[The Power of Words](#) Simon and Schuster Activate the raw power of your subconscious to create the life you've always wanted, using six essential lessons from one of the world's most renowned hypnotherapists. Unsatisfying careers. Volatile, unhealthy relationships. Unfulfilled dreams. Too many of us are living lives that fall short of what we truly desire. But as celebrity hypnotist Kimberly Friedmutter explains in this life-changing book, not only is it possible to design the life of your dreams, but the power to do so lies within you, in your subconscious mind. The subconscious is the root of your true power and desire; it's your inner eight-year-old, your authentic self. It is the honest compass that will lead you to a life of happiness, so long as you are able to follow its direction. We all have the power to access it—children do so effortlessly—but as we grow up we're taught to stop daydreaming and to follow society's rules, which makes us disconnect from our subconscious, often with tragic

results. In *Subconscious Power*, Kimberly guides you through six principles that bring your conscious mind in line with your subconscious desires. She shares practical, three-minute exercises that will help you transform your relationships, find true love, lose weight after years of struggling with the scale, overcome addictions, and achieve new career successes and heights. Featuring inspiring success stories and the practical tools you need to make meaningful change, *Subconscious Power* will empower you to stop being a passive participant in a life you don't love, and to actively choose the life you truly desire.

Man's word is his wand filled with magic and power! Jesus Christ emphasized the power of the word; "By thy words thou shalt be justified and by thy words thou shalt be condemned," and "death and life are in power of the tongue." So man has power to change an unhappy condition by waving over it the wand of his word. The imaging faculty is the creative faculty and it is important to choose words which bring a flash of the fulfillment of the

demand. Never force a picture by visualizing; let the Divine Idea flash into your conscious mind; then the student is working according to the Divine Design.

The first step to making positive changes in your life is to overcome your negative thoughts. The best way to change your thinking pattern is to reprogram your mind and blast your brain with positive affirmations that can lead you towards your desired results. While this process cannot bring about instant change, it can actually accelerate your progress and take you a few steps away from radical success. With the right choice of positive affirmations, you can finally achieve your life goals and see results you may have never thought possible.

Three Magic Words (Unabridged edition) Atria Books

This book is about the power of your words to shape your destiny, and as you will quickly find out, your words are highly expressive of your core beliefs and the thoughts they produce. "For out of the abundance of the heart (subconscious mind), the mouth speaks." (Matt. 12:34; ESV) When ancient scriptures speak of the

heart - Greek (kardia), Hebrew (Nephesh or Leb) - it is not speaking of the physiological organ but of the right lobe of the soul, in contemporary thought referred to as the subconscious mind. So while we can understand that our words have physicality, our thoughts carry an even greater power and physicality. It is our thoughts that drive our speech, especially those inner-conversations that are so influential in shaping our behavior and habits. We have all heard, in some form or another, that as a man thinks in his mind, so is he. Gaining a lucid perspicacity of this truth is the beginning of the development of the infinite power necessary to control your destiny and so much more. Not only does your mind influence the internal mechanism of your character, but it directly impacts the external reality of your circumstances. A person's condition cannot be divorced from the pattern of their thoughts because their condition is the fruit of their thinking.

A simple guide to using power words to change your reality • Presents 67 switchwords and explores how to use

them for manifesting goals • Explains how switchwords work from a subconscious level to influence reality • Explores how switchwords can be combined and shares a few special switchword combinations for specific situations and goals The power of language goes beyond the meaning of words. The words we use influence our subconscious and send ripples through the energy field around us. Certain words, called “switchwords,” have a stronger influence on our subconscious and energy fields. By using them intentionally, you can harness the power of the Law of Attraction to reprogram your reality and manifest your desires. In this practical guide to 67 powerful switchwords, Franziska Krattinger explains how a single word or combination of words repeated several times either aloud, whispered, or spoken inwardly can be used to change our subconscious mind, the first step toward outer change and reprogramming ourselves and our reality. Describing the underlying cosmic rules behind the power of switchwords, she provides techniques for using these words and explains the multitude of energy shifts they can achieve in your life and how. For each of

the 67 switchwords presented in this guide, the author explains the specific situations they can help solve and the energy shifts they can bring into reality. For each word she recommends a special number of repetitions, sometimes with a certain rhythm, as well as word combinations for specific goals and tips and tricks to succeed. For example, the switchword “achieving” will help you activate your hidden skills. By combining “achieving” with other switchwords, such as “achieving life goal,” “achieving ability to love,” or “achieving partnership,” the energy is targeted to a certain purpose. The author also encourages you to be creative and experiment with different switchword combinations tailored to your own desires. Offering an easy-to-use guide to harnessing the power of language, Krattinger shows how each of us can use words to change our reality and reprogram ourselves for health, happiness, and prosperity.

The greatest commandment in Matthew 22: 36 is to love the Lord our God with all our heart, with all our soul, and with all our mind.' We must love God WITH ALL OUR MINDS. It is a commandment. Not part of it. Not proportionally. In totality. We must be consumed by a love for God, for He is must be our first love. Our mind must be connected and united with God in the morning, in the afternoon, in the evening, yes every second of the day! Our hearts must yearn for God, for God is glorious and wonderful. God is jealous of our love. He wants our minds to think of Him ALL THE TIME. He wants our affection, attention and devotion. There is nothing greater for your mind to THINK of God and His Word. Only when our minds yield to God, can we seek a path of purity, joy, peace, and love. For God calls our mind to be in sync with His mind. Do you know the mind of God? For His mind speaks of wisdom, divine knowledge, love, of beauty and majesty. God calls for a pure mind, a good mind, and a mind that seeks the light.
