Nicole Glover delivers the second book in her exciting Murder & Magic series of historical fantasy novels featuring Hetty Rhodes and her husband, Benji, magic practitioners and detectives living in post-Civil War Philadelphia. Nothing bothers Hetty and Benji Rhodes more than a case where the answers, motives, and the murder itself feel a bit too neat. Raimond Duval, a victim of one of the many fires that have erupted recently in Philadelphia, is officially declared dead after the accident, but Hetty and Benji's investigation points to a powerful Fire Company known to let homes in the Black community burn to the ground. Before long, another death breathes new life into the Duval investigation: Raimond's son, Valentine, is also

found dead. Finding themselves with the dubious honor of taking on Valentine Duval as their first major funeral, it becomes clear that his passing was intentional. Valentine and his father's deaths are connected, and the recent fires plaguing the city might be more linked to recent community events than Hetty and Benji originally thought. The Undertakers continues the adventures of murder and magic, where even the most powerful enchantments can't always protect you from the ghosts of the past . . .

This volume provides a comprehensive overview of Nathaniel Hawthorne and demonstrates why he continues to be a critically significant figure in American literature. The first section focuses on Hawthorne's interest in and knowledge of past (Puritan and colonial) and contemporary nineteenth-century history (women's, African American, Native American) as the

inspiration for his writings and the source of his literary success. The second section explores his fascination with social history and popular culture by examining topics as mesmerism, utopian life styles, theatrical performances, and artistic innovations. The third section looks at how Hawthorne succeeded and excelled in the literary marketplace, as an author of children's literature, literary sketches, and historical romances. In the fourth section, Hawthorne's literary precursors, peers, colleagues, and successors are analyzed. In the final section, Hawthorne's attachment to family, nature, and home is examined as the source of creative inspiration and philosophical questing. *The Celestial Rail-road* Vintage
Presents a selection of twenty four of the author's most notable short stories, including "Young Goodman Brown," "Rappacini's daughter," and "The birthmark."

One of the first American short story writers, Nathaniel Hawthorne is also among the finest. A sampling of his stories reads like an anthology of great literature: *My Kinsman, Major Molineux*; *The Celestial Railroad*; *The Minister's Black Veil*; *The Maypole of Merry Mount*; *The Birthmark*. Common to all Hawthorne's work is an intellectual, emotional, and psychological richness that may well remain unparalleled in fiction today. Indeed, as scholars learn more about history, literature, sociology, and psychology, the more they unlock secrets in Hawthorne's work. Few writers, of any generation, genre, or language have

shared - or even approached - Hawthorne's lucid vision of the mind's hidden landscape. More remarkable, perhaps, was the compassion he felt for his subjects, while exploring their sin, guilt, cruelty, and arrogance. Human beings, he felt, can afford to face their flaws because they have the capacity to grow beyond them. Even his peers acknowledged his place in literary history: D. H. Lawrence called Hawthorne "the American wonder-child with his magical, allegorical insight"; Henry James wrote an entire book of criticism about him; and Herman Melville, in deference to Hawthorne's "great power of blackness," dedicated *Moby Dick* to his friend and neighbor. Nancy Bunge investigates the whole of Hawthorne's short fiction canon, including a number of the less celebrated stories. Her specific and detailed analyses include fresh commentaries on Hawthorne's lush and demanding fiction, including observations afforded by the moral, social, and historical interpretations of the stories. Many of her theories are not found in the extant body of

criticism, and still others take the general patterns of critical interpretation to new levels. Bunge's thorough inspection also sheds light on the relation of the fiction to Hawthorne's own biography, including his Puritan roots.

What if dreams are more than dreams? This magical realism novel is the first in a trilogy that is historical fiction, love story and spiritual quest. It is about magic and mysticism, faith and initiation. It is about the soul of art. Woven through history is a love story of many parts, remembered and built upon through the centuries. A great love passes on through generations in some undeniable memory in the flesh, and also reappears in new lives from distant places. Mystical love calls to couples throughout time to bring them together again and again. This remembering travels both ways in time, existing in that place beyond time where love lives. There are vague memories, subtle warnings and obscure communications between individuals separated by centuries. Lives weave

together throughout more than five hundred years, paralleling contemporary events. Religious intolerance, fear and greed generate the Spanish Inquisition and the religious wars in Europe that reach a decisive moment with the defeat of the Spanish Armada. Ninety-six years earlier, in the same year that Ferdinand and Isabella sent the three ships that discovered the New World, Spain's power had begun to weaken with the expulsion of the Jews and Muslims. The wisdom and skills of the Islamic and Jewish citizens was what had helped make Spain what it was, but fear caused the end of that golden age. These two critical points in history and what follows are the setting for this novel, but other times are connected over many thousands of years. The story opens in Spain in the 15th Century, with Jewish, Islamic and Christian children playing together as innocents without prejudice or fear. Throughout the book, there is an underlying theme of Hope and Faith manifested in mystical ways. This faith lives in ancient Celtic traditions, as well as Jewish, Islamic and Christian forms, both

Catholic and Protestant. Truth is truth, no matter what form it chooses to wrap itself inside. Love empowers many characters in various ways and transforms them into their best. The world of nature sometimes comes to their aid in miraculous ways, and enemies who are treated with love become allies. There are no greater mysteries than time and consciousness and the memories that connect us to the whole of our lives and beyond. The *deja vu* and vague precognitive experiences that all of us have felt to some degree are the tip of the iceberg of this mystery. The supernatural in our lives is often liberated by powerful emotions like love and fear. We all are familiar with stories about mothers who have sensed when their children are in danger or when a loved one is in crisis. There is an undeniable connection that doesn't fit neatly into our view of everyday physical life. There is a larger world we glimpse as we timidly awake. Editorial Review: Lyrically, hauntingly beautiful....this is storytelling at its best....

