The murder of the secretary of state in the executive mansion sparks a mystery with "a superb denouement . . . one wonders if all is fiction" (Time). In a city where the weapon of choice is usually gossip, the strangling of Secretary of State Lansard Blaine in the Lincoln Bedroom is a gruesome first. White House counsel Ron Fairbanks is ordered to investigate. There are persistent rumors that the secretary was an inveterate womanizer with ties to a glamorous call girl. There is also troubling evidence of unofficial connections with international agents. For Fairbanks, who is in love with the president's daughter, one point is all too clear: only a few highly placed insiders had access to the Lincoln Bedroom that fateful evening, one of whom was the president. Torn between his job, his loyalty, his love, and uncovering the truth, Fairbanks must make gut-wrenching choices that lead to a surprise no one could have foreseen. Murder in the White House is the first book in Margaret Truman's Capital Crimes series of political thrillers set in and around Washington, DC. Having spent a good part of her childhood in the White House as the daughter of US President Harry S. Truman, she now takes readers beyond the public halls and into the private corridors of power.

Alfred Hitchcock fez 53 filmes, no entanto após o enorme sucesso de Psicose o diretor - apenas três anos depois - deu vida a um de seus maiores clássicos, Os Pássaros. Esse filme foi rodado em 1963, onde não havia uma tecnologia tão e puramente avançada, somente o Mestre do Suspense poderia concebe-lo de forma digna e bem elaborada. Esse livro aborda o mundo envolto na produção, roteiro, os efeitos visuais além do conturbado relacionamento do diretor com a modelo/atriz Tippi Hedren (protagonista de Os Pássaros), a obra vem também mostrar as técnicas usadas para realizar inúmeras cenas. Nesse livro podemos ter acesso em fotos de produção, de propagandas para os cinema na época, assim como do elenco envolvido nas filmagens. Os Pássaros é um filme que aborda o medo, o terror psicológico e acima de tudo a marca registrada de um gênio á frente de seu tempo - o suspense - de Alfred Hitchcock.

Conscious creation is the theory that we create our own reality when we watch the movie screen. Brent Marchant examines psychological aspects of motion pictures. *Mais emoção e envolvimento com os novos TVs* Grand Central Publishing Masaru Emoto's 15 extensive years of study on water has given him the background to discuss what water is, how it has been implicated in the creation of the universe, and why a perfect ratio of Love and Gratitude can help this energy can go on infinitely. This fascinating book explains how our prayers, goodwill, and positive words heal us humans—as well as viruses and the universe as a whole—through water. Dr. Emoto explains that the fact that water has lost its true form shows that our way of living has moved away from God's will, so we should be aware of our Creator's alert to "correct the way we are living now." The information in this work is an important step in revealing how we can modify our way of living to bring about true peace on earth.
