Human Nature and an Ethics of Care Connected Lives
 Human Nature and an Ethics of Care

How do the living maintain relations to the dead? Why do we bury people when they die? And what is at stake when we do? In *The Dominion of the Dead*, Robert Pogue Harrison considers the supreme importance of these questions to Western civilization, exploring the many places where the dead cohabit the world of the living—the graves, images, literature, architecture, and monuments that house the dead in their afterlife among us. This elegantly conceived work devotes particular attention to the practice of burial. Harrison contends that we bury our dead to humanize the lands where we build our present and imagine our

future. As long as the dead are interred in graves and tombs, they never truly depart from this world, but remain, if only symbolically, among the living. Spanning a broad range of examples, from the graves of our first human ancestors to the empty tomb of the Gospels to the Vietnam Veterans Memorial, Harrison also considers the authority of predecessors in both modern and premodern societies. Through inspired readings of major writers and thinkers such as Vico, Virgil, Dante, Pater, Nietzsche, Heidegger, and Rilke, he argues that the buried dead form an essential foundation where future generations can retrieve their past, while burial grounds provide an important bedrock where past generations can preserve their legacy for the unborn. *The Dominion of the Dead* is a profound meditation on how the thought of death shapes the communion of the living. A work of enormous scope, intellect, and imagination, this book will

speak to all who have suffered grief and loss.

Connected Lives University of Chicago Press

Connected Lives Human Nature and an Ethics of Care Rowman & Littlefield

Rowman & Littlefield

Connected Lives examines the account of human nature that is implicit in an ethics of care, a picture of human lives that emphasizes interdependency, embodiment, and social connectedness. The book makes important connections to the picture of human life found in theorists of love such as St. Augustine and Emmanuel Levinas, and shows that when care theory is articulated clearly, it provides resources for thinking through some of the difficult moral issues we face in the contemporary world, issues such as assisted reproduction and the new genetic technologies.
