Selected Writings in Sociology and Social Philosophy

Rubel on Karl Marx Presents excerpts from the philosopher's works with a critical study of his main ideas and sociological views.

Marx y Engels contra Rusia. Con dos trabajos introductorios de Maximilien Rubel. [Trad.].

Hackett Publishing A new history shows that, despite Marxism's rejection of money, the ruble was critical to the Soviet Union's promise of shared prosperity for its citizens. In spite of Karl Marx's proclamation that money would become obsolete under Communism, the ruble remained a key feature of Soviet life. In fact, although Western economists typically

concluded that money ultimately played a limited role in the Soviet Union, Kristy Ironside argues that money was both more important and more powerful than most histories have recognized. After the Second World War, money was resurrected as an essential tool of Soviet governance. Certainly, its importance was not lost on Soviet leaders, despite official Communist Party dogma.

Money, Ironside demonstrates, mediated the relationship between the Soviet state and its citizens and was at the center of both the government's and the people's visions for the maturing Communist project. A strong ruble that held real value in workers' hands and served as an effective labor incentive was seen as essential to the economic growth that

would rebuild society and realize Communism's promised future of abundance. Ironside shows how Soviet citizens turned to the state to remedy the damage that the ravages of the Second World War had inflicted upon their household economies. From the late 1940s through the early 1960s, progress toward Communism was increasingly measured by the health of its citizens

personal finances, such as greater purchasing power, higher wages, better pensions, and growing savings. However, the increasing importance of money in Soviet life did not necessarily correlate to improved living standards for Soviet citizens. The Soviet government's achievements in raising the people's material welfare continued to lag behind the West

advances during a period of unprecedented affluence. These factors combined to undermine popular support for Soviet power and confidence in the Communist project. Maximilien Rubel, pour redécouvrir Marx Reaktion Books "Critique of the Gotha Programme" by Karl Marx. Published by Good Press. Good Press publishes a wide range of titles that encompasses

every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to

everyone in a high-quality digital format. A *Bibliographical Analysis* M. Rivière et Cie (Château-Gontier This collection of essays attempts to develop a more comprehensive and accurate picture of Marx as an economic theoretician, based on the publication in 2013 of all the known economic writings of Marx and Engels in the Marx-Engels Gesamtausgabe (MEGA).

SelectedWritings BRILL

A clear and compact guide to Marx's road to Das Kapital Ernest Mandel traces the development of Marx's economic ideas from the Economic and Philosophical Manuscripts to the completion of the Grundrisse. In a series of crystalline chapters, he provides an overview of subjects central to Marxist economic theory. Mandel focuses on Marx's

concept of alienation, which gained much currency among Marxists in the twentieth century, and traces the development of debates surrounding the labour theory of value, and Marx's writings on communism and "crisis." These discussions remain pertinent today, and these texts vital to all those who wish to interpret and to change the world.

El Estado visto por Karl Marx

Cambridge ; New York : Cambridge University Press
 Deux textes consacrés à ce spécialiste de Marx, qui n'a eu de cesse d'en donner une lecture indépendante de sa postérité. Celui de M. Abensour (1970) éclaire l'arrière-fond théorique sur lequel se déployait alors la querelle entre différentes écoles marxistes. Le texte de L. Janover (2003) resitue

l'importance de la pensée de Rubel dans la configuration politique qui a suivi la chute de l'URSS.

Early Manuscripts to the International

Good Press
Marx's Philosophy of Revolution in Permanence for Our Day: Selected Writings by Raya Dunayevskaya brings out the contemporary urgency of the totality of Marx's body of ideas and activities, and the inseparability of his

economics, humanism, and dialectic. Karl Marx Verso Books Following the break-up of the Soviet Union, Marx was regarded as a thinker doomed to oblivion about whom everything had already been said and written. However, the international economic crisis of 2008 favoured a return to his analysis of capitalism, and recently published volumes of the Marx-Engels-Gesamtausga

be (MEGA²) have provided researchers with new texts that underline the gulf between Marx's critical theory and the dogmatism of many twentieth-century Marxisms. This work reconstructs with great textual and historical rigour, but in a form accessible to those encountering Marx for the first time, a number of little noted, or often misunderstood, stages in his intellectual

biography. The book is divided into three parts. The first - 'Intellectual Influences and Early Writings' - investigates the formation of the young Marx and the composition of his Parisian manuscripts of 1844. The second - 'The Critique of Political Economy' - focuses on the genesis of Marx's magnum opus, beginning with his studies of political economy in the early 1850s and following his

labours through to all the preparatory manuscripts for Capital. The third - 'Political Militancy' - presents an insightful history of the International Working Men's Association and of the role that Marx played in that organization. The volume offers a close and innovative examination of Marx's ideas on post-Hegelian philosophy, alienated labour, the materialist conception of history,

research methods, the theory of surplus-value, working-class self-emancipation, political organization and revolutionary theory. From this emerges "another Marx†?, a thinker very different from the one depicted by so many of his critics and ostensible disciples. **Oeuvres.  Marx's written
 output was
 massive. Much
 of it remained
 unpublished in
 his own
 lifetime and
 there is still no
 complete
 edition of the
 extant works,
 although most
 have been
 published in

