Zak George's Dog Training Revolution Atria Books

Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man's best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Quit the Hustle Houghton Mifflin Harcourt

Edgar the Owl and Freddy the Fox show readers of all ages how saying goodbye to a beloved animal does not mean saying goodbye forever. A portion of proceeds will be donated to animal shelters around the country. ----- When John's puppy Samuel died unexpectedly at just six months old it brought a profound sadness to their home and a sense that this was just not fair. For the first time John understood how a child must feel when they lose a pet of any age, asking themselves, "Why?" Hoping to turn his pain into something positive, John put pen to paper and wrote a story to help any child who has lost a pet. In *God Needed a Puppy* John guides children through the grieving process by using friendly animals from the forest to explain the reasons why a beloved pet sometimes has to leave us. He reassures them that this "goodbye" is not forever and offers hope that other furry friends will someday come into their lives.

Maddie on Things Penguin

Hunter. Worker. Legend. The untold story of the dog's role in building a nation. The Dogs That Made Australia pays tribute to the dogs that gave their all for our prosperity: the fearless hounds that saved fledgling colonies from famine; the courageous heelers and tireless collies that powered the rise of beef and wool; the tough little home-grown terriers that protected the homestead and garden; and the extraordinary police dogs, ahead of their time, loved by the nation. The selfless exploits of our heroic dogs are writ indelibly in our nation's heritage and identity. *The Dogs That Made Australia* is a vivid and meticulously researched history of Australia told from the perspectives of the dingo and of the dogs that were imported and developed here, as well as the humans who loved, feared and worked them. PRAISE 'A highly readable book about Australia's dog heroes and their contribution to Australia's development. This is a book for the ages. I loved every page!' Tony Parsons, OAM, author of *The Kelpie* 'This should be on every school list for every primary school. It is a fantastic Australian history reference' Narelle Hammond, Secretary, Australian Cattle Dog Society of NSW

The Keeshond Chronicle Books

In the tradition of the beloved New York Times bestsellers *Marley and Me* and *Oogy: The Dog Only a Family Could Love*, a charming, inspirational memoir about empathy, resilience, kindness, and an adorable deaf blind pink dog. When Connecticut veterinarian Melissa Shapiro gets a call about a tiny deaf blind puppy rescued from a hoarding situation in need of fostering, she doesn't hesitate to say, “yes.” Little does she know how that decision will transform her, her family, and legions of admirers destined to embrace the saga of the indomitable pink pup. One of the most anxious dogs Melissa had ever encountered, the traumatized Piglet weighed under two pounds upon his welcome into the Shapiro household—which included Melissa's husband Warren and their three college-aged kids, plus six other rescued dogs. After weeks of reassurance, and lots of love, Piglet connected, gained confidence, and his extraordinary spirit emerged. Melissa soon forged a powerful bond with Piglet, allowing the two to communicate without sound or visual cues. Two months later, when the day arrived to say good-bye to the now dashing, six-pound pink boy dog with the larger than life spirit, Melissa faced a heart-wrenching decision. Could she hand him over to someone willing to give Piglet the full-time attention he required or could she adapt her schedule and her household to make a permanent place for him in her life and work? Of course, the answer was simple: love would find a

way. Curious, engaged, and incredibly eager to learn, Piglet quickly became part of the family. What started out as a few simple Facebook posts of Piglet and his pack rapidly evolved into a global celebration of Piglet's infectiously positive mindset. *Piglet: The Unexpected Story of a Deaf, Blind, Pink Puppy and His Family* fully illustrates this heartwarming story of one special little puppy with a purpose to teach the power of empathy, love, and kindness.

Raw, honest and courageous in *One of the Family*, Nicky opens up about how being adopted has made him always feel like an outsider; the guilt he has carried towards his Mum and Dad for needing to trace his birth mother, and the crushing disappointment he felt when he finally met her. And for the first time, he writes about his emotional breakdown and how he has learned to live with a late diagnosis of bipolar. Through it all his passion for dogs and animals has been a lifeline. and above all, to better understand the decisions taken by his birth mother to give him up for adoption.

