This vintage instructional manual is perfect for the leatherwork novice and enthusiast alike.

Originally written by Eleonore E. Bang as part of The Beacon Handicraft Series, it introduces tools, cutting patterns and preparatory techniques for creatively working with leather, in a simple and informative style. Contents include: Leathers for Leathercraft - tools and General Directions - Patterns for Cutting Leather and Tracing Designs - Leather tooling - Carved Leather - tooling With Stamps - Undecorated Leather - Stencilling and Cut-Out Decoration - Polishing and Colouring - Stitching and Lacing - Making up Articles - Some Things to Make with Directions for Decorating. We are republishing this rare work in a modern and affordable edition, complete with a newly written introduction and reproductions of the illustrations found in the original.

Ideals Publications

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this

work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

Pierce Press

This antique text contains one of a series of pamphlets known as the 'Merit Badge Library', written with the intention of providing American boy scouts with the information required to attain certain merit badges. The pamphlets cover all kinds of hobbies, activities, and vocations. They are prepared by experts and frequently revised and brought up-to-date. Although designed for the eyes of boy scouts, the information contained herein is relatively detailed and constitutes a great starting point for anyone with an interest in leatherworking as a hobby - a great addition to any collection of leathercraft literature. This text has been picked for modern republication due to its timeless educational value, and we are proud to republish it here complete with a new introduction to the subject.

ThemLeathercraftInspirational Projects for You and Your Home

Historic, classic, creative, and fun, leather crafting is a craft for all ages. Whether you are just a

beginner looking to get started, or an experienced leather artist in need of a concise reference, Leathercrafting is your guide to an enjoyable craft that lasts a lifetime. Master leather artisans Tony and Kay Laier introduce you to the basics of leather preparation, and show you how to use stamps, punches, cutters, and other essential tools. They provide expert tips on edge finishing methods, and take you step-by-step through a traditional floral carving project. From forming, moulding, and embossing leather to creative stitching, lacing, and braiding, this book will teach you all of the skills you'll need to make beautiful belts, wallets, purses, holsters, cases, jewelry, home accessories, and more.

Step-by-Step Techniques and Tips for Crafting Success Stephen Fleming

"The guide for leathercrafters who want a clearly traditional focus, who believe quality matters, and who want to learn traditional techniques to use in modern ways."--back cover

LeatherWorks Ilex Press

Part of the artisanal/DIY movement is about authenticity and quality, with a return to simplicity, real values, genuine materials, and careful craftsmanship. Leather is one of those authentic materials, and while it has always been used for handbags and gloves, it's enjoying a resurgence in the field of crafts. Simple objects elegantly made of leather are featured everywhere on maker blogs, photo-sharing sites, tutorials, and craft marketplaces. Leather is in the real world, too, in heavily curated hipster boutiques and well-edited coffee shops that sell sundries. Idiot's Guides: Leather Crafts offers 20 projects (illustrated with copious step-by-step photos), ranging from beginner to advanced, each one building on the skills that have been taught in prior projects. Unlike most existing books on leathercraft, which come with a heavy whiff of the '70s, this one has a sleek, modern aesthetic. The projects are functional, and the minimal, elegant embellishment and natural finishes will keep them timeless.

An introduction to soap making that includes step-by-step illustrations and instructions for making cold press soap, molding soap, cutting bars, creating new recipes, building a soap mold, liner, and cutter, and packaging soaps as gifts.

Lacing and Stitching for Leathercraft Research & Education Assoc.

Suppose, you have to appear for an exam next week, who would be the go-to person for seeking help and guidance? Option 1: A Subject Matter Expert (SME) who studying/teaching the subject for several years and often assumes while explaining that the basics are covered or looks it from their frame of reference. Or Option 2: Someone who also started from scratch as you have and passed the exam just last week. He/She knows the exact process, challenges, doubts, and roadblocks you may be facing and can think from your perspective. If your option is 2, you are in the right place. I am a Technology Consultant by profession, and started my leathercraft journey in the year 2014. I started by going through multiple YouTube videos, courses, Facebook groups, and finally completed my first project after four months. I was confused and was lost in the magnitude of information available online. I firmly believe that while starting, you need exact, necessary, minimalistic information to start your first project, pardon: Complete your first project! So I started writing this book to provide a minimalistic approach to information required to start your first leather project. It covers: - History of leather - Basics Tools and their usage - Making Patterns - Cutting Patterns - Gluing - Beveling, Embossing, Stamping - Stitching basics - Coloring and Finishing - Tips, Techniques for the beginner -Leather Crafting, Physical Pain & Ergonomics * (New Chapter added!) - Appendix: List of online resources available for free patterns, tips, and

techniques. I still remember the initial doubts I had and the tips which helped me. This book is for people who are in their first lap (0-3 years) of Leather crafting journey and want to have a holistic idea of processes, tools, and need help in their initial projects. I have included photographs of realistic projects of beginners explaining the process and standard operating procedure while starting. So, what are you waiting for? Get this updated edition of the book with 22 chapters and start your Leather Crafting Journey Today!!

Leathercraft & Leatherwork Fundamentals Courier Corporation

HOLSTERS have played, and are still playing, a very important part in the history of man. And, since the making and manufacture of the first hand guns, methods for concealing, easier handling and carrying of these weapons have been devised. Trial and error being the surest way of improvement, holster making has now advanced to fill almost every need and requirement of the pistol user. Today, with the hundreds of Makes, Models, and barrel lengths of hand guns, it would be virtually impossible to reproduce holster patterns for each and every one into book form. The Holster Patterns presented in this book are a cross-section of a few of the most popular Makes and Models of the guns in use today; with alternate designs and added barrel lengths as space permits. Most of the Carving Designs presented can be altered for shorter, longer, or odd barrel lengths by adding or omitting a leaf, scroll, etc. The designs can also be used on similar holster patterns for other guns by “stretching” or “squeezing” the flowers, leaves, etc., to fit the confines of the border lines. With a little Imagination and Ingenuity, the Carving Designs in this book can be used on hundreds of holster patterns. Remember... the patterns shown will also fit many other similar makes and models of guns ... too numerous to mention. The purpose of this book is to assist and instruct the craftsman in various methods of Holster Construction and Holster Pattern Making. Each phase is shown with clearly defined step-by-step photos and drawings. It is hoped that this book will aid the Self Taught Student, Instructor, and Professional Craftsman alike to further their knowledge of “How To Make Holsters” for Profit, Personal Satisfaction and Fun! A “special” thanks to my wife, Terry, who has devoted countless hours and painstaking effort to produce all of the photographs appearing in this book. Many thanks to Ralph Tiner . . . Sporting Goods Center, Hemet, Calif. ... for his willing cooperation in supplying guns and information. Thanks to Lee Kelly, U. S. Forestry Service, and many other friends who have given unselfishly of their time and assistance. To the Leathercraftsman: Thanks for your patience in awaiting the first publication of “How To Make Holsters” ... Many Happy Hours! Sincerely, Al Stohman

Unit II, Basic Leather Carving and Advanced Leathercraft

The perfect introduction to an entertaining craft, this book features eleven practical projects, complete with photographic and illustrated directions. It also tell how to acquire material, tools, and equipment; how to design and decorate your projects; and how to dye, lace, finish, and attach snap fasteners and key plates. Projects include: Belts Bookmarks Key cases Coin purses Bag tag and strap Book and memo-pad covers Monogram designs Suitable for beginners of all ages, this guide offers a great way to learn a timeless craft that's fun to do and that yields one-of-a-kind items ideal for selling or gift giving.
