The 7 Habits of Highly Effective Teens Penguin

From the New York Times bestselling author of NOS4A2 and Horns comes this e-short story—from Joe Hill’s award-winning collection 20th Century Ghosts. Imogene is young and beautiful. She kisses like a movie star and knows everything about every film ever made. She's also dead and waiting in the Rosebud Theater for Alec Sheldon one afternoon in 1945. . . . Arthur Roth is a lonely kid with big ideas and a gift for attracting abuse. It isn't easy to make friends when you're the only inflatable boy in town. . . . Francis is unhappy. Francis was human once, but that was then. Now he's an eight-foot-tall locust and everyone in Calliphora will tremble when they hear him sing. . . . John Finney is locked in a basement that's stained with the blood of half a dozen other murdered children. In the cellar with him is an antique telephone, long since disconnected, but which rings at night with calls from the dead. . . .

The new way to transform a sales culture with clarity, authenticity, and emotional intelligence. Too often, the sales process is all about fear. Customers are afraid that they will be talked into making a mistake; salespeople dread being unable to close the deal and make their quotas. No one is happy. Mahan Khalsa and Randy Illig offer a better way. Salespeople, they argue, do best when they focus 100 percent on helping clients succeed. When customers are successful, both buyer and seller win. When they aren't, both lose. It's no longer sufficient to get clients to buy; a salesperson must also help the client reduce costs, increase revenues, and improve productivity, quality, and customer satisfaction. This book shares the unique FranklinCovey Sales Performance Group methodology that will help readers:

- Start new business from scratch in a way both salespeople and clients can feel good about
- Ask hard questions in a soft way
- Close the deal by opening minds

A fresh, effective, and enduring way to lead—starting with your next interaction Most leaders feel the inevitable interruptions in their jam-packed days are troublesome. But in *TouchPoints*, Conant and Norgaard argue that these—and every point of contact with other people—are overlooked opportunities for leaders to increase their impact and promote their organization's strategy and values. Through previously untold stories from Conant's tenure as CEO of Campbell Soup Company and Norgaard's vast consulting experience, the authors show that a leader's impact and legacy are built through hundreds, even thousands, of interactive moments in time. The good news is that anyone can develop "TouchPoint" mastery by focusing on three essential components: head, heart, and hands. *TouchPoints* speaks to the theory and craft of leadership, promoting a balanced presence of rational, authentic, active, and wise leadership practices. Leadership mastery in the smallest and otherwise ordinary moments can transform aimless activity in individuals and entropy in organizations into focused energy—one magical moment at a time.
