The Rise and Fall of Information Empires Workman Publishing

A New Yorker and Fortune Best Book of the Year "A must-read for all Americans who want to remain the ones deciding what they can read, watch, and listen to." —Arianna Huffington Analyzing the strategic maneuvers of today's great information powers—Apple, Google, and an eerily resurgent AT&T—Tim Wu uncovers a time-honored pattern in which invention begets industry and industry begets empire. It is easy to forget that every development in the history of the American information industry—from the telephone to radio to film—once existed in an open and chaotic marketplace inhabited by entrepreneurs and utopians, just as the Internet does today. Each of these, however, grew to be dominated by a monopolist or cartel. In this pathbreaking book, Tim Wu asks: will the Internet follow the same fate? Could the Web—the entire flow of American information—come to be ruled by a corporate leviathan in possession of "the master switch"? Here, Tim Wu shows how a battle royale for the Internet's future is brewing, and this is one war we dare not tune out.

PRODUCT DESCRIPTION YOU are an inventor, THIS is your notebook. Is it possible to: Keep track of your goals and progress towards them? Organize your thoughts? Easily manage all your projects in one convenient place? Indeed, and much more. This is not just another notebook. The Inventor's Notebook, part of The Creator's Notebook Series is the result of an obsessive quest of an unorganized Rocket Scientist to streamline his ideas, build structure into his projects, and get organized. It contains guidance to help from project conception to project completion. It is a place for keeping quotes, Big Ideas, lessons learned, and with U.S. inventor logbook requirements, a place for keeping notes in a patent protectable manner as well. From working on the Space Shuttle to forming two aerospace companies, from inventing 3D printing machines to designing missions to the moon, Jason Dunn has been fixated on one life-changing question: For all ideas in life, big and small, what are the key things to keep track of that will help reach success quickest? 7 notebook designs later, this notebook contains just enough guidance to keep your creative spark lit. THIS NOTEBOOK WILL HELP YOU: * Document your big ideas. * Streamline your inventions from inspiration to brainstorming all the way through project management. * Take organized notes. And do this all while keeping your designs safe under patent protectable methods with no added effort on your part. This Notebook is for the inventor who is ready to take the next step towards materializing their goals, and demands easy organization to make it happen. You don't need a PhD or years of experience under you belt to reach your biggest goals. You need an easy to follow guide to keep you on track. That's exactly what The Inventor's Notebook delivers.

An inventor's notebook is a valuable tool you can use to record your ideas, invention process, tests results, observations, contacts, and discussions in chronological order. When properly organized, recorded, and maintained, this important document can help you establish the claim that you are the first to conceive of an invention. Just as importantly, entries in the inventor's notebook can show proof that you have been actively pursuing the development of the invention. As an inventor, your success in obtaining a patent and challenging any claims by others may depend on how carefully and diligently you have kept the notebook.
