Power English encourages the rapid acquisition of fundamental writing skills. The program is based on sound learning principles and is designed to keep the learners actively engaged throughout. Power English is grounded in the principle of overlearning, which occurs when students continue practicing a skill even after it is learned. Power English consists of the Locator Test, nine worktexts, and a series review book. The Locator Test is used to place students in the appropriate text in the program. Each of the nine worktexts has five chapters that cover a variety of writing skills: usage, sentence structure, mechanics, and composition. Answers are in a special perforated section at the end of each book. The section can be left in the book or removed. The series review book, Power English 9, contains eight review tests. They can be administered individually at any time during the use of this program or as a battery at the completion of the program.

Prefatory Note In presenting this, the seventh book of the "1001 Question and Answer Series," we feel that a great want is partially met. It is evident, from the number of inquiries made for such a book, that the works devoted to the subject of Orthography are very limited. We are also aware that the Authors of the different Grammars devote such a limited space to the subject of Orthoepy and technical Orthography, that both Teacher and Pupil turn away from the subject in disgust. In preparing this list of questions and answers we have consulted the best authority of the present day, and believe we have gone over the ground in such a way that it will meet the approval of all interested. The questions and answers on Reading we

trust will add to the interest of the book, and only hope that it will be received with as gracious a welcome and hearty approval as the rest of the series. B.A.H. Letters 1. What is Orthography? The beloved and award-winning novel now available in a new format with a great new cover! When Wesley Boone writes a poem for his high school English class, some of his classmates clamor to read their poems aloud too. Soon they're having weekly poetry sessions and, one by one, the eighteen students are opening up and taking on the risky challenge of self-revelation. There's Lupe Alvarin, desperate to have a baby so she will feel loved. Raynard Patterson, hiding a secret behind his silence. Porscha Johnson, needing an outlet for her anger after her mother OD's. Through the poetry they share and narratives in which they reveal their most intimate thoughts about themselves and one another, their words and lives show what lies beneath the skin, behind the eyes, beyond the masquerade.
