Jules Verne's: Lighthouse #1 (of 5)

Penguin

From Connie Willis, winner of multiple Hugo and Nebula Awards, comes a comedic romp through an unpredictable world of mystery, love, and time travel . . . Ned Henry is badly in need of a rest. He's been shuttling between the 21st century and the 1940s searching for a Victorian atrocity called the bishop's bird stump. It's part of a project to restore

the famed Coventry Cathedral, destroyed in a Nazi air raid over a hundred years earlier. But then Verity Kindle, a fellow time traveler, inadvertently brings back something from the past. Now Ned must jump back to the Victorian era to help Verity put things right—not only to save the project but to prevent altering history itself. Image Comics
At the edge of the galaxy, there is a giant supercomputer known as the Lighthouse. The only brain powerful enough to navigate ships through a sargasso of naturally occurring

wormholes, potentially cutting months or even years off a spaceship's journey. Three humans, one alien, and a nanny bot have manned the remote station for years in relative peace until the arrival of Captain Kongre and his band of cutthroat pirates threatens the future of civilization and reveals that each of the Lighthouse crew has been hiding a shocking secret. He who controls the Lighthouse controls this part of the galaxy. From the team that brought you THE MARKED and SONATA comes this double-sized sci-fi thriller set on the high seas of space, based on the work of master storyteller JULES VERNE.

 #SmallAngryPlanet When Rosemary
 Harper joins the crew of the Wayfarer,
 she isn't expecting much. The ship,
 which has seen better days, offers her
 everything she could possibly want: a
 small, quiet spot to call home for a while,
 adventure in far-off corners of the
 galaxy, and distance from her troubled
 past. But Rosemary gets more than she
 bargained for with the Wayfarer. The
 crew is a mishmash of species and
 personalities, from Sissix, the friendly
 reptilian pilot, to Kizzy and Jenks, the

constantly sparring engineers who keep the ship running. Life on board is chaotic, but more or less peaceful - exactly what Rosemary wants. Until the crew are offered the job of a lifetime: the chance to build a hyperspace tunnel to a distant planet. They'll earn enough money to live comfortably for years... if they survive the long trip through war-torn interstellar space without endangering any of the fragile alliances that keep the galaxy peaceful. But Rosemary isn't the only person on board with secrets to hide, and the crew will soon discover that space may be vast, but spaceships are very small indeed.

A boy wins a \$100,000 prize in a box of Frosted Flakes—only to discover that claiming the winnings might unravel his family. A woman sets out to seduce motivational speaker Tony Robbins—turning for help

to the famed motivator himself. A new arrival in Heaven, overwhelmed with options, procrastinates over a long-ago promise to visit his grandmother. We meet Sophia, the first artificially intelligent being capable of love, who falls for a man who might not be ready for it himself; a vengeance-minded hare, obsessed with scoring a rematch against the tortoise who ruined his life; and post-college friends who try to figure out how to host an intervention in the era of Facebook. Along the way, we learn why wearing a red T-shirt every day is the key to finding love, how February got its name, and why the stock market is sometimes just . . . down. Finding inspiration in questions from the nature of perfection to the icing on carrot cake, *One More Thing* has at its heart the most

human of phenomena: love, fear, hope, ambition, and the inner stirring for the one elusive element just that might make a person complete. Across a dazzling range of subjects, themes, tones, and narrative voices, the many pieces in this collection are like nothing else, but they have one thing in common: they share the playful humor, deep heart, sharp eye, inquisitive mind, and altogether electrifying spirit of a writer with a fierce devotion to the entertainment of the reader.

 NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender's Game* by Orson Scott Card. "Red Rising ascends above a crowded dystopian

field.”—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness “I live for the dream that my children will be born free,” she says. “That they will be what they like. That they will own the land their father gave them.” “I live for you,” I say sadly. Eo kisses my cheek. “Then you must live for more.” Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface

generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity’s overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society’s ruling class. The hit series from Charles Soule (Poe Dameron, Daredevil) and Alberto Jiménez Alberquerque (Mystery Girl) is now available for just \$10! Newly-elected president Stephen Blades hoped to tackle the most critical issues facing the nation: war, the economy, and a failing health care system. But in a letter penned by the outgoing president,

Blades learns the truth that redefines "critical": seven years ago, NASA discovered alien presence in the asteroid belt, and kept it a secret from the world. A stealth mission crewed by nine astronauts was sent to make contact, and they're getting close—assuming they survive the long journey to reach their destination. President Blades has just become the most powerful man on the planet. This planet.

Adam Jones is just another broke scrapper combing his little slice of space for the semi-valuable trash that litters its dark corners. He spends most of his days inside his junker, the Asteroid Jones II, drinking beer, watching ancient horror movies, and evading debt collectors. But life for Adam gets a lot more

complicated when he discovers a mysterious object that attracts the attention of powerful and bumbling forces from around the universe. With the help of his wily grandfather and a mysterious feline stranger, Adam risks life and love in pursuit of financial freedom, even as the rest of the universe threatens to reduce him to space dust.

Space Force BOOM! Studios

Five years ago, the United States Space Force became a reality. And while those writing the checks took things very seriously, the other military branches did not. As a result, Space Force was populated by undesirables: men and women who made too many mistakes, didn't follow the rules, or...slept with the wrong general's daughter. Three times.

On camera. It was a mistake, okay? My name is Captain Ethan Stone, a decorated member of SEAL Team 6 turned Space Force 'recruit.' While the powers-that-be attempted to make Space Force an embarrassment, they also sent some of the very best minds, fighters, and pilots to the program, because sometimes the best of us decide to take a stand against those same powers. Yeah, yeah. Not me. Though I seem to recall I was standing when... Sorry. It's a distracting memory. Flash forward five years and between tenses. President West is in office. Power has shifted. And Space Force is defunded. With just a handful of us still living on base, we find ourselves being evicted. But before all of us can leave, aliens invade. Really ugly ones, too.

