The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Section 1: Client and Planner Attitudes, Values and Biases Section 1 includes Chapters 1, 2 and 3, and provides an overview of client and planner attitudes, values, and biases. This section discusses the importance of understanding how a client's psychology, background, learning style and values can all impact the financial planning process. It also discusses the importance of the financial planner framing advice in a way that accounts for all those psychological characteristics, leading to a more effective client-planner relationship and a higher probability of success. Research has shown that when clients can see that financial planning recommendations are demonstrably connected to their personal values and goals, they are much more likely to act on those recommendations and achieve success. Chapter 1: Framing Advice in Light of Client's Risk Tolerance (Swarn Chatterjee and Dave Yeske) Chapter 2: Developing a Productive Client-planner Relationship That Addresses the Psychological Elements of Financial Planning (Megan McCoy and Neal Van Zutphen) Chapter 3: Identifying and Responding to Client Values and Goals (Megan McCoy and Meghaan Lurtz) Section 2: Behavioral Finance Section 2 includes Chapters 4 and 5, and introduces key concepts from the area of behavioral finance. This section provides an understanding of the impact of cognitive biases and heuristics on people's financial decision-making and well-being, and discusses strategies for overcoming some of the common client psychology barriers in the financial planning process. Chapter 4: Impact of Cognitive Biases and Heuristics on Financial Decision-making and Well-being (Ron Sages and Swarn Chatterjee) Chapter 5: Client Psychology Barriers in the Financial Planning Process and Strategies for Overcoming Them (Ron Sages and Swarn Chatterjee) Section 3: Sources of Money Conflict Section 3 includes Chapters 6 through 10, and provides an overview of the major sources of money conflict. This section focuses on the harnessing of client's motivation for achieving their financial goals, examining couple and family financial transparency, and discusses strategies for mediating potential financial conflicts and facilitating goal congruence. This section also discusses counseling strategies that can be used for identifying when money is being used for purposes of manipulation. Chapter 6: Building the Client's Motivation for Achieving Their Financial Goals (Rick Kahler) Chapter 7: Examining Couple and Family Financial Transparency (Emily Koochel and Meghaan Lurtz) Chapter 8: Mediating Financial Conflict (Sonya Lutter and Emily Koochel) Chapter 9: Facilitating Goal Congruence (Rick Kahler) Chapter 10: Identifying When Money Is Being Used as Manipulation (Saundra D. Davis, Meghaan Lurtz and Megan McCoy) Section 4: Principles of Counseling Section 4 includes Chapters 11 and 12, and introduces the principles of counseling. This section includes the application of counseling theory in the financial planning process, and discusses strategies for forging trusting client-planner relationships. Chapter 11: Applying Financial Counseling Skills to the Financial Planning Process (Emily Koochel, Megan McCoy and Saundra D. Davis) Chapter 12: Forging Trusting Relationships (Megan McCoy and Sonya Lutter) Section 5: General principles of effective communication Section 5 includes Chapter 13, and provides an overview of the general principles of effective communication. This topic is of great importance as effective communication has been shown to be the single largest predictor of client trust and relationship commitment, which in turn can lead to a greater propensity by clients to reveal personal and financial information, engage in effective conflict resolution, and act on financial planning recommendations. Chapter 13: Multifaceted Communication (Swarn Chatterjee and Ron Sages) Section 6: Crisis Events with Severe Consequences Section 6 includes Chapters 14 and 15, and discusses strategies for helping clients who experienced crisis events with severe consequences. The strategies discussed in this section focus on helping clients navigate unanticipated personal and environmental crises, and the importance of empathy when working with clients who experienced such events. As is true across all topics in this book, self-awareness and self-development by the financial planner is as important as understanding the client's psychology when helping them navigate difficult circumstances. Chapter 14: Navigating Change (Sonya Lutter, Megan McCoy, Saundra D. Davis, and Lance Palmer Chapter 15: The Necessity of Empathy (Megan McCoy and Sonya Lutter)

