Cecilia Valdés is arguably the most important novel of 19th century Cuba. Originally published in New York City in 1882, Cirilo Villaverde's novel has fascinated readers inside and outside Cuba since the late 19th century. In this new English translation, a vast landscape emerges of the moral, political, and sexual depravity caused by slavery and colonialism. Set in the Havana of the 1830s, the novel introduces us to Cecilia, a beautiful light-skinned mulatta, who is being pursued by the son of a Spanish slave trader, named Leonardo. Unbeknownst to the two, they are the children of the same father. Eventually Cecilia gives in to Leonardo's advances; she becomes pregnant and gives birth to a baby girl. When Leonardo, who gets bored with Cecilia after a while, agrees to marry a white upper class woman, Cecilia vows revenge. A mulatto friend and suitor of hers kills Leonardo, and Cecilia is thrown into prison as an accessory to the crime. For the contemporary reader Helen Lane's masterful translation of Cecilia Valdés opens

a new window into the intricate problems of race relations in Cuba and the Caribbean. There are the elite social circles of European and New World Whites, the rich culture of the free people of color, the class to which Cecilia herself belonged, and then the slaves, divided among themselves between those who were born in Africa and those who were born in the New World, and those who worked on the sugar plantation and those who worked in the households of the rich people in Havana. Cecilia Valdés thus presents a vast portrait of sexual, social, and racial oppression, and the lived experience of Spanish colonialism in Cuba.

This volume explores how consumption and entertainment change cities, but it reverses the 'normal' causal process. That is, many chapters analyze how consumption and entertainment drive urban development, not vice versa. People both live and work in cities and where they choose to live shifts where and how they work. Amenities enter as enticements to bring new residents or tourists to a city and so amenities have thus become new public concerns for many cities in the U.S. and much of Northern Europe. Old ways of thinking, old paradigms - such as 'location, location, location' and 'land, labor, capital, and management generate economic development' - are too simple. So is 'human capital drives development'. To these earlier questions we add, 'How do amenities and related consumption attract talented people, who in turn drive the classic processes which make cities grow?' This new question is critical for policy makers, urban public officials, business, and non-profit leaders who are using culture, entertainment, and urban amenities to enhance their locations - for present and future residents, tourists, conventioners, and shoppers. The City as an Entertainment Machine details the impacts of opera, used bookstores, brew pubs, bicycle events, Starbucks' coffee shops, gay residents, and other factors on changes in jobs, population, inventions, and more. It is the first study to assemble and analyze such amenities for national samples of cities (and counties). It interprets these processes by showing how they add new insights from economics, sociology, political science, public policy, and geography. Considerable evidence is presented about how consumption, amenities, and culture drive urban policy by encouraging people to move to or from different cities and regions.

(Book). Charlie Byrd, Herbie Mann, and others brought in bags full of discs from a trip to Brazil in 1961. Stan Getz listened to them and recorded "Desafinado," which stayed for 70 weeks on the Billboard charts. Since then, no one can deny bossa nova's global appeal and influence upon jazz and world music. While celebrating bossa nova's 50-year presence in the United States, we can learn more about the movement's champion, Jobim, through poet and novelist Helena Jobim's Antonio Carlos Jobim: An Illuminated Man . His personal, intellectual, and professional history comes alive. With a vast, intimate, and revealing set of photographs, and an engaging, elegant and unique prose, this is the story of a true 20th-century's genius. Helena Jobim does justice to her brother's poetic voice. The composer of "Waters of March" read, questioned, and re-created the world he lived in not only through mesmerizing melodies, but also through down-to-earth poetry. The biography also reveals Antonio Carlos Jobim's serious ecological concerns. To his 400 songs of inexplicable grace he has added his own epigraph in An Illuminated Man : "Every time a tree is cut down here on Earth, I believe it will grow again somewhere else, in another world. So, when I die, it is to this place that I want to go, where forests live in peace."

Chilean poet Tomas Harris's Cipango - written in the 1980s, first published in 1992, and considered by many to be the author's best work to date - employs the metaphor of a journey. The poems collectively allude to the voyage of Columbus, who believed that he'd reached the Far East ("Cipango," or Japan), not the Americas. Building on that mistaken historical premise, Cipango comments on the oppressive legacy of colonialism in Latin America - manifested in twentieth-century Chile through the 1973 military coup by Augusto Pinochet and the brutal dictatorship there - and on the violence and degradation of contemporary urban society. The author's vision is of a decadent, apocalyptic world that nonetheless contains the possibility for regeneration. Cipango is characterized by strange and obsessive imagery-strips of mud, will-o'-the-wisps, vacant lots, blue rats - juxtapositions of contemporary and archaic diction and of incongruous settings that range over time and place; the use of an understated irony; and a dark, incantatory voice. The speakers in various poems address personages such as Columbus, Marco Polo, and the Great Khan, and refer to a breadth of sources including Columbus's diaries, Genet's Our Lady of the Flowers, Bram Stoker's Dracula, Nerval's Aurelia, the Holocaust, Billie Holiday, and the film Goldfinger. The book's content and formal elements combine to produce a work of almost epic scope, one with universal appeal. Tomas Harris's oeuvre, and in particular, Cipango, grows out of the Chilean poetic tradition - one that has produced such greats as Vicente Huidobro, Gabriela Mistral, Pablo Neruda, and Nicanor Parra, all of whose poetry has been published to greater or lesser degree in translation in the United States. Harris's poetry, on the other hand, while celebrated in his native Chile and throughout Latin America, has been underrecognized in this country. This bilingual, en-face edition of Cipango, deftly translated by Daniel Shapiro, remedies that situation by bringing the lyricism and power of one of Chile's, and Latin America's, major poetic voices to a U.S. English-language readership. The copious end-notes following the poetry in the edition explain the book's numerous literary, historical, and other references. Given Cipango's outstanding literary merit as well as the timeliness of its themes and the specific tradition it belongs to, it will be a valuable resource and source of pleasure for instructors and students of Latin American and comparative literatures as well as for poets, translators, and general readers in the United States.

