 Australia has some of the world's largest and most labor-efficient farms, and tractors are an essential part of their operations. The average Australian farm has three or more tractors. In this historical overview, the author documents the development of the indigenous tractor industry, from the McDonald Imperial of 1909 to more recent cane, olive, and grape harvesters. Australian Tractors puts the industry in an economic and social history context.

 Maryam Baouardy is a daughter of Galilee, from a very poor family. At the age of three, she lost her father and mother and was adopted by her uncle. She never learned how to read or write, but her life became a remarkable succession of supernatural manifestations, worthy of Catherine of Siena or Teresa of Avila, from the stigmata to singular battles against Satan. From where does she draw the heavenly wisdom, childlike yet strong, that made her loved by all? Where does this burning love that consumes her come from? For her, just as for St. Paul, "to live is Christ". This beautiful "Lily of Palestine" became Sr. Maryam of Jesus Crucified in the Carmelite Order. Both humble guardian of the grille and formidable forewoman, she was often visited by Jesus and Mary. The words she transmits from them, pearls of great price, are significant for us today as they enlighten the future of our broken world. Maryam died in Bethlehem in her 33rd year, on August 26, 1878, shortly after the birth of Thérèse of Lisieux in France. Pope John Paul II beatified her on November 13, 1983. It is impossible to know Maryam without falling in love with her, without yearning for holiness, at her school.

To the admirer of farm machinery in all its gritty splendor, the tractor is more than the mechanical workhorse of the modern field. It is a testament to American know-how, a work of mechanical art truly in the American grain. Among these hard-working machines, Ford tractors hold a special place after nearly a century of bringing innovation, dependability, and good old American muscle to farms and fields worldwide. This book provides a hands-on guide to restoring these venerable machines from the ground up, from the first models made to those

produced as recently as 1965. With hundreds of full-color photographs, the guide is not just clear and easy-to-follow, but also a feast for the eyes for tractor aficionados. Beginning at the beginning--how to choose and buy your tractor--Tharran Gaines takes readers through step-by-step directions for the complete restoration of Fordson, Ford-Ferguson, and Ford tractors. In straightforward terms he covers everything from troubleshooting and disassembly to engine and gearbox rebuilds, electrical work, reassembly, painting, and post-restoration care and maintenance. Informative photographs and proven tips, techniques, and money-saving advice from experienced restorers make the book an invaluable resource for amateur mechanic and professional alike. Also included is an appendix listing sources for parts, decals, tires, etc., as well as addresses for tractor clubs and collector associations.

Fresh betrayal leads to consequences no one saw coming in this book from New York Times bestselling author Kimberla Lawson Roby. It's been four years since twenty-eight-year old Alicia Black, daughter of Reverend Curtis Black, divorced her second husband, the most womanizing and corrupt man she has ever known. Since then, Alicia has been dating her first husband, Phillip Sullivan, a wonderfully kind and true man of God whom she'd hurt terribly by cheating on him. Alicia has worked hard to prove herself worthy of his trust once more, and when he asks her to marry him again, she couldn't be happier. But Levi Cunningham, the drug dealer Alicia had an extramarital affair with, has just been released from prison, and he has completely turned his life around for the better. Still head-over-heels in love with Alicia, he will do whatever is necessary to win her back. Remarrying Phillip is the one thing Alicia has wanted for years, but she can't get Levi out of her mind. Alicia and Phillip aren't the only ones in the middle of a crisis. Their best friends, husband and wife Brad and Melanie Richardson, are struggling to keep their marriage together. Workaholic Brad is never home and has begun losing thousands on bad investments. Or so he says. Melanie, who is certain there's more to the story, is determined to get at the truth. At the same time, her frustration and stress cause her to eat a lot less, and she behaves in an extreme fashion. Alicia worries that she could be suffering from anorexia, but Melanie steadfastly denies it. Their friendship begins to suffer, and it isn't long before they're talking to each other like enemies.

Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow

characteristics and the best performance. Porting demands the right tools, skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth and detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.

This is a true story of a United Automobile Worker's journey to her third-shift job. Construction work on her highway exit forced her to exit in Buena Vista, Michigan, where she encountered two corrupt police officers. She was stopped with no warrants or priors; she was not speeding, and did not possess drugs or alcohol. All of her constitutional rights were violated and she was jailed unjustly. She was never informed why she was going to jail. After meeting Martin Luther King, Jr. on September 11, 1977, she fought the corrupt legal system with union pride for her civil rights.