one form or
 another. This
 book, first
 published in
 1983,
 provides an
 analytical
 guide to the
 complex
 chronological
 and evolving
 substantive
 structure of
 Marx's main
 writings in
 critical theory.
 The format is
 concise and
 accessible,
 with each
 phase of
 Marx's
 evolving
 critical theory
 of capitalist
 society being
 summarized in
 a diagram. An
 invaluable
 guide for
 students of
 Marx, it will

lead them
 through the
 maze of his
 works to a
 potentially
 deeper
 understanding
 of his thought.
 Allen Oakley
 believes that,
 in order to
 fully
 comprehend
 Marx's critical
 theory, it is
 essential to
 trace its
 complex
 evolution. Any
 serious study
 of Marx's
 critique of
 capitalism
 must begin
 with an
 appreciation
 of the
 bibliographical
 framework
 within which
 his evolving
 ideas were

manifested. Oakley is opposed to approaches to the study of Marx's critique which take little account of its chronology; such approaches, he believes, are incomplete and potentially misleading with respect to the meaning and significance of the critique. The book includes bibliographical evidence about the unfinished state of Marx's critical project and its

ever-changing scope and organization. It argues, therefore, that the methodological and substantive status of Capital must be interpreted cautiously, for bibliographical evidence shows it to be an unfinished climax to an ambiguous critic-theoretical project of uncertain dimensions. To read it as in any sense a final and definitive statement of Marx's critical theory is, the author

believes, to be deluded. *The Promise of Prosperity in the Postwar Soviet Union* Routledge Featuring the works from Marx's enormous corpus, this title covers Marx's development from the Hegelian idealism of his youth to the mature socialism of his later works. It includes writings from Marx's early philosophical works, and the central writings on historical materialism.

The Formation of the Economic Thought of Karl Marx
 Bloomsbury Publishing
 He was relatively unknown in his lifetime, but Karl Marx's theories about society, economics, and politics changed the world, led to the Russian Revolution and the formation of the Soviet Union and the creation of the People's Republic of China, and inspired variants from Leninism and

Stalinism to Trotskyism and Maoism. Marx is one of the most influential thinkers of the modern age, but in recent times "Marxism" has become a vague, contestable, and uncertain term. In this concise, accessible book, Paul Thomas casts a clarifying light on Marx's life and writings, providing a cogent introduction to a contemporary audience. Illuminating Marx's

development as a critical thinker and revolutionary politician, Thomas explores how the events of Marx's life influenced his doctrines. Thomas follows Marx from his birth into a wealthy family in Prussia, to his period of study of philosophy at the universities of Bonn and Berlin and his subsequent work as a journalist for radical newspapers in Cologne and Paris, where he began to

develop the concepts that would lead to Marxism. As Marx found himself exiled to Brussels and finally to London, Thomas illustrates how he was inspired by his relationships with other socialist thinkers, particularly Friedrich Engels, and the tumultuous and fluctuating state of the governments in Europe. These experiences and their influence on Marx inspired

The Communist Manifesto and Das Kapital, along with the many other books and pamphlets that continue to be read and discussed today. A valuable resource for anyone trying to understand the governments, wars, and movements of the twentieth and twenty-first centuries, Karl Marx is an enlightening book about this potent thinker and the world that created him. **Selected Writings in**

Sociology and Social Philosophy. Edited with an Introd. and Notes by T.B. Bottomore and Maximilien Rubel. Texts Translated by T.B. Bottomore. 2d Ed BRILL En 1957, lors de la parution de Karl Marx, essai de biographie intellectuelle, Maximilien Rubel a presente un Marx " tel qu'en lui-meme ", a l'oppose du Marx tel qu'il avait ete compose par les differents

<p>marxismes d'Etat ou de parti. Ce Marx inedit, singulier, qui, selon Karl Korsch, apparaît comme un penseur de l'émancipation parmi d'autres, et non plus comme le père fondateur d'une doctrine à vocation mondiale. Un Marx auteur d'une œuvre de pensée avec ses difficultés, ses éventuelles contradictions, mais aussi l'exigence d'une émancipation radicale, de</p>	<p>sorte qu'il pouvait devenir, comme M. Rubel l'a montré, le critique le plus virulent de ce qui portait le nom de marxisme. Le lecteur d'aujourd'hui peut être d'autant mieux aux écoutes de l'œuvre de M. Rubel que l'effondrement de l'URSS et des régimes satellites prétendument socialistes a eu pour effet paradoxal de nous rendre un Marx débarrassé des concretions</p>	<p>idéologiques qui avaient dressé un véritable écran entre lui et nous. Cette réédition inaugure le temps d'une explication avec Marx. À la lecture de M. Rubel naissent des questions ouvertes : peut-on voir dans Marx l'auteur d'une sociologie ? N'est-il pas plutôt l'initiateur d'une critique sociale qui va jusqu'aux racines, ou bien d'une théorie critique de la société ? Comment</p>
