Corporate culture and

culture change have

become the pressing

issues of our time. The

fast pace of change is

attacking companies of all

sizes. Leaders are facing

the challenges of adapting

their organizations to

generational changes, the

uncertainties of new

technologies, shifting

client behaviors, and the

realization that supply is

often stronger than

demand. And, people just

hate to change. They are

willfully blind to what is

happening all around

them. But, the future is,

indeed, coming soon, if

not today, and change

they must. Andi Simon is

a corporate anthropologist who has empowered thousands of business leaders to see their companies with fresh eyes, identify their next big ideas, and—most importantly—turn innovative solutions into executable change. In her groundbreaking book, *On the Brink: A Fresh Lens to Take Your Business to New Heights*, Andi presents her unique methods for harnessing innovation and revitalizing business growth. Taking readers on a journey through seven case studies, Andi shares how she helped these businesses discover new and profitable growth opportunities by exploring the untapped resources that were right in front of them. Businesses, not-for-profits, entrepreneurs are paying close attention. They frequently talk about the need to innovate and change is if these are the sweeping secret sauce to solve all their business problems; however, they often don't know where to start or how to expand beyond creative brainstorming to strategically identify and act upon new business opportunities. In this book, Andi will take the reader through the theory, methods, and

tools of corporate anthropology to see how this new perspective can help a stalled company see possibilities with fresh eyes to re-ignite their growth. From a medical center facing multiple years in the red to a rural university battling decreasing enrollment to an equipment manufacturer whose award-winning product just wasn't selling—the stories of these seven companies struggling to innovate and grow provide invigorating testimony to the power of corporate anthropology. Whether searching for a way to revitalize a business or to expand a successful company into new and profitable directions, the strategies outlined in *On the Brink* will give readers the fresh approach they need to achieve meaningful business breakthroughs. *The Cabin in the Woods* Greenleaf Book Group The first book to cover one of the hottest subjects in wireless communications today, *Mobile WiMAX* Summarises the fundamental theory and practice of Mobile WiMAX Presents topics at introductory level for readers interested in understanding

Companies don't have diversity problems, they have people problems. Diversity, Inclusion & Unconscious/Implicit Bias - These are words we hear almost daily now. They have become buzzwords for many people and a new revenue stream for many companies. D&I

consultants and trainers have popped up to make fast money off those buzzwords but this is not the case for Risha Grant. For the past 18 years, in one of the most conservative states in the nation she has worked tirelessly to educate individuals and companies on the competitive advantage and economic value associated with embracing diversity and inclusion. That's BS is a culmination of her personal anecdotes and client experiences in running an award-winning Diversity & Inclusion (D&I) communications and consulting company. Many people she has encountered along her journey hold the misconception that D&I is complex and costly. In fact, it's simple and adds to the bottom line. She is calling BS on your bias synapse with three simple steps to identify, own and confront your bias - her focus is to help you stop making your issues someone else's fault. Personally, these steps will open your mind to unconditional acceptance and professionally they will remove barriers to assist you with creating better products and enhancing your services. Additionally,
