John Dillinger is an adrenaline-fueled narrative that reignites America's fascination with the suave and deadly desperado who became the FBI's first Public Enemy, whose story—until now—has been riddled with rumors and fiction. Dillinger and his bank-robbing gang cut a criminal swath never to be equaled, thrilling a nation in the throes of the Great Depression. When caught, Dillinger staged one of the most harrowing prison escapes imaginable—only to finally be betrayed by the infamous "Lady in Red." John Dillinger brings to light bank robberies never before reported; detailed plans for major crimes that Dillinger nearly implemented; the revelation that the Lady in Red was actually a police plant; and the startling motives behind John Dillinger's execution by rogue FBI agents. With access to the thousands of sources collected in the world's foremost Dillinger archives—including dozens of photographs—New York Times bestselling author Matera describes every robbery, shoot-out, and prison escape as though he had choreographed them himself. *Why Are Our Babies Dying?* UNC Press Books  
#1 NEW YORK TIMES BESTSELLER • The funny, sad, super-honest, all-true story of Chelsea Handler's year of self-discovery—featuring a nerdily brilliant psychiatrist, a shaman, four Chow Chows, some well-placed security cameras, various family members (living and departed), friends, assistants, and a

lot of edibles A SKIMM READS PICK • "This will be one of your favorite books of all time."—Amy Schumer In a haze of vape smoke on a rare windy night in L.A. in the fall of 2016, Chelsea Handler daydreams about what life will be like with a woman in the White House. And then Donald Trump happens. In a torpor of despair, she decides that she's had enough of the privileged bubble she's lived in—a bubble within a bubble—and that it's time to make some changes, both in her personal life and in the world at large. At home, she embarks on a year of self-sufficiency—learning how to work the remote, how to pick up dog shit, where to find the toaster. She meets her match in an earnest, brainy psychiatrist and enters into therapy, prepared to do the heavy lifting required to look within and make sense of a childhood marked by love and loss and to figure out why people are afraid of her. She becomes politically active—finding her voice as an advocate for change, having difficult conversations, and energizing her base. In the process, she develops a healthy fixation on Special Counsel Robert Mueller and, through unflinching self-reflection and psychological excavation, unearths some glittering truths that light up the road ahead. Thrillingly honest, insightful, and deeply, darkly funny, Chelsea Handler's memoir keeps readers laughing, even as it inspires us to look within and ask ourselves what really matters in our own lives. Praise for *Life Will Be the Death of Me* "You thought you knew Chelsea Handler—and she thought she knew herself—but in her new book, she discovers that true progress lies in the direction we haven't been."—Gloria Steinem "I always wondered what it would be like to watch Chelsea Handler in session with her therapist. Now I know."—Ellen DeGeneres "I love this book not just because it made me laugh or because I learned that I feel the same way about certain people in politics as Chelsea does. I love this book because I feel like I finally really got to know Chelsea Handler after all these years. Thank you for sharing, Chelsea!"—Tiffany Haddish

A groundbreaking investigation of how and why, from the 18th century to the present day, American resistance to our ruling elites has vanished. From the American Revolution through the Civil Rights movement, Americans have long mobilized against political, social, and economic privilege. Hierarchies based on inheritance, wealth, and political preferment were treated as obnoxious and a threat to democracy. Mass movements envisioned a new world supplanting dog-eat-dog capitalism. But over the last half-century that political will and cultural imagination have vanished. Why? *THE AGE OF ACQUIESCENCE* seeks to solve that mystery. Steve Fraser's account of national transformation brilliantly examines the rise of American capitalism, the visionary attempts to protect the democratic commonwealth, and the great surrender to today's delusional fables of freedom and the politics of fear. Effervescent and razorsharp, *THE AGE OF ACQUIESCENCE* will be one of the most provocative and talked-about books of the year.

Perhaps America's best environmental idea was not the national park but the garden cemetery, a use of space that quickly gained popularity in the mid-nineteenth century. Such spaces of repose brought key elements of the countryside into rapidly expanding cities, making nature accessible to all and serving to remind visitors of the natural cycles of life. In this unique interdisciplinary blend of historical narrative, cultural criticism, and poignant memoir, Aaron Sachs argues that American cemeteries embody a forgotten landscape tradition that has much to teach us in our current moment of environmental crisis. Until the trauma of the Civil War, many Americans sought to shape society into what they

thought of as an Arcadia--not an Eden where fruit simply fell off the tree, but a public garden that depended on an ethic of communal care, and whose sense of beauty and repose related directly to an acknowledgement of mortality and limitation. Sachs explores the notion of Arcadia in the works of nineteenth-century nature writers, novelists, painters, horticulturists, landscape architects, and city planners, and holds up for comparison the twenty-first century's--and his own--tendency toward denial of both death and environmental limits. His far-reaching insights suggest new possibilities for the environmental movement today and new ways of understanding American history.

