries" (*The New York Times*)—of the transformational decade that followed World War II illustrates how Germany raised itself out of the ashes of defeat and reckoned with the corruption of its soul and the horrors of the Holocaust. Featuring over 40 eye-opening black-and-white photographs and posters from the period. The years 1945 to 1955 were a raw, wild decade that found many Germans politically, economically, and morally bankrupt. Victorious Allied forces occupied the four zones that make up present-day Germany. More than half the population was displaced; 10 million newly released forced laborers and several million prisoners of war returned to an uncertain existence. Cities lay

in ruins—no mail, no trains, no traffic—with bodies yet to be found beneath the towering rubble. Aftermath received wide acclaim and spent forty-eight weeks on the best-seller list in Germany when it was published there in 2019. It is the first history of Germany's national mentality in the immediate postwar years. Using major global political developments as a backdrop, Harald Jähner weaves a series of life stories into a nuanced panorama of a nation undergoing monumental change. Poised between two eras, this decade is portrayed by Jähner as a period that proved decisive for Germany's future—and one starkly different from how most of us imagine it today.

The Third Reich in Power Rutgers University Press

A chilling historical account of the Nazi period probes the human side of the drama, exploring the reasons why people loved and hated the fascist German philosophy. 15,000 first printing.

Eight Days in May: The Final Collapse of the Third Reich Penguin UK

Even today, the Third Reich--the regime that instigated the most destructive war in modern history--evokes powerful images of fascination and horror. Yet how were the lives of the ordinary German people of the 1930s and '40s affected by the politics of Hitler and his followers? Looking beyond the catalog of events, this intriguing book reveals that daily German life involved a complex mixture of bribery and terror; of fear and concessions; of barbarism and appeals to conventional moral values employed by the Nazis to maintain their grip on society. Eight leading historians present essays that shed fresh light on topics as familiar as the role of political violence in Nazi seizure of power and the German view of Hitler himself. It also focuses on lesser-known aspects of life in the Third Reich, such as village life, the treatment of social outcasts, and the Germans' own retrospective view of this period of their history.

How the Nazis Led Germany from Conquest to Disaster Macmillan

While Adolf Hitler's National Socialist government was persecuting Jews and Jehovah's Witnesses and driving forty-two small German religious sects underground, the Church of Jesus Christ of Latter-day Saints continued to practice unhindered. How some fourteen thousand Mormons not only survived but thrived in Nazi Germany is a story little known, rarely told, and occasionally rewritten within the confines of the Church's history—for good reason, as we see in David Conley Nelson's Moroni and the Swastika. A page-turning historical narrative, this book is the first full account of how Mormons avoided Nazi persecution through skilled collaboration with Hitler's regime, and then eschewed postwar shame by constructing an alternative history of wartime suffering and resistance. The Twelfth Article of Faith and parts of the 134th Section of the Doctrine and Covenants function as Mormonism's equivalent of the biblical admonition to "render unto Caesar," a charge to cooperate with civil government, no matter how onerous doing so may be. Resurrecting this often-violated doctrinal edict, ecclesiastical leaders at the time developed a strategy that protected Mormons within Nazi Germany. Furthermore, as Nelson shows, many Mormon officials strove to fit into the Third Reich by exploiting commonalities with the Nazi state. German Mormons emphasized a mutual interest in genealogy and a passion for sports. They sent husbands into the Wehrmacht and sons into the Hitler Youth, and they prayed for a German victory when the war began. They also purged Jewish references from hymnals, lesson plans, and liturgical practices. One American mission president even wrote an article for the official Nazi Party newspaper, extolling parallels between Utah Mormon and German Nazi society. Nelson documents this collaboration, as well as subsequent efforts to suppress it by fashioning a new collective memory of ordinary German Mormons' courage and travails during the war. Recovering this inconvenient past, Moroni and the Swastika restores a complex and difficult chapter to the history of Nazi Germany and the Mormon Church in the twentieth century—and offers new insight into the construction of historical truth.

The Third Reich in 100 Objects Orion Publishing Group

War and Economy in the Third Reich examines the nature of the German economy in the 1930s and the Second World War. Richard Overy's essays, collected here for the first time with a substantial new introduction, explore the tension between Hitler's vision of an armed economy and the reality of German economic and social life. Often thought-provoking, always informed, War and Economy opens a window on an essential aspect of Hitler's Germany.

David Welch re-appraises one of the most closely studied issues in European history - the appeal of the Nazi party and challenges previously held assumptions about the effectiveness of Nazi propaganda.

The Third Reich Sourcebook Houghton Mifflin

The remarkable story of Fred Mayer, a German-born Jew who escaped Nazi Germany only to return as an American commando on a secret mission behind enemy lines. Growing up in Germany, Freddy Mayer witnessed the Nazis' rise to power. When he was sixteen, his family made the decision to flee to the United States--they were among the last German Jews to escape, in 1938. In America, Freddy tried enlisting the day after Pearl Harbor, only to be rejected as an "enemy alien" because he was German. He was soon recruited to the OSS, the country's first spy outfit before the CIA.

