Investigation of Whitewater
Development Corporation and Related
Matters: Document production in
response to S. Res. 120 R&L Education
The Journal of School Leadership is
broadening the conversation about
schools and leadership and is currently

accepting manuscripts. We welcome
manuscripts based on cutting-edge
research from a wide variety of
theoretical perspectives and
methodological orientations. The
editorial team is particularly interested
in working with international authors,
authors from traditionally marginalized
populations, and in work that is relevant
to practitioners around the world.
Growing numbers of educators and

professors look to the six bimonthly issues to: deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement. Oxford University Press on Demand This is the second edition of this highly regarded comparative overview of corporate law. It argues that the main function of corporate law is to address conflicts of interests and that, despite economic and social diversity, legal strategies employed across jurisdictions are surprisingly similar.

A Study of Mixed Legal Systems: Endangered, Entrenched, or Blended takes the reader on a fascinating voyage of discovery. It includes case studies of a number of systems from across the globe: Cyprus, Guyana, Jersey, Mauritius, Philippines, Quebec, St Lucia, Scotland, and Seychelles. Each combines its legal legacies in novel ways. Large and small, in Europe and beyond, some are sovereign, some part of larger political units. Some are monolingual, some bilingual, some multilingual. Along with an analytical introduction and conclusion, the chapters explore the manner in which the elements of these mixed systems may be seen to be 'entrenched', 'endangered', or 'blended'.

It explores how this process of legal change happens, questions whether some systems are at greater risk than others, and details the strategies that have been adopted to accelerate or counteract change. The studies involve consideration of the colourful histories of the jurisdictions, of their complex relationships to parent legal systems and traditions, and of language, legal education and legal actors. The volume also considers whether the experiences of these systems can tell us something about legal mixtures and movements generally. Indeed, the volume will be helpful both for scholars and students with a special interest in mixed legal systems as well as anyone interested in comparative law and legal history, in the diversity and dynamism of law.

As Felix Frankfurter and James Landis write in their preface to *The Business of the Supreme Court*, "To an extraordinary degree legal thinking dominates the United States. Every act of government, every law passed by Congress, every treaty ratified by the Senate, every executive order issued by the President is tested by legal considerations and may be subjected to the hazards of litigation. Other Nations, too, have a written Constitution. But no other country in the world leaves to the judiciary the powers which it exercises over us." This classic volume, first published in 1928, originated in a series of articles written by Frankfurter, then a professor of law at Harvard University,

and his student, Landis, for the Harvard Law Review. These articles chronicled and analyzed the many judiciary acts that were passed between 1789 and 1925, and illuminated the intimate connection between form and substance in the life of American law. For instance: When a community first decided to enact zoning laws--the Supreme Court had to approve. When the United States made a treaty with Germany following World War I--the Supreme Court had to define the limits and meaning of the treaty. Newly reissued with an introduction by constitutional expert Richard G. Stevens, *The Business of the Supreme Court* is still as fresh and relevant today as it was when first published. It is a work that will aid the student of the law to both love the law and remain true to its purposes.

Role of Federal Military Forces in Domestic Disorders, 1945-1992 (Cloth)
Ashgate Publishing, Ltd.

This short and accessible book is the first to focus exclusively on the inter-relation between transitional justice and rule of law reconstruction in post-conflict and post-authoritarian states. In so doing it provides a provocative reassessment of the various tangled relationships between the two fields, exploring the blind-spots, contradictions and opportunities for mutually-beneficial synergies in practice and scholarship between them. Though it is commonly assumed that transitional justice for past human rights abuses is inherently conducive to restoring the rule of law, differences in how both fields conceptualise the rule of law, the scope

of transition and obligations to citizens have resulted in divergent approaches to transitional criminal trial, international criminal law, restorative justice and traditional justice mechanisms. Adopting a critical comparative approach that assesses the experiences of post-authoritarian and post-conflict polities in Latin America, Asia, Europe and Africa undergoing transitional justice and justice sector reform simultaneously, it argues that the potential benefits of transitional justice are exaggerated and urges policy-makers to rebalance the compromises inherent in transitional justice mechanisms against the foundational demands of rule of law reconstruction. This book will be of interest to scholars in the fields of transitional justice, rule of law, legal

pluralism and peace-building concerned by the failure of transitional justice to leave a positive legacy to the justice system of the states where it operates. 'This is a bold and nuanced scrutiny of the international system's approach to transitional justice and the much vaunted rule of law project. Dr McAuliffe should be congratulated for this well-researched book which should be a must read for not only scholars and researchers in transitional justice and peace and conflict studies, but also policy-makers in the international system.' Dr. Hakeem O. Yusuf, Senior Lecturer, University of Strathclyde and author of *Transitional Justice, Judicial Accountability and the Rule of Law*. *Health planning reports subject index* Greenwood Publishing Group

