This book examines an enactment that reforms Nigeria's personal property security law by adopting the unitary system of secured transactions in replacement of the common law system. With the unitary system widely acclaimed for enhancing access to credit for small business entities, the book highlights the drawbacks of the enactment in the attainment of this objective. Being the foremost Nigerian book on the unitary system, it is a significant text for all stakeholders in the credit system within and outside Nigeria, including law academics, practitioners, students and financial regulators. It will interest those in countries that are intent on undergoing

similar reform as it provides guidance on the unique features of the unitary system in contrast with those of the common law. In the spirit of reform, the book compares the Nigerian enactment to other similar enactments to highlight potential lessons in areas in which the Nigerian enactment appears to have lost traction. All You Need to Know About the Music Business by veteran music lawyer Don Passman—dubbed “the industry bible” by the Los Angeles Times—is now updated to address the biggest transformation of the music industry yet: streaming. For more than twenty-five years, All You Need to Know About the Music Business has been universally regarded as the definitive guide to the music industry. Now in its tenth edition, Donald Passman leads novices and experts alike through what has been the most profound change in the

music business since the days of wax cylinders and piano rolls. For the first time in history, music is no longer monetized by selling something—it's monetized by how many times listeners stream a song. And that completely changes the ecosystem of the business, as Passman explains in detail. Since the advent of file-sharing technology in the late 1990s to the creation of the iPod, the music industry has been teetering on the brink of a major transformation—and with the newest switch to streaming music, this change has finally come to pass. Passman's comprehensive guide offers timely, authoritative information from how to select and hire a winning team of advisors and structure their commissions and fees; navigate the ins and outs of record deals, songwriting, publishing, and copyrights; maximize concert, touring, and merchandising deals; and how the game is played in a streaming world. "If you want to be in music, you have to read this book," says Adam Levine, lead singer and guitarist of Maroon 5. With its proven track record, this updated edition of *All You Need to Know About the Music Business* is more essential than ever for musicians,

songwriters, lawyers, agents, promoters, publishers, executives, and managers—anyone trying to navigate the rapid transformation of the industry.