Never has the hustle been more glorified than it is today. We have been told for decades that we have to do it all: have kids, a great relationship, a career, a Pinterest-worthy house and a perfect body and face. But with the rise of the #bossbabes even that is not enough anymore: we should also strive to turn our hobby into a side hustle, follow the latest healthy eating trends and pretend that celery juice tastes better than coffee. By making us always reach higher and wanting more the hustle keeps us in a perpetual cycle of never being satisfied with what we have. But the tide is turning. We are fed up with the chase for perfection. This book explores what happens when we stop doing and start being, and gives us permission to like ourselves for who we are.

The Poodle's Story Simon and Schuster

David Rosenfelt's *Dogtripping* is moving and funny account of a cross-country move from California to Maine, and the beginnings of a dog rescue foundation When mystery writer David Rosenfelt and his family moved from Southern California to Maine, he thought he had prepared for everything. They had mapped the route, brought three GPSs for backup, as well as refrigerators full of food, and stoves and microwaves on which to cook them. But traveling with twenty-five dogs turned out to be a bigger ordeal than he anticipated, despite the RVs, the extra kibble, volunteers (including a few readers), and camping equipment. Rosenfelt recounts the adventure of moving his animal companions across the United States with humor and warmth, and tells the tale of how he and his wife became passionate foster parents for rescue dogs, culminating in the creation of the Tara Foundation and successfully placing several thousand dogs with loving families. "Fun, fanciful, and even informative." —People The first comprehensive history of felines—from the laps of pagan gods to present-day status as meme stars—as revealed by a very learned tabby with a knack for hunting down facts Since the dawn of civilization, felines have prowled alongside mankind as they expanded their territory and spread the myth of human greatness. Spanning almost every continent and thousands—yes, thousands—of years, Baba's complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. A "haunting meditation on trust, hope and love" by a woman who adopts and trains a Golden Retriever puppy to become a search-and-rescue dog (People). In the wake of the Oklahoma City bombing, Susannah Charleson's attention was caught by a newspaper photograph of a canine handler, his exhausted face buried in the fur of his search-and-rescue dog. Susannah, a dog lover and pilot with search experience herself, was so moved by the image that she decided to volunteer with a local canine team, plunging herself into an astonishing new world. While the team worked long hours for nonexistent pay and often heart-wrenching results, Charleson discovered the joy of working in partnership with a canine friend and the satisfaction of using their combined skills to help her fellow human beings. Once she qualified to train a dog of her own, Charleson adopted Puzzle—a smart, spirited Golden Retriever puppy who exhibited unique aptitudes as a working dog, but was a bit less interested in the role of compliant house pet. Scent of the Missing is the story of Charleson's adventures with Puzzle as they search for a lost teen; an Alzheimer's patient wandering in the cold; and signs of the crew amid the debris of the space shuttle Columbia disaster—all while unraveling the mystery of the bond between humans and dogs. "A riveting view of both the human animal bond and the training of search and rescue dogs. All dog lovers and people interested in training service

Glamorous fashions, personalities, and places captured by iconic photographer Slim Aarons Slim Aarons, at least according to the man himself, did not photograph fashion: "I didn't do fashion. I did the people in their clothes that became the fashion." But despite what he claimed, Aarons's work is indelibly tied to fashion. Aarons's incredibly influential photographs of high society and socialites being unambiguously themselves are still a source of inspiration for modern day style icons. Slim Aarons: Style showcases the photographs that both recorded and influenced the luminaries of the fashion world. This volume features early black-and-white fashion photography, as well as portraits of the fashionable elite—like Jacqueline de Ribes, C.Z. Guest, Nan Kempner, and Marisa Berenson—and those that designed the clothes, such as Oscar de la Renta, Emilio Pucci, Mary McFadden, and Lilly Pulitzer. Featuring some never-before-seen images and detailed captions written by fashion historians, Slim Aarons: Style is a collection of the photographer's most stylish work.