The Complete Anti-Federalist, first published in 1981, contains an unprecedented collection of all the significant pamphlets, newspaper articles and letters, essays, and speeches that were written in opposition to the Constitution during the ratification debate. Storing's work includes introductions to each entry, along with his own consideration of the Anti-Federalist thought. This new three-volume set includes all the contents of the original seven-volume publication in a convenient, manageable format. "A work of magnificent scholarship. Publication of these volumes is a civic event of enduring importance."—Leonard W. Levy, New York Times Book Review

This book introduces and develops Contract Governance as a new approach to contract theory. While the concept of governance has already been developed in Williamson's seminal article, it has, ironically, not received much attention in general contract law theory. Indeed, Contract Governance appears to be an important and necessary complement to corporate governance and in fact, as the second, equally important pillar of governance research in the core of private law. With this in mind, Grundmann, Möslin, and Riesenhuber provide a novel approach in setting an international and interdisciplinary research agenda for developing contract law scholarship. Contract Governance

focuses particularly on the ways in which a governance perspective leads to research questions that have been neglected in traditional contract law scholarship, and how, from a governance perspective, the questions are dealt with in a different manner and style.

Combining substantive chapters and commentaries, this collection of essays addresses an array of topics, including: third party impact and contract governance problems in herd behaviour; governance of networks of contracts; governance in long-term contractual relationships; contract governance and rule setting; and contract governance and political dimensions.

A Contentious Relationship

McFarland

This massive collection includes all important letters, speeches, interviews, press conferences, and public papers on Woodrow Wilson. The volumes make available as never before the materials essential to understanding Wilson's personality, his intellectual, religious, and political development, and his careers as educator, writer, orator, and

statesman. The Papers not only reveal the private and public man, but also the era in which he lived, making the series additionally valuable to scholars in various fields of history between the 1870's and the 1920's. -- Publisher.

The Anatomy of Corporate Law: A Comparative and Functional Approach

The technical, economic, and social development of the last one hundred years has created a new type of long-term contract which one may call 'Complex International Contract'. Typical examples include complex civil engineering and constructions contracts as well as joint venture, shareholders, project finance, franchising, cooperation and management agreements. The dispute resolution mechanism, which normally deals with such contracts, is

commercial arbitration, which has been deeply affected in recent decades by attempts to improve its capabilities. Most importantly, there is the trend towards further denationalization of arbitration with respect to the applicable substantive law. In this regard, a new generation of conflict rules no longer imposes on the arbitrators a particular method to be applied for the purpose of determining the applicable rules of law. Moreover, arbitration more frequently took on the task of adapting Complex International Contracts to changed circumstances. Also, special rules have been developed for so-called multi-party arbitration and fast track arbitration facilitating efficient dispute resolution. The author describes these trends both from a practical as well as a theoretical

perspective, evaluating not only the advantages, but also the risks involved with the new developments in arbitration. Relevant issues with respect to the drafting and renegotiation of such contracts are also discussed.

*A Study of Mixed Legal Systems:
Endangered, Entrenched or Blended*

This volume, covering 1945 to 1992, is the third of three volumes on the role of federal military forces in domestic disorders. Summarizing institutional and other changes that took place in the Army and in American society during this period, it carries the reader through the nation's use of federal troops during the civil rights movement of the 1950s and 1960s and the domestic upheavals of the 1960s and 1970s associated with the Vietnam War. The development and

refinement of the Army's domestic support role, as well as the disciplined manner in which the Army conducted these complex and often unpopular tasks, are major themes of this volume. In addition, the study demonstrates the Army's progress in coordinating its operational and contingency planning with the activities of other federal agencies and the National Guard. --from the Foreword.

The Environment Index

Historically, the political question doctrine has held the courts from resolving constitutional issues that are better left to other departments of government, as a way of maintaining the system of checks and balances. However, this book discusses the gradual changes in the parameters of

the doctrine, including its current position dealing with increasingly extraterritorial concerns.

The Publishers Weekly

This book examines the original writing of the story, including its political, economic, and historical context. The major interpretations are analyzed within their various media: stage, magic lantern shows, silent film, talkies, and television. A complete annotated

filmography is included, with commentary on each version's loyalty to the original text. Includes 25 previously unpublished photos as well as analysis of previously undocumented productions.
