Accounting Information for Business

Decisions is a business-focused

introduction to Accounting for all students

- not just those intending to be Accounting majors. Lead students through the real-world business cycle and how accounting information informs decision-making.

Departing from the traditional approach taken by other introductory accounting textbooks, students apply both managerial and financial approaches within the topics examined in each chapter, to see the direct impact that Managerial Accounting decisions make on the Financial Accounting processes (and vice versa). The conversational writing engages students in the theoretical content and

how it applies to contemporary real-world scenarios. Students follow a retail coffee business in the relatable Cafe Revive running case study integrated into every chapter, to learn about applying accounting issues in the real world. Premium online teaching and learning tools are available on the MindTap platform. Now in its Fourth Edition, Kimmel, Weygandt, and Kieso's Financial Accounting: Tools for Business Decision Making has been tested and approved in the classroom. Whether you measure classroom success by improved grades, students who are better prepared for the Intermediate course and their future careers, or by student evaluations at the end of the semester, Financial Accounting delivers real results. "If you are teaching a debit/credit centered financial accounting principles class there is not a better written or organized text. Believe me I have looked. The supporting materials for instructors [are] also terrific." --Nancy Snow, University of Toledo "The textbook is well written with good examples and homework problems. This book is easy to understand, but is rigorous in its coverage of accounting issues." --Paul Brazina, La Salle University, Philadelphia "Best presentation of material in the industry. In addition, Financial, Managerial and Intermediate all flow together for greater coverage and comprehension." --Vince Enlein, Clinton Community College Key Features * WileyPLUS gives instructors the technology they need to create an

environment where students can reach their full potential and experience academic success. www.wiley.com/college/wileyplus * New Accounting Across the Organization features place accounting issues within the context of students' majors. * Updated with expanded content on Sarbanes-Oxley and Corporate Governance. * New Comprehensive Problems combine concepts across chapters. * A new Continuing Cookie Chronicle problem traces the growth of an entrepreneurial venture and enables students to apply their newly acquired accounting skills. * Identifies the tools students will need to make real business decisions. * Provides balanced coverage of the accounting cycle at a level that is appropriate to what students need in the business world. * Emphasizes the accounting experiences of real high-profile companies, such as Tootsie Roll, Microsoft, Nike, and Intel. Tools for Business Decision Making 4th Edition with GTCO Clicker and Wiley Plus Set Accounting: Information for Business Decisions Get where you need to be with CORNERSTONES OF FINANCIAL

ACCOUNTING. Cornerstones delivers a truly unique learning system that is integrated through the entire introductory managerial accounting journey — ensuring students will leave the course with the knowledge they need to be future business leaders. Students are guided through: Building A Strong Foundation: Students need to build a strong foundation of the fundamentals before they can move forward in this course. The unique Cornerstones approach gets them through the fundamentals FASTER so that they can transition to analyzing and applying concepts. Understanding Relationships: Rather than focusing on concepts in isolation, students should understand accounting as a system and recognize how the end result changes based on how the numbers affect each other. CORNERSTONES aids students in this step as an important part in training them to be good decision makers. Making Decisions: Armed with the knowledge they have gained from working through the other aspects of the Cornerstones approach, students are now given the tools to bring their knowledge full-circle and practice making good business decisions. Students

love this approach because it presents materials the way they learn. Instructors love it because it gets students to master the foundations more quickly and allows more time to learn and apply the analysis and decision making of accounting. Get There with Cornerstones! Available with InfoTrac Student Collections <http://gocengage.com/infotrac>.