Super nasty. I don't think I could describe them here without getting the book banned. Anywho, using their advanced technology, they seal off Space Force Command behind a shrinking force field and kick off a battle royale to the death. Human vs. alien. To the victors goes the Earth. While my boy Frank Taylor and I throw down inside the force field, my main squeeze, First Lieutenant Jennifer Hale, leads an international strike team into freekin' space. It's nuts. Crazy action. Super funny, too, in like a Deadpool way, if that's your thing. The only way to really know what went down is to snag a copy of this book and read it for yourself...before it's too late. Or wait for the movie. There is going to be a movie, right?

The Vacuum of Space Macmillan
Readers of science fiction dystopia comedy books will (hopefully) enjoy the dry sarcastic humour and satire of this series. Despite the dystopian setting, and the odd bit of gallows humour, it's a light sci fi novel. When The Pan of Hamgee encounters some mudlarkers trying to land a box on the banks of the River Dang he is happy to help. Having accepted a share of the contents as a reward he cannot believe his luck. It contains one of the most expensive delicacies available in K'Barth, Goojan spiced sausage. If he can sell it, the sausage might spell the end of his troubles. On the other hand, knowing his luck, it could bring a whole load more. Written in British English with a dash of light swearing. Suitable for any reader of

any age from 10 up - younger readers who have read all the Harry Potter books without any worries will be fine with the Hamgeean Misfit stories. Suggested cinema rating, PG. Too Good To Be True is the fourth book in the Hamgeean Misfit, dystopian humorous science fiction series. It is set in a contemporary dystopia, in a parallel reality but there is some futuristic technology. There is an overall story arc, but these stories are written to be stand alone and can be read in any order. **** INTERVIEW WITH THE AUTHOR Q - What made you write this series? A - If you want the honest answer I wrote it for me. As a reader, I love British satire and humor (or humour). I love wit; funny epic fantasy series like the Discworld novels and comedic sci fi like Douglas Adams. I like

sff and speculative fiction, I like adventure and action and a gripping tale that zips along quickly, I like genre mash ups and I love an angsty dystopian world but the best science fiction and fantasy stories, for me, are funny. I am to write comedy in the tradition of all the great humorous British authors. I like to aim high. I wanted protagonists people could love and empathise with, mavericks, misfit characters, real people ... except they're not all people obviously, some of them are other alien (ish) species. This book is about misfit heroes and heroines winning the day, it's about good versus evil even when the good guys are on different sides. It's science fiction fantasy action - it's dystopia but it's comedy, it's sci-fi but it's planet-based. You'll find all sorts of quirky characters

and interesting alien species: from 6ft Swamp Things with antennae to cute furry creatures like the Blurpons, with their fluffy ears, big button eyes and penchant for extreme violence. Oh, and did I mention the 11mph barge chase?

There is some dark humour and some very light swearing *** INTERVIEW WITH THE AUTHOR Q - So, tell us about K'Barthan Extras. What made you write

them? What makes this book special? A - If you want the honest answer I wrote it for me. As a reader, I love dystopia but I like it upbeat. I enjoy British satire and humor (or humour). I love wit; funny epic fantasy series like the Discworld novels and comedic sci fi like Douglas Adams, humorous science fiction reads, or fantasy stories. I like sff and speculative fiction but the best science fiction and fantasy stories, for me, are funny, I like adventure and action and a gripping tale that zips along quickly. And of course, I like genre fiction mashups; Douglas Adams meets StarTrek and James Bond - with a smidgeon of Dr Who and a dash of romance (but no squelchy bits). Think Father Ted meets Red Dwarf or then again ... maybe don't. I wanted a fast paced story, a gripping tale but at the

same time a funny one. Comedy in the tradition of all the great humorous British authors, something light and witty and clever. I like to aim high. I wanted protagonists people could love and empathise with, mavericks, misfit characters, real people ... except they're not all people obviously, some of them are other alien (ish) species. The K'Barthan series about misfit heroes and heroines winning the day, it's about good versus evil even when the good guys are on different sides. It's a science fiction fantasy action adventure in a dystopian setting - it's planet based, so it's a bit of a blend. It's pure comedic portal fantasy, except it's comedy sci fi too. You'll find all sorts of quirky characters and interesting alien species: from 6ft Swamp Things with antennae to

cute furry creatures like the Blurpons, with their fluffy ears, big button eyes and penchant for extreme violence. Oh ... and did I mention the flying car chases? Q - Do you have a target reader? A - Officially it's young adults and teenagers. The series is certainly proving popular with ya readers and I had my nephew in mind when I wrote them, who was a teenager at the time. However, I firmly believe that all the best sci fi books should hold a universal appeal, so I also wrote it for me. I wanted an epic read and ... yeh well ... this was the best I could do. Thus far - if the people who contact me are anything to go by - my dystopian light reading appeals to a certain type of person across the board. The oldest fan of the my books I know about was in his 90s

and the youngest,10. The kind of readers who review my stuff often compare it to Terry Pratchett's Discworld, Douglas Adams, Harry Potter and Harry Harrison's Stainless Steel Rat series (but don't expect this to be as good as any of those). People who like my stuff also enjoy Barry Hutchieson's Space Team books but again, while mine are good science fiction fantasy books, don't expect them to as good as all this stuff I've mentioned whatever the reviews might say! This is just to give you a flavour of the kind of tone you might expect. *** Fans of these other sci fi and