Weekly and author of dozens of books, including *The Great Emergence: How Christianity Is Changing and Why* *The Celestial Railroad and Other Stories* Turtleback Excerpt from *The Celestial Railroad* Hawthorne's bright and witty parody upon Bunyan's immortal allegory, "The Pilgrim's Progress," first appeared in the *Democratic Review*. The satire was so keen and witty and at the same time so genial in tone, that it was republished by the American Sunday-school Union a few months after its first appearance under the title "A Visit to the Celestial City." Hawthorne's name was not attached to it. He was not then widely known as an author. As one of his biographers says of him at this period, "He wrote stories and published them in magazines, but nobody knew who wrote them. ...For a long time it was supposed they were written by a woman." About three years after the story was issued by the Union, it was reprinted in a London edition of "Mosses from an Old Manse," and four years later still in an American edition of the same book. In his most powerful and provocative novel to date, master storyteller Irving Wallace turns his incomparable talents to the world of sex therapy. Erotically charged, compassionate, and suspenseful, *The Celestial Bed* explores the way people make love in postsexual-revolution America. Dr. Arnold Freeberg is a courageous, pioneering sex therapist whose dedication to his

patients and the principles of his profession prompt him to step outside the law and utilize the most effective tool of all in combating sexual dysfunctions--sex surrogates. Although sex surrogates are highly trained and supervised professionals who guide, demonstrate, and teach people with low sexual self-esteem how to enjoy intimacy, according to the law in many states they are prostitutes. Driven out of Arizona, Dr. Freeberg establishes a new clinic in southern California with the help of his most experienced surrogate, beautiful young Gayle Miller, and a new male surrogate, movie-star-handsome Paul Brandon. But where Dr. Freeberg expected to be able to practice in peace, he encounters powerful adversaries--an ambitious district attorney, a power-hungry evangelist, a duplicitous newspaper reporter, and the violently jealous psychotic boyfriend of one of his most needy patients--who would tear down his life's work, humiliate his patients, and put him and his staff on trial for pandering and prostitution. In the riveting, swiftly-paced narrative style that made

him one of America's most widely read authors, Irving Wallace takes the reader behind closed doors into the private treatment rooms where sex surrogates lead their patients through the therapeutic exercises designed to bring them to sexual fulfillment. Readers will find themselves drawn into a circle of extraordinary people dedicated to repairing the sexually wounded, and come to understand the sex therapist's essential piece of wisdom--good lovemaking is first loving yourself and then learning to share that love with another.

Not a great while ago, passing through the gate of dreams, I visited that region of the earth in which lies the famous City of Destruction. It interested me much to learn that by the public spirit of some of the inhabitants a railroad has recently been established between this populous and flourishing town and the Celestial City. Having a little time upon my hands, I resolved to gratify a liberal curiosity by making a trip thither. Accordingly, one fine

morning after paying my bill at the hotel, and directing the porter to stow my luggage behind a coach, I took my seat in the vehicle and set out for the station-house. It was my good fortune to enjoy the company of a gentleman-one Mr. Smooth-it-away-who, though he had never actually visited the Celestial City, yet seemed as well acquainted with its laws, customs, policy, and statistics, as with those of the City of Destruction, of which he was a native townsman. Being, moreover, a director of the railroad corporation and one of its largest stockholders, he had it in his power to give me all desirable information respecting that praiseworthy enterprise. [After the Manner of Bunyan. Vividly Representative of the Present Day Professors of Religion](#) *The Celestial Railroad and Other Stories* Paris. The name alone conjures images of chestnut-lined boulevards,

sidewalk cafés, breathtaking façades around every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to enjoy a croque monsieur in a Left Bank café--a child (and perhaps a father, too) who would have a grasp of that Parisian sense of style we Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and

award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway-even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."

The Megachurch Movement Flirts with Modernity Elibron.com Starting from Hawthorne's statement that his works are attempts to open an intercourse with the world, Kenneth Dauber examines them to see how they serve as acts of communication. Thus his investigation of a major American writer studies Hawthorne as a craftsman, explores the conditions under which various interpretations of literature are possible, and lays the foundation for a new theory of genres. The author begins with a brief history of American criticism from the rediscovery of classic American letters to the present. He traces the development of historicism and formalism as the two major strains of native critical thought and demonstrates their specific limitations in connection with a study of Hawthorne's allegory. By redefining literature according to Hawthorne's work and reexamining the role of the critic in view of the circumstances of American letters, Professor Dauber is able to propose a native poetics. Central to the author's theory is the concept of genre as a pre-existing structure with

which Hawthorne battled and through which he sought communion. This ambivalence is analyzed in chapters on the four novels and selected stories. Originally published in 1977.
