Good Times! Easy Puzzles & Brain Games John Wiley & Sons

Like generations of little girls, Lauren Kessler fell in love with ballet the first time she saw *The Nutcracker*, and from that day, at age five, she dreamed of becoming a ballerina. But when she was twelve, her very famous ballet instructor crushed those dreams-along with her youthful self-assurance-and she stepped away from the barre. Fast forward four decades. Lauren-suddenly, powerfully, itchingly restless at midlife-embarks on a "Transcontinental *Nutcracker* Binge Tour," where attending a string of performances in Chicago, New York, Boston, and San Francisco reignites her love affair with the ballet-and fuels her girlhood dream. What ensues is not only a story about *The Nutcracker* itself, but also an inside look at the seemingly romantic-but oh-so-gritty-world of ballet, about all that happens away from the audience's eye that precedes the magic on stage. It is a tale told from the perspective of someone who not only loves it, but is also seeking to live it. Lauren's quest to dance *The Nutcracker* with the Eugene Ballet Company tackles the big issues: fear, angst, risk, resilience, the refusal to "settle in" to midlife, the refusal to become yet another *Invisible Woman*. It is also a very funny, very real look at what it's like to push yourself further than you ever thought you could go-and what happens when you get there.

'His book reads as an inspirational text (Emmanuel is an altruistic entrepreneur and activist who started his first charity as a teenager), and a rousing heartfelt testimony in which self-love trumps self-loathing ... his graceful book fulfils its humble ambition to act as "a guide to recognising the nightmare - and a blueprint for dreaming your way out of it.'" OBSERVER 'A moving and powerful memoir.' THE BRITISH BLACK LIST 'Both personal and political, weaving tales of his own life with advice for other young people and a call for everyone to do their part in creating an equal society ... Emmanuel is a great communicator; he writes and speaks with confidence. It's easy to see how, from such a young age, he has been able to engage people on the issues he wants to tackle.' EVENING STANDARD _____ I wanted to change the world, but the world I was born into changed me first. My name is Jeremiah Emmanuel. I'm twenty one years old. I'm an activist, an entrepreneur, a former deputy young mayor of Lambeth and member of the UK Youth Parliament. Raised in south London, I lived in an area where crime and poverty were everywhere and opportunities to escape were rare. Violence was accepted, prison was expected. That was the world I knew; the only one I thought was possible for people like me. Then I discovered

another world, one with opportunities round every corner. As I grew my network, I realised that the system actively works against certain members of society, silently preventing people from succeeding. I made it my mission to change this, and to teach people like me about the secret rules of society that empower some to get ahead and keep others down. This is my story of how I made it, and how others can too. Memoir meets manifesto, *Dreaming in a Nightmare* is a powerful account of the challenges faced by a new generation and how readers can rally to create change.

"You might think that dancing doesn't have a lot to do with social research, and doing social research is probably why you picked this book up in the first place.

But trust me. Salsa dancing is a practice as well as a metaphor for a kind of research that will make your life easier and better." Savvy, witty, and sensible, this unique book is both a handbook for defining and completing a research project, and an astute introduction to the neglected history and changeable philosophy of modern social science. In this volume, Kristin Luker guides novice researchers in: knowing the difference between an area of interest and a research topic; defining the relevant parts of a potentially infinite research literature; mastering sampling, operationalization, and generalization; understanding which research methods best answer your questions; beating writer's block. Most important, she shows how friendships, non-academic interests, and even salsa dancing can make for a better researcher. "You know about setting the kitchen timer and writing for only an hour, or only 15 minutes if you are feeling particularly anxious. I wrote a fairly large part of this book feeling exactly like that. If I can write an entire book 15 minutes at a time, so can you."

A remarkably frank, deeply moving, and inspiring memoir by Jai Pausch, whose husband, Randy, wrote the bestseller The Last Lecture while battling pancreatic cancer. "Jai is such a giver that she often forgets to take care of herself," Randy Pausch wrote about his wife. "Jai knows that she'll have to give herself permission to make herself a priority." In Dream New Dreams, Jai Pausch shares her own story for the first time: her emotional journey from wife

and mother to full-time caregiver, shuttling between her three young children and Randy's bedside as he sought treatment far from home; and then to widow and single parent, fighting to preserve a sense of stability for her family, while coping with her own grief and the challenges of running a household without a partner. Jai paints a vivid, honest portrait of a vital, challenging relationship between two strong people who faced a grim prognosis and the self-sacrificing decisions it often required. As she faced life without the husband she called her "magic man," Jai learned to make herself a priority to create a new life of hope and happiness—as she puts it, to "feel a spark of my own magic beginning to flicker." *Dream New Dreams* is a powerful story of grief, healing, and newfound independence. With advice artfully woven into an intimate, beautifully written narrative, Jai's story will inspire not only the legions of readers who made *The Last Lecture* a bestseller, but also those who are embarking on a journey of loss and renewal themselves.

An illuminating study of the complex relationship between children and media

in the digital age Now, as never before, young people are surrounded by media—thanks to the sophistication and portability of the technology that puts it literally in the palms of their hands. Drawing on data and empirical research that cross many fields and continents, authors Valkenburg and Piotrowski examine the role of media in the lives of children from birth through adolescence, addressing the complex issues of how media affect the young and what adults can do to encourage responsible use in an age of selfies, Twitter, Facebook, and Instagram. This important study looks at both the sunny and the dark side of media use by today's youth, including why and how their preferences change throughout childhood, whether digital gaming is harmful or helpful, the effects of placing tablets and smartphones in the hands of toddlers, the susceptibility of young people to online advertising, the legitimacy of parental concerns about media multitasking, and more. *Mindfulness Training for Those Living with Dementia, Chronic Illness, Or an Aging Brain* Grove Press

"Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat*
What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and

the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

Sunny tries to shine despite his troubled past in this third novel in the critically acclaimed Track series from National Book Award finalist Jason Reynolds. Ghost. Patina. Sunny. Lu. Four kids from wildly different backgrounds, with personalities that are explosive when

they clash. But they are also four kids chosen for an elite middle school track team—a team that could take them to the state championships. They all have a lot to lose, but they all have a lot to prove, not only to each other, but to themselves. Sunny is the main character in this novel, the third of four books in Jason Reynold's electrifying middle grade series. Sunny is just that—sunny. Always ready with a goofy smile and something nice to say, Sunny is the chilliest dude on the Defenders team. But his life hasn't always been sun beamy-bright. You see, Sunny is a murderer. Or at least he thinks of himself that way. His mother died giving birth to him, and based on how Sunny's dad treats him—ignoring him, making Sunny call him Darryl, never "Dad"—it's no wonder Sunny thinks he's to blame. It seems the only thing Sunny can do right in his dad's eyes is win first place ribbons running the mile, just like his mom did. But Sunny doesn't like running, never has. So he stops. Right in the middle of a race. With his relationship with his dad now worse than ever, the last thing Sunny wants to do is leave the other newbies—his only friends—behind. But you can't be on a track team and not run. So Coach asks Sunny what he wants to do. Sunny's answer? Dance. Yes, dance. But you also can't be on a track team and dance. Then, in a stroke of genius only Jason Reynolds can conceive, Sunny discovers a track event that encompasses the hard beats of hip-hop, the precision of ballet, and the showmanship of dance as a whole: the discus throw. But as he practices for this new event, can he let go of everything that's been eating him up inside?
