Telecommuting-an increasingly common practice of working from home or away from a central office, while staying linked by phone and/or computer-has become a way of life for more than eleven million people in the United States, and the number constantly rises. But most books on the subject focus on its technological or administrative aspects rather than its human ones. What are

the pros and cons of telecommuting for the legions of men and women that actually do it on a daily basis? And how can current or would-be telecommuters maximize their performance while minimizing their headaches? In 101 Tips for Telecommuters, seasoned telecommuter Debra Dinnocenzo shares her practical, easy-to-implement "action tips" for making telecommuting as efficient and productive as possible. Written for full-time, occasional, and aspiring telecommuters, this helpful book covers everything from managing one's own time, balancing telecommuting with family demands, and working effectively with others from afar to networking the "virtual" way, getting a grip on technological overkill and even resisting the ever-beckoning refrigerator when working at home! Dinnocenzo offers useful advice on special self-management factors to consider when telecommuting; how to keep in touch with all the people-coworkers, managers, support personnel, customers, and others-who make up your telecommuting world; and even how to nurture crucial ties with suppliers, vendors, and service providers. In the new age of professional mobility, 101 Tips for Telecommuters is the perfect guide for the millions of Americans who want to succeed in this exciting and challenging new way of work.
