Doodles become art in this beautiful guided art journal. The instruction book, *Guide to the Doodle*, gives tips on creating doodles, coloring with pencils and markers, and ways to use your doodles—such as for note cards, frames, gift bags, and more. There are six chapters—paisleys, flowers, letters,

butterflies, mandalas, and geometrics. Artists will learn to start with a basic drop, then stretch it and squash it, and interlock it with other drops, nestling them all together to make beautiful paisley patterns. Nature will come to life, with tiny flowers blooming and butterflies flitting overhead. Geometric borders will adorn pages. The art journal will provide an elegant place to experiment with all of the techniques described in the instruction book. The book will include elaborate coloring activities, as well as simple guidelines to

get started on creative doodling pages. Inspirational quotations will add subtle meaning to the art pages. When the journal is complete, it will be a beautiful book to be proud of and cherish.

society were to collapse? Learn how to prepare your home now. Three quarters of Americans say they're worried about serious incidents, natural disasters, and terror attacks affecting their communities, yet many of them are completely unprepared. We are used to a world in which our homes are supplied with fresh water, gas, and electricity. We're used to having our waste removed and our sanitary needs met. These are all things we've come to expect, but what would happen if they were taken away? Flooding, hurricanes, and pandemics are affecting areas we once thought were safe from disaster--we shouldn't take anything for granted. Prepping is no longer just for preppers; every family needs to be fully equipped to hunker down at home in case the

unexpected happens. Do you have enough food to see you through months without a grocery store? Have you thought about what you'd do if you had no access to running water? Are you able to live comfortably in your home without power? These are things you need to think about. Now's the time to ask, "What if...?" Your home is the perfect place to shelter and keep your loved ones safe in case society were to collapse, but you need to know how to use it to its fullest if the luxuries we're used to are no longer available. Your home should always be your safe space--not just when the electricity's running. checking the first aid kit, but have you really considered what would happen if you didn't have electricity? The ideal home is not only the home that keeps you and your family safe in good times, but it's the home that keeps you safe no matter what. Preparing your home to be just that doesn't have to be complicated, but it does require you to think outside of what you're used to. When was the last time you asked yourself, "What if...?" On the 20th of January 1526, the Santiago left Lisbon bound for Africa with a cargo of iron and cloth; by early October the ship was back in Portugal with a very different cargo, 108 enslaved Africans. This volume consists of a translation into English of the receipt book from the customs office of the Cape Verde Islands. In it, Portuguese customs agents recorded import duties on over 3,000 slaves transported from nearby West Africa in 36 ships. The book also provides details of export taxes paid on c.600 African slaves by merchants from Portugal, Spain, and the Spanish Canary Islands, when they exchanged European merchandise for slaves. The final chapter of the volume translates the Santiago's log, providing an example of an actual slave trading expedition. Taken together

these documents open a rare window into the workings and scope of the early Atlantic slave trade.
