Let's Go 1 Teacher's Book Oxford University Press, USA

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Family Law Don Mills, Ont. : Oxford University Press Canada

Examination questions in Family Law can seem particularly daunting to students. This book shows how to tackle successfully the sort of problems and essay questions frequently found in examination papers. The authors suggest how answers should be structured, providing advice on what to include, and on what to leave out. No matter how good your research and study skills, the ultimate test for the law student is the exam. The more preparation you have, the better equipped you will be. Blackstone's Law Questions and Answers Series gives students the opportunity to practise their exam techniques and evaluate and assess their progress. Written by experienced lecturers, the series covers all the topics found on law degree courses, CPE courses, and other undergraduate courses where law is an essential element. Each title is divided into chapters covering each major topic and contains up to 50 questions and answers. Each chapter has an introduction focusing on important points and suggestions for further reading. Each question is followed by clear commentary highlighting the essential elements of each question and

indicating exactly what the examiners are looking for. This new edition also contains bullet pointed answer plans listing the main issues to be raised in each chapter, further reading at the end of every chapter, and diagrams illuminating key points to provide students with instant confidence.

Wordwise Oxford Canada

A communicative course for kindergarten and early elementary students learning English for the first time. Magic Time develops the speaking, listening and pre-writing skills of young children through art, music and movement, and language is taught through colourful, humorous, full-page scenes. Each four-page unit spotlights a theme such as shapes, classroom items or pets, that provides a context for the language. The short units build confidence and allow students to feel they are progressing rapidly. Magic Time is a two-level introductory series that is designed to be followed by the six-level communicative series, English Time. The two series can be used separately or as one complete eight-level course. The teacher's book provides: clear, step-by-step lesson plans; different strategies for large and small classes; a teacher resource guide with class management tips and advice; photocopiable worksheets; a games section with a multitude of fun ideas; tapescripts; and an answer key for student book and workbook exercises.
