A compilation of quotations and proverbs from the most enlightened, intelligent, and forward thinkers in human history regarding the most important aspects of life. Compiled and arranged to give the reader a clear direction in their life based on their internal needs, wants, and desires. While no one on Earth is special, everyone is unique. Nobody past, present, or future has gone through or has had the same thoughts and experiences as you, nor will they in the future. As a result, you see the world in a completely unique way. Studying these volumes will guide your mind's eye in distinguishing the most significant passages to you and your being

as well as reaffirming or contradicting what you already know and believe, by the wisest people throughout history. Out of the thousands of quotes and proverbs within these volumes, your personality will subconsciously pick out the most relevant quotes and proverbs to you and you alone. It would be a mistake to concentrate on only one topic because all the subjects are connected to aid you in reaching your own epiphany. Many of the most profound quotes and proverbs are recorded under various topics throughout the book. Though you may only be interested in "Success & Failure," many of the quotes and proverbs attributed to success can also be found under "Leadership," "Attitude," or even "Life, Purpose, & Growth," for example. The aim of this huge collection of human wisdom is enlightenment: to assist the readers in realizing what is truly important in life, as well as to find their true self; to shatter the illusions that everyone builds for themselves through false assumptions and stereotypes; to find their true inner being; to find purpose; and, most importantly, to discover what makes them and them alone happy. To receive the full benefit of these volumes and to fully immerse yourself in self-discovery, you must commit to studying the entire collection. If you only want to scratch the surface of what is important in life, then limit yourself to a single volume. But if you want to master your true purpose, then study all four volumes.

This work is a compilation of 25 thoughts that could direct your path towards peace, thoughtfulness and action. The thoughts in this space came to me as I witnessed truths of life unfolding for me through my own experiences. It is because of my desire to find tools for purpose in every event of my life that I find peace in both letting go and embracing that which is necessary. My hope is that: * You will find complete freedom and blessings in loss as it was intended for your destiny. * You will learn to look at your mistakes as natural lessons in your life rather than failures. * You will understand how your burdens are really the fuel for your motivation towards perfection. * You will realize that the thorns in your flesh can literally be the very tools you need to complete your assignment. * You will see all is not lost and what you thought was tragic is just another stepping stone towards your true fulfillment. * At the end of your spiritual literary journey with me, you will realize that you can be used AS IS for the fulfillment of your destiny.

Mind Your Thoughts is a book that will help you quiet and focus your thoughts so you speak directly to your unconscious state of being in a language the mind understands. Meditation is nothing more than relaxation, and in a meditative state, your conscious can relax and allow you to speak directly to the unconscious. The unconscious is in charge of your life, even though you allow your conscious to be in control. If you want to experience change in your life, you need to learn to bypass the conscious control which can be described as critical, analytical, and most of all judgmental. Meditating through relaxation is how you reprogram your unconscious with new concepts and information. The unconscious learns by applying this information against the storage of all your memories, experiences, reactions, and emotions. Also, the unconscious is much more accepting of change because it processes information without judgment. You will see both mental and physical changes resulting from this process. Practice with the thoughts in this book; your unconscious will understand even if your conscious seems confused. Mind your thoughts and experience a human metamorphosis from the inside out. The purpose of meditation is to quiet the mind. Meditation removes the clutter of thoughts from everyday life, and also helps you to get in touch with your higher consciousness. It does take practice, so do not become discouraged.

Set aside 45 minutes each evening before you go to sleep. Sit in a quiet room, in a comfortable and relaxed position wearing loose clothing. Close your eyes and take a deep breath in through your nose and let it out slowly through your mouth. With each breath in, clear your mind of all thoughts, and feel your body relax. Repeat this 9 times before beginning. This book contains 81 thoughts for you to meditate on. There are 9 sets of 9 thoughts each. Start with Set One and allow 5 minutes of meditation for each thought. After your initial warm up of 9 deep breaths, read the first thought of the first set. Close your eyes and continue your deep breathing as you reflect on the thought and what it may mean to you and your life. Think of nothing else. Repeat this with each thought until you complete Set One. It will take you at least 9 evenings to get through all of the sets in the book. You may want to repeat a set over and over again before moving on to the next set. Eventually, you will have your favorite thoughts that you will want to dedicate your meditations on. Most people enjoy thoughts of wisdom, but rarely take the time to internalize them enough to be life changing. Practice mindfulness in life and create ripples that will forever change your life. This is not an instructional book on the art of meditation.

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually

happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book *Paradise Lost*, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.
