### The Making of British India, 1756-1858

Srithi Publishers &  
Distributors  
Contributing to the  
ongoing debates on  
citizenship, this book  
traces the Citizenship  
Act of India, 1955 from  
its inception, through

the various  
amendments in 1986,  
2003, and 2005. It  
includes detailed  
studies of other  
significant laws and  
judgments including  
the Abducted Persons  
(Recovery and  
Rehabilitation) Act  
(1949), and the Illegal  
Migrants Determination  
by Tribunals Act (1983)  
to show how  
citizenship unfolded

among differentially located individuals, communities, and groups. The book argues that the citizenship laws in India show a steady movement towards the affirmation of citizenship's relationship with blood-ties and descent. The volume identifies amendments in the Citizenship Act as transitions which are framed by major historical choices and decisions. It examines the liminal categories of citizenship produced in the period between the commencement of the Constitution and the enactment of the Citizenship Act, which continue to make citizenship fraught with uncertainties and exclusions. Through a discussion of laws and judgments, the work

also brings out the relationship between citizenship and migration in independent India, in particular in the wake of migration from Bangladesh and distress migration because of the breakdown of rural economies.

**Dr. Babasaheb Ambedkar, Writings and Speeches** Oxford University Press

The basic objective of this book is to explore the possibilities of reform in Muslim Personal Law and Hindu Personal Law from women rights perspective. It is a long, complex discourse. But the key factor in the whole discourse is gender . The issue of Uniform Civil Code (UCC ) is being hugely politicized and

communalized by communal forces in the name of religion. But the endeavour here is to see the whole issue objectively through the lens of gender equality.

A commentary and study.

Riches Are Your Right

Mjp Publishers

This is one of the epics from Dr. Ambedkar.

Written in 1945 the book really explains the dynamics of Hindu Mahasabha and Muslim League and how Congress and British Government played a role in partition. Although this book takes you to the unheard side of

partition, it is interesting on how linguistic approach was chosen for a division of something that is unsure if it existed. Dr. Ambedkar takes a fine approach of giving a clarity of situation instead of been judgmental on the partition. No wonder the man was chosen to write our constitution. Of course if the war of majority and minority is kept away, the partition and its tragedy can be ready more fluently.

Annihilation of Caste

Sristhi Publishers & Distributors

A discussion with a friend soon turned into a matter of self-assessment, leading to this discourse on why Bhagat Singh chose to be an atheist. Even in the face of death at a very young age, with

uncanny observations and sharp questions, he forces us to re-think our foundations to faith in god.

Max Mullers great collection The Sacred Books of the East which includes translations of all the most important works of the seven non-Christian religions which have exercised a profound influence on the civilizations of the continent of Asia. The works have been translated by leading authorities in their field.

An Introduction to India's Constitution and Constitutional Law

McGraw-Hill Education  
 "What the Communist Manifesto is to the capitalist world, Annihilation of Caste is to India." —Anand

Teltumbde, author of The Persistence of Caste B.R. Ambedkar's Annihilation of Caste is one of the most important, yet neglected, works of political writing from India. Written in 1936, it is an audacious denunciation of Hinduism and its caste system. Ambedkar – a figure like W.E.B. Du Bois – offers a scholarly critique of Hindu scriptures, scriptures that sanction a rigidly hierarchical and iniquitous social system. The world's best-known Hindu, Mahatma Gandhi, responded publicly to the provocation. The hatchet was never buried. Arundhati Roy introduces this extensively annotated edition of Annihilation of Caste in "The Doctor and the Saint,"

examining the persistence of caste in modern India, and how the conflict between Ambedkar and Gandhi continues to resonate. Roy takes us to the beginning of Gandhi's political career in South Africa, where his views on race, caste and imperialism were shaped. She tracks Ambedkar's emergence as a major political figure in the national movement, and shows how his scholarship and intelligence illuminated a political struggle beset by sectarianism and obscurantism. Roy breathes new life into Ambedkar's anti-caste utopia, and says that without a Dalit revolution, India will continue to be hobbled by systemic inequality.