The Cambridge Companion to the Spanish Novel presents the development of the modern Spanish novel from 1600 to the present. Drawing on the combined legacies of Don Quijote and the traditions of the picaresque novel, these essays focus on the question of invention and experiment, on what constitutes the singular features of evolving fictional forms. It examines how the novel articulates the relationships between history and fiction, high and popular culture, art and ideology, and gender and society. Contributors highlight the role played by historical events and cultural contexts in the elaboration of the Spanish novel, which often takes a self-conscious stance toward literary tradition. Topics covered include the regional novel, women writers, and film and literature. This companionable survey, which includes a chronology and guide to further reading, conveys a vivid sense of the innovative techniques of the Spanish novel and of the debates surrounding it.

Letters I Never Mailed: Clues to a Life, by Alec Wilder, in a new, annotated edition with introduction and supplementary material by David Demsey, foreword by jazz pianist Marian McPartland, and photographs by Louis Ouzer. Alec Wilder is a rare example of a composer who established a reputation both as a prolific composer of concertos, sonatas, and operas, and as a popular songwriter (including the hit "I'll Be Around"). He was fearfully articulate, and had a wide and varied circle of friends, ranging from Graham Greene to Frank Sinatra and Stan Getz. Letters I Never Mailed, hailed at its first publication (in 1975, by Little, Brown), tells the story of Wilder's musical and personal life through "letters" addressed to various friends. In it, he shares his insights-and sometimes salty opinions-on composing, musical life, and the tension between art and commercialism. This new, scholarly edition leaves Wilder's original text intact but decodes the mysteries of the original through an Annotated Index that identifies the letters' addressees, a biographical essay by David Demsey as an Epilogue, and photographs by renowned photographer, and lifelong friend of Wilder, Louis Ouzer. David Demsey is Professor of Music and Coordinator of Jazz Studies at William Paterson University and an active jazz and classical saxophonist. He is co-author of Alec Wilder: A Bio-Bibliography (Greenwood Press) and has contributed to The Oxford Companion to Jazz.

In the late 1920s Joan Miro's attacks on the grand tradition of painting became more pronounced, and none was more notorious than the claim that he wanted to assassinate it. Just what he might have meant by this curiously aggressive salvo - and the radical changes his work underwent at that time - is investigated in Joan Miro: Painting and Anti-Painting, 1927-1937, which explores twelve series of his works from that decade, along with the single painting that acts as its affecting coda. With close attention paid to the materials he used and to the political, biographical, and intellectual context in which he worked, Miro's paradoxical nature emerges: an artist of violence and resistance who - despite his assassination tactics - never cease to be a painter.

Theory and Practice of Sociocriticism was first published in 1988. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Edmond Cros is a leading French Hispanicist whose work is unique in Continental theory because it brings Spanish and Mexican texts into current literary debates, which have so far centered mainly on the French and German traditions. Equally distinctive is the nature of his work, which Cros terms sociocriticism. Unlike most sociological approaches to literature, which leave the structure of texts untouched, sociocriticism aims to prove that the encounter with "ideological traces," and with antagonistic tensions between social classes, is central to any reading of texts. Cros's method distinguishes between the "semiotic and "ideological" elements within a text, and involves the patient, exacting reconstruction of the concrete text from these elements, a process that enables the sociocritic to interpret its fault lines, its internal contradictions - in the end , its irreducibly social nature. As its title suggests, Theory and Practice of Sociocriticism is structured in two parts. Its opening chapters analyze sociological theories of discourse, including those of Foucault, Bakhtin, and Goldman; in the second part, Cros applies theory to practice in readings of specific works: the film Scarface, contemporary Mexican poetry and prose (Octavio Paz, Carlos Fuentes), and the picaresque novel of the Spanish Golden Age. In their foreword, Jurgen Link and Ursula Link-Heer differentiate sociocriticism from other social approaches to literature and show how Cros's method works in specific textual readings. They emphasize his resistance to the reductive modes and "misreadings" that dominate much of contemporary theory. Edmond Cros is a professor of literary theory and Hispanic studies at the Universite Paul Valery in Montpellier, France, and Andrew W. Mellon Professor of Hispanic Studies at the University of Pittsburgh. Jurgen Link teaches at the Ruhr-Universitat Bochum and Ursula Link-Heer at the Universitat Siegen, both in West Germany.