This research product provides a thorough examination of the question: "How can the Army assess, develop, and retain strategic thinkers?" Expert input from within and outside the military provide a variety of perspectives that highlight areas of convergence and divergence, as well as, exemplar techniques, processes and insights that inform and change the conceptualization and practice of strategic thinking in the military. This compendium does not provide the answer to all of the Army's strategic thinking challenges, but it does provide many possible avenues to explore with the goal of enhancing the Army's strategic thinking capabilities. Topics and subjects covered include: qualitative thinking, metacognitive ability, cognitive flexibility, abductive reasoning, system theory, critical thinking, visualization, PME curriculum, strategic theory. Section 1: Strategic Thinking - Big Picture \* Chapter 1: The Identification and Education of U.S. Army Strategic Thinkers \* Chapter 2: Strategic thinking: Requirements, Development, and Assessment \* Chapter 3: Recruiting, Training, and Developing Strategic Thinkers \* Section 2: Impact of Culture \* Chapter 4: Developing Army Strategic Thinkers \* Chapter 5: The Sociology of STRATEGY: Romancing the Image \* Chapter 6: Creating an Organizational Culture to Support Strategic Thinking \* Chapter 7: Implementing a Culture of Strategic Thinking in the U.S. Army \* Section 3: Insights from Outside the Military \* Chapter 8: Strategic Intuition in Army Training \* Chapter 9: Creativity in Strategic Thinking \* Chapter 10: Strategic Thinking. A Design Contribution \* Section 4: Ways of Thinking \* Chapter 11: Professional Military Education's Imperative of Linear/Nonlinear Thinking Style Balance for Improved Strategic Thinking \* Chapter 12: A Science of Context: The Qualitative Approach as Fundamental to Strategic Thought \* Chapter 13: The Genome Doodle of Strategic Thinking: Times, Epistemologies, and Narratives To begin understanding strategic thinking in the military, one must first have a basic sense of what strategic thinking is and what it is not. Examination of literature on strategic thinking does not lead to one common definition of strategic thinking. However, there are some identified common attributes of strategic thinking. Strategic thinking is built on a systems perspective, intent driven, hypothesis driven, intelligently opportunistic (capitalizing on new possibilities as the situation changes), and involves the ability to think in time (linking past, present, and future elements). The confusion about the definition of strategic thinking is exacerbated by the confounded concepts of strategic thinking, strategic planning, strategy, and the strategic thinker. In addition to the lack of common definition of strategic thinking, Heracleous notes that there is no common definition of strategic planning or common understanding of the relationship between strategic thinking and strategic planning. Liedtka outlines several differences between strategic thinking and strategic planning that include reliance on systems thinking, the role of measurement and control, and a focus on the outcome (strategy) versus the process. For the purpose of this compendium, we have focused extensively on concepts related to strategic thinking (cognitive processes) and the strategic thinker (characteristics of a person). This work does not extensively address the concepts of strategy (outcome) or strategic planning (programmatic, analytical process). Strategic thinking in the military comes with unique challenges and opportunities. It is different than strategic thinking in the private sector.

Solution Manual: Stewart Calculus Early Transcendentals 8th Ed.: Chapter 11 - Cambridge University Press

Throughout the past two years, Trans World Airlines, Midway Airlines, and R.H. Macy Company, as well as over 46,000 other corporations, have filed petitions for relief under Chapter 11 of the United States Bankruptcy Code. Of the firms that have filed Chapter 11 reorganization petitions, over eighty percent will never reorganize successfully and will not avoid a subsequent conversion to a Chapter 7 liquidation proceeding. The effects of these "misfilings" are enormous. Most fundamentally, an attempted reorganization, when liquidation is the more efficient solution, can unnecessarily increase the overall costs of bankruptcy significantly. In response to these costs, some scholars have called for the repeal of Chapter 11, while others have advocated merely a new approach to Chapter 11 reorganization proceedings. Still others defend the present Chapter 11 system. This Article contends that reducing bankruptcy costs requires a revised Chapter 11 reorganization structure. This Article posits a two-part revision to the present Chapter 11 system: (1) replacing corporate managers acting as debtors in possession with trustees; and (2) establishing a methodology to guide these new decision makers in determining whether a reorganization or a liquidation is the proper course of action in a given case.

In 2015, the United States Department of Defense published its long-awaited Law of War Manual making a significant statement on the position of the US government on important military matters. Whilst readers recognise the Manual's legal and strategic importance, they may question whether particular statements of law are legally accurate or complete. This book offers a unique in-depth review of the complete Manual, including revisions, on a paragraph-by-paragraph, line-by-line and word-by-word basis. The authors offer their personal assessment of the DoD's declared view as to the law that regulates the conduct of warfare, a subject of unparalleled current importance. William H. Boothby and Wolff Heintschel von Heinegg offer a balanced, articulate and authoritative critique for readers perusing the Manual in whatever capacity.