As the fastest growing segment of civil society, as well as featuring prominently in the global political arena, NGOs are under fire for being 'unaccountable'. But who do NGOs actually represent? Who should they be accountable to and how? This book provides the first comprehensive examination of the issues and politics of NGO accountability across all sectors and internationally. It offers an assessment of the key technical tools available including legal accountability, certification and donor-based accountability regimes, and questions whether these are appropriate and viable options or attempts to 'roll-back' NGOs to a more one-dimensional function as organizers

of national and global charity. Input and case studies are provided from NGOs such as ActionAid, and from every part of the globe including China, Indonesia and Uganda. In the spirit of moving towards greater accountability the book looks in detail at innovations that have developed from within NGOs and offers new approaches and flexible frameworks that enable accountability to become a reality for all parties worldwide.

This book examines the development of the theory and practice of constitutionalism, defined as a political system in which the coercive power of the state is controlled through a pluralistic distribution of political power. It explores the main venues of constitutional practice in ancient Athens, Republican Rome, Renaissance Venice, the Dutch Republic, seventeenth-century

England, and eighteenth-century America. From its beginning in Polybius' interpretation of the classical concept of mixed government, the author traces the theory of constitutionalism through its late medieval appearance in the Conciliar Movement of church reform and in the Huguenot defense of minority rights. After noting its suppression with the emergence of the nation-state and the Bodinian doctrine of sovereignty, the author describes how constitutionalism was revived in the English conflict between king and Parliament in the early Stuart era, and how it has developed since then into the modern concept of constitutional

democracy.

Riddles in Hinduism

Hope India Publications  
Examines the interaction between Islam and politics in the post colonial world. This book focuses on how demands for Muslim autonomy are debated in terms such as democracy, cultural relativism, secularism and liberalism.

Roman law forms an important part of the intellectual background of many legal systems currently in force in continental Europe, Latin America and other parts of the world. This book traces the historical development of Roman law from the earliest period of Roman history up to and including Justinian's codification in the sixth century AD. It examines the nature of the sources of law, forms of legal procedure, the

mechanisms by which legal judgments were put into effect, the development of legal science and the role of the jurists in shaping the law. The final chapter of the book outlines the history of Roman law during the Middle Ages and discusses the way in which Roman law furnished the basis of the civil law systems of continental Europe. The book combines the perspectives of legal history with those of social, political and economic history. Special attention is given to the political development of the Roman society and to the historical events and socio-economic factors that influenced the growth and progress of the law. Designed to provide a general introduction to

the history of Roman law, this book will appeal to law students whose course of studies includes Roman law, legal history and comparative law. It will also prove of value to students and scholars interested in ancient history and classics.

A Textbook of Quantum Mechanics  
Routledge

AMBEDKAR'S INDIA is a collection of three of B.R. Ambedkar's most prominent speeches on caste and the Indian Constitution. "In the fight for Swaraj, you fight with the whole nation on your side. In fighting caste system, you stand against the whole nation - and that too, your own."

"Annihilation of Caste" is one of Ambedkar's best works in putting together how caste as

a system has been eating up the roots of a rich cultural melting pot like India. "Bhakti in religion could lead to salvation. But in politics, Bhakti is a sure road to eventual dictatorship." "The Grammar of Anarchy" reflects Ambedkar's ideas on how we need to pave the way for Independent India. It reflects his deep love and aspirations for India and its people. "...the sub-divisions [of caste] have lost the open-door character of the class system, and have become self-enclosed units called castes." "Castes in India: Their Mechanism, Genesis and Development" is an in-depth study of how classes went on to become castes and sub-castes to dot the Indian social system.

This powerful narrative is a radical eye-opener.

Gunter Narr Verlag  
A Social History of Indian Football covers the period 1850-2004. It considers soccer as a derivative sport, creatively and imaginatively adapted to suit modern Indian socio-cultural needs - designed to fulfil political imperatives and satisfy economic aspirations. The book is concerned with the appropriation, assimilation and

subversion of sporting ideals in colonial and post-colonial India for nationalist needs. The book assesses the role of soccer in colonial Indian life, to delineate the inter-relationship between those who patronised, promoted, played and viewed the game, to analyse the impact of the colonial context on the games evolution and development and shed light on the diverse nature of trysts with the sport across the country. Throughout this book, soccer is the lens that illuminates India's colonial and post-colonial encounter. This volume was previously published as a special issue of the journal Soccer and Society.