Lucid Death is the first work by Paloma Cabadas and is an international reference for people who seek their own transcendence. As the author reveals, Lucid Death is the natural consequence of having lived with lucidity, the discovery of the meaning of life and death as well as the loss of all one's fears and transforming beliefs into direct knowledge. In her book, Lucid Death, based on the experience of over twenty years of research, Paloma Cabadas explores fascinating topics such as: The interpretation and discovery of our dreams, premonitions and awareness experiences. To lose our fear of the unknown, fear of changes and the fear of losing our identity. To successfully achieve and evolutionarily benefit from out-of-body experiences and subtle consciousness experiences. To use knowledge of oneself as a self-healing method. To explore the knowledge of what life after death is like.

Uninsured in America goes to the heart of why more than forty million Americans are falling through the cracks in the health care system, and what it means for society as a whole when so many people suffer the consequences of inadequate medical care. Based on interviews with 120 uninsured men and women and dozens of medical providers, policymakers, and advocates from around the nation, this book takes a fresh look at one of the most important social issues facing the United States today. A new afterword updates the stories of many of the people who are so memorably presented here.

*The Life and Death of American Resistance to Organized Wealth and Power* W. W. Norton & Company

Upon receiving his execution date, one of the thousands of men

living on death row in the United States had an epiphany: "All there ever is, is this moment. You, me, all of us, right here, right now, this minute, that's love." Right Here, Right Now collects the powerful, first-person stories of dozens of men on death rows across the country. From childhood experiences living with poverty, hunger, and violence to mental illness and police misconduct to coming to terms with their executions, these men outline their struggle to maintain their connection to society and sustain the humanity that incarceration and its daily insults attempt to extinguish. By offering their hopes, dreams, aspirations, fears, failures, and wounds, the men challenge us to reconsider whether our current justice system offers actual justice or simply perpetuates the social injustices that obscure our shared humanity.

In 1845 a blight of unknown origin destroyed the potato crop in Ireland triggering a series of events that would change forever the course of Ireland's history. The British government called the famine an act of God. The Irish called it genocide. By any name the famine caused the death of over one million men, women, and children by starvation and disease. Another two million were forced to flee the country. With the famine as a backdrop, this is a story about two families as different as coarse wool and fine silk. Michael Ranahan, the son of a tenant farmer, dreams of breaking his bondage to the land and going to America. The passage money has been saved. He's made up his mind to go. And then the blight strikes and Michael must put his dream on hold. The landlord, Lord Somerville, is a compassionate man who struggles to preserve a way of life without compromising his ideals. To add to his troubles, he has to deal with a recalcitrant daughter who chafes at being forced to live in a country of "bog runners." In *The Time Of Famine* is a story of survival. It's a story of duplicity. But most of all, it's a story of love and sacrifice.

*My Overdue Book: Too many stories not to tell:* spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life

peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

For more than a century, the term "Main Street" has conjured up nostalgic images of American small-town life. Representations exist all around us, from fiction and film to the architecture of shopping malls and Disneyland. All the while, the nation has become increasingly diverse, exposing tensions within this ideal. In *The Death and Life of Main Street*, Miles Orvell wrestles with the mythic allure of the small town in all its forms, illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity, especially in times of crisis. Orvell underscores the fact that Main Street was never what it seemed; it has always been much more complex than it appears, as he shows in his discussions of figures like Sinclair Lewis, Willa Cather, Frank Capra, Thornton Wilder,

Margaret Bourke-White, and Walker Evans. He argues that translating the overly tidy cultural metaphor into real spaces--as has been done in recent decades, especially in the new urbanist planned communities of Elizabeth Plater-Zyberk and Andres Duany--actually diminishes the communitarian ideals at the center of this nostalgic construct. Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small-town ideology and life.

*An Exploration of Dying in America* Vintage

Following the death of her father, journalist and hospice volunteer Ann Neumann sets out to examine what it means to die well in the United States. When Ann Neumann's father was diagnosed with non-Hodgkin's lymphoma, she left her job and moved back to her hometown of Lancaster, Pennsylvania. She became his full-time caregiver—cooking, cleaning, and administering

medications. When her father died, she was undone by the experience, by grief and the visceral quality of dying. Neumann struggled to put her life back in order and found herself haunted by a question: Was her father's death a good death? The way we talk about dying and the way we actually die are two very different things, she discovered, and many of us are shielded from what death actually looks like. To gain a better understanding, Neumann became a hospice volunteer and set out to discover what a good death is today. She attended conferences, academic lectures, and grief sessions in church basements. She went to Montana to talk with the attorney who successfully argued for the legalization of aid in dying, and to Scranton, Pennsylvania, to listen to "pro-life" groups who believe the removal of feeding tubes from some patients is tantamount to murder. Above all, she listened to the stories of those who were close to death. What Neumann found is that death in contemporary America is much more complicated than we think. Medical technologies and increased life expectancies have changed the very definition of medical death. And although death is our common fate, it is also a divisive issue that we all experience differently. What constitutes a good death is unique to each of us, depending on our age, race, economic status, culture, and beliefs. What's more, differing concepts of choice, autonomy, and consent make death a contested landscape, governed by social, medical, legal, and religious systems. In these pages, Neumann brings us intimate portraits of the nurses, patients, bishops, bioethicists, and activists who are shaping the way we die. *The Good Death* presents a fearless examination of how we approach death, and how those of us close to dying loved ones live in death's wake.