Freddy, joined by Dutch Jewish refugee Hans Wynberg and Nazi defector Franz Weber, parachuted into Austria as the leader of Operation Greenup, meant to deter Hitler's last stand. He posed as a Nazi officer and a French POW for months, dispatching reports to the OSS via Hans, holed up with a radio in a nearby attic. The reports contained a goldmine of information, provided key intelligence about the Battle of the Bulge, and allowed the Allies to bomb twenty Nazi trains. On the verge of the Allied victory, Freddy was captured by the Gestapo and tortured and waterboarded for days. Remarkably, he persuaded the Nazi commander for the region to surrender, completing one of the most successful OSS missions of the war. Based on years of research and interviews with Mayer himself, whom the author was able to meet only months before his death at the age of ninety-four, Return to the Reich is an eye-opening, unforgettable narrative of World War II heroism.

Resistance and Conformity in the Third Reich Harry N. Abrams

The final book in his acclaimed trilogy on the rise and fall of Nazi Germany, Richard J. Evans's *The Third Reich at War: How the Nazis Led Germany from Conquest to Disaster* shows how Germany rushed headlong into destroying itself, shattering an entire continent. In 1939 Hitler mobilized

Germany into all-out war. Richard Evans's astonishing, acclaimed history conjures up a whole society plunged into conflict - from generals and front-line soldiers to Hitler Youth activists and middle-class housewives - tracing events from the invasion of Poland and the Battle of Stalingrad to Hitler's plans for genocide and his eventual suicide. 'Masterly ... will surely be the standard history for many years to come ... This is a warning for the future, as much as a judgement on the past' ;Richard Overy, Daily Telegraph 'We all know how the story ends ... but Richard Evans brings it masterfully home ... magnificent';Peter Preston, Observer 'A chilling, brilliant read' Dominic Sandbrook, Sunday Telegraph Books of the Year 'It is hard to do justice to the humanity and scholarly range of *The Third Reich at War* ... triumphant ... a masterful historical narrative and the most comprehensive account of Nazi Germany' Nicholas Stargardt, The Times Literary Supplement 'It gives the reader persuasive answers to questions asked for so long, that will continue to be asked, about this most violent and inexplicable of regimes' Mark Mazower, Guardian Sir Richard J. Evans is Professor of Modern History at Cambridge University. His previous books include *In Defence of History*, *Telling Lies about Hitler* and the companions to this title, *The Coming of the Third Reich* and *The Third Reich in Power*.

German Modern Dance and the Third Reich The Third Reich A New History

At age thirty in 1919, Adolf Hitler had no accomplishments. He was a rootless loner, a corporal in a shattered army, without money or prospects. A little more than twenty years later, in autumn 1941, he directed his dynamic forces against the Soviet Union, and in December, the Germans were at the gates of Moscow and Leningrad. At that moment, Hitler appeared--however briefly--to be the most powerful ruler on the planet. Given this dramatic turn of events, it is little wonder that since 1945 generations of historians keep trying to explain how it all happened. This richly illustrated history provides a readable and fresh approach to the complex history of the Third Reich, from the coming to power of the Nazis in 1933 to the final collapse in 1945. Using photographs, paintings, propaganda images, and a host of other such materials from a wide range of sources, including official documents, cinema, and the photography of contemporary amateurs, foreigners, and the Allied armies, it distills our ideas about the period and provides a balanced and accessible account of the whole era.

[Life and Death in the Third Reich](#) Ballantine Books

"Riveting...An elegantly composed study, important and even timely" (Kirkus Reviews, starred review) history of the Third Reich—how Adolf Hitler and a core group of Nazis rose from obscurity to power and plunged the world into World War II. In "the new definitive volume on the subject" (Houston Press), Thomas Childers shows how the young Hitler became passionately political and anti-Semitic as he lived on the margins of society. Fueled by outrage at the punitive terms imposed on Germany by the Versailles Treaty, he found his voice and drew a loyal following. As his views developed, Hitler attracted like-minded colleagues who formed the nucleus of the nascent Nazi party. Between 1924 and 1929, Hitler and his party languished in obscurity on the radical fringes of German politics, but the onset of the Great Depression gave them the opportunity to move into the mainstream. Hitler blamed Germany's misery on the victorious allies, the Marxists, the Jews, and big business—and the political parties that represented them. By 1932 the Nazis had become the largest political party in Germany, and within six months they transformed a dysfunctional democracy into a totalitarian state and began the inexorable march to World War II and the Holocaust. It is these fraught times that Childers brings to life: the Nazis' unlikely rise and how they consolidated their power once they achieved it. Based in part on German documents seldom used by previous historians, *The Third Reich* is a "powerful...reminder of what happens when power goes unchecked" (San Francisco Book Review). This is the most comprehensive and readable one-volume history of Nazi Germany since the classic *The Rise and Fall of the Third Reich*.

