Model Rules of Professional Conduct Bloomsbury Publishing

When comparing the laws of different jurisdictions, one often sees only the forest or the trees. This is particularly problematic in comparative company law, where students hope both to understand the overall framework of the

law and grasp its practical application. This text's structure, now in its second edition, solves that dilemma. Chapters open with discursive analyses of the law in each of Germany, the UK and the US (Delaware, the ABA Model Business Corporation Act, and federal securities laws) and set out the high-level governing framework, particularly for the EU and its member states. This analysis is succinct and pointed, with numerous references to both the law and leading scholarship. The whole text is arranged to highlight comparative aspects. Diagrams are used where helpful. Chapters close with edited judicial decisions from at least two of the jurisdictions discussed, which allows fresh exploration of comparison in more detail, and pointed questions to guide class discussion.

Asia Law and Practice Wolters Kluwer

A solvency opinion provides assurance to a company's Board of Directors and/or the lenders that the transaction will not likely subject the Company and its unsecured and other creditors to undue financial distress. Houlihan will undertake a solvency opinion engagement for companies involved in highly leveraged transactions. Examples include leveraged buyouts, leveraged recapitalizations, leveraged dividends or other such situations where there may be minimal equity involved. Houlihan has also completed solvency opinions for spin-off transactions in conjunction with capital restructuring and significant debt refinancing. The Federal Bankruptcy Code defines "insolvent" as the condition in which the total of a person's debts exceeds the value of its property at a fair valuation. Recent case law suggests that the fair valuation of property is its value on a going-concern basis. A solvency letter expresses an

independent expert opinion on a borrower's ability to remain solvent under the burden of additional liability, to pay debts as they mature, and to continue operations as a going-concern in dynamic economic conditions. In connection with a leveraged recapitalization, interested parties such as new secured lenders and sellers will often, due to fraudulent conveyance concerns, seek an independent determination and opinion as to the impact of the acquisition debt on working capital, cash flow, and equity value. Houlihan is highly familiar with the Tests of Capitalization and Solvency and is able to efficiently and cost-effectively provide analysis that provides a layer of comfort to interested parties.
