Accounting is designed

to meet the scope and

sequence requirements of a two-semester

accounting course that covers the

fundamentals of

financial and

managerial accounting.

This book is specifically designed to appeal to

both accounting and non-accounting majors,

exposing students to

the core concepts of

accounting in familiar

ways to build a strong

foundation that can be applied across

business fields. Each

chapter opens with a

relatable real-life

scenario for today's

college student.

Thoughtfully designed

examples are

presented throughout

each chapter, allowing

students to build on

emerging accounting

knowledge. Concepts

are further reinforced

through applicable

connections to more

detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