Art of the 3rd Reich Random House

The classic history of Adolph Hitler's rise to power and his dramatic defeat

Culture in the Third Reich Harper Collins

This is a thematically arranged text illustrating popular resistance to Nazism in Germany from 1930-1945, and the affect of Nazism on everyday life. The book combines a lucid, synthesized analysis together with a wide selection of integrated source material taken from pamphlets, diaries, recent oral testimonies, correspondence and more. Different chapters focus on social groups and activities, such as youth movements, religion, Jewish Germans, and the working classes.

Inside the Third Reich Harvard University Press

"Magnificent. . . . Seldom has a study of the past combined such erudition with such exuberance." —The Guardian "No-one with an interest in the Second World War should be without this book; and indeed nor should anyone who cares about how our world has come about." —The Daily Telegraph Pre-eminent WWII historian Michael Burleigh delivers a brilliant new examination of the day-to-day moral crises underpinning the momentous conflicts of the Second World War. A magisterial counterpart to his award-winning and internationally bestselling *The Third Reich*, winner of the Samuel Johnson prize, *Moral Combat* offers a unique and riveting look at, in the words of The Times (London), "not just the war planners faced with the prospect of bombing Dresden or the atrocities of the Holocaust, but also the individuals working at the coalface of war, killing or murdering, resisting or collaborating."

The Women at the Top of Hitler's Germany St. Martin's Press

"[Evans's] three-volume history . . . is shaping up to be a masterpiece. Fluidly narrated, tightly organized and comprehensive." —William Grimes, The New York Times The definitive account of Germany's malign transformation under Hitler's total rule and the implacable march to war This magnificent second volume of Richard J. Evans's three-volume history of Nazi Germany was hailed by Benjamin Schwartz of the Atlantic Monthly as "the definitive English-language account... gripping and precise." It chronicles the incredible story of Germany's radical reshaping under Nazi rule. As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms, Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939. *The Third Reich in Power* is the fullest and most authoritative account yet written of how, in six years, Germany was brought to the edge of that terrible abyss.

When Germans Embraced the Third Reich Oxford University Press, USA

"Brilliant." —Washington Post "The clearest and most gripping account I've read of German life before and during the rise of the Nazis." —A. S Byatt, Times Literary Supplement "The generalist reader, it should be emphasized, is well served. . . . The book reads briskly, covers all important

areas—social and cultural—and succeeds in its aim of giving “voice to the people who lived through the years with which it deals.” —Denver Post
 There is no story in twentieth-century history more important to understand than Hitler’s rise to power and the collapse of civilization in Nazi Germany. With *The Coming of the Third Reich*, Richard Evans, one of the world’s most distinguished historians, has written the definitive account for our time. A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations, Evans’s history restores drama and contingency to the rise to power of Hitler and the Nazis, even as it shows how ready Germany was by the early 1930s for such a takeover to occur. *The Coming of the Third Reich* is a masterwork of the historian’s art and the book by which all others on the subject will be judged.
Hitler's First Hundred Days A&C Black

Rise of Adolf Hitler - Growth of Nazi power - War; early victories and the turning point - Fall of Mussolini - Fall of the Third Reich.

A Holocaust Refugee's Secret Mission to Defeat the Nazis Simon and Schuster

Nearly fifty years after the collapse of Adolf Hitler's Third Reich, the officially sanctioned art of his National Socialist regime remains largely unknown. Since 1945, few people have seen these controversial works: many were destroyed in World War Two bombings; most of what survived is hidden away, accessible only to scholars. In *Art of the Third Reich*, Peter Adam—who grew up in Berlin in the Hitler era—has gone back to Germany after years

in England as a BBC documentary-film producer and made an extensive study of the art of the National Socialists. Adam explores its complex ramifications, which led to a traditional German style linked to nature, family, and the homeland and to the suppression of modern art—associated by the Reich with large cities, internationalism, and decadence. Painting, sculpture, architecture, film, and all the other art disciplines were compelled to serve as vehicles for the transmission of National Socialist ideology, intended to forge the people's collective mind in the Nazi mold. Hitler's belief that architecture was the most forceful manifestation of absolute political power lay at the heart of his grandiose schemes for redesigning Munich, Berlin, Nuremberg, and more than a score of other German cities. Hitler also virtually created a new art—the art of manipulating mass emotions, which he skillfully used at Nazi Party rallies and in mass sports events, such as the notorious Olympic Games in Berlin in 1936. How this art form was enacted against a backdrop of colossal architecture makes a fascinating and important leitmotif in this study. The research for this engrossing book took Adam to hidden repositories in both the United States and Germany. From often tattered books and magazines of the period, he has gleaned many of the 321 illustrations covering the broad spectrum of National Socialist art, which scholars are now beginning to recognize as an essential source of information about the perplexing Third Reich.
