The Essential Companion to the Dukan Diet Yale University Press
 An unforgettable tale of love lost and rediscovered, set in the enchanting backdrop of Italy—from internationally bestselling author Santa Montefiore, whose books have sold more than 6 million copies worldwide. Love may be lost, but it's not gone forever. When Gracie Burton stumbles upon a weeklong cooking course at Castello Montefosco, a castle in the sun-kissed Tuscan countryside, she cannot resist the opportunity to revisit the past she left behind in Italy. Since her husband's death eight years earlier, Gracie has grown apart from her daughter, Carina, a high-powered businesswoman in London and her granddaughter, Anastasia, who would rather spend her time on her phone than with her family, but both women decide to join her. Little do they know that a lifetime of secrets await them in Italy. Over the course of the week, Gracie reveals the truth about what has drawn her back to the castle and its owner, the mysterious Count Bassanelli. Carina and Anastasia are shocked to discover that Gracie spent fifteen years in Italy as an apprentice to her uncle, a renowned art restorer and collector. While there, she fell madly in love. Now, forty-one years later, she has returned in hopes of righting past wrongs. With the help of Mamma Bernadetta's magical recipes and the kindness of her fellow guests, Gracie reconnects with her family and together, all three women learn that love once lost, is not gone forever. The Temptation of Gracie is a poignant, timeless tale of grand romance, a story of women through the generations, and a reminder that it's never too late to love.

The aim of this book is to provide an introductory but not simplistic guide to research in the social and behavioural sciences. The book sets out to tackle difficult issues and concepts in a scholarly but accessible manner, providing ample guidance and signposts to further reading. We explore a wide range of questions about research and research methods, including: * What counts as 'good research'? * Research approaches, paradigms, methods and methodology: what are they and what is the difference? * What is the so-called 'qualitative/ quantitative'? * When and where is quantitative research indispensable? * If one suggests that research should be 'scientific' what does that mean? * What methods and methodologies are used in social research? * What is the role of statistics in social and behavioural research? How should statistical evidence be interpreted? * What are the ways in which research can, and should, be disseminated

and presented? This book is aimed as much at the reflective, researching professional as for the professional researcher.

Angel Therapy Tiberian Press

An inventive, wholly original look at the complex psyche of Eastern Europe in the wake of the revolutions of 1989 and the opening of the communist archives. In the tradition of Timothy Garton Ash's *The File*, Yale historian and prize-winning author Marci Shore draws upon intimate understanding to illuminate the afterlife of totalitarianism. *The Taste of Ashes* spans from Berlin to Moscow, moving from Vienna in Europe's west through Prague, Bratislava, Warsaw and Bucharest to Vilnius and Kiev in the post-communist east. The result is a shimmering literary examination of the ghost of communism - no longer Marx's "specter to come" but a haunting presence of the past. Marci Shore builds her history around people she came to know over the course of the two decades since communism came to an end in Eastern Europe: her colleagues and friends, once-communists and once-dissidents, the accusers and the accused, the interrogators and the interrogated, Zionists, Bundists, Stalinists and their children and grandchildren. For them, the post-communist moment has not closed but rather has summoned up the past: revolution in 1968, Stalinism, the Second World War, the Holocaust. The end of communism had a dark side. As Shore pulls the reader into her journey of discovery, reading the archival records of people who are themselves confronting the traumas of former lives, she reveals the intertwining of the personal and the political, of love and cruelty, of intimacy and betrayal. The result is a lyrical, touching, and sometimes heartbreaking, portrayal of how history moves and what history means.

Scientific Elite is about Nobel prize winners and the well-defined stratification system in twentieth-century science. It tracks the careers of all American laureates who won prizes from 1907 until 1972, examining the complex interplay of merit and privilege at each stage of their scientific lives and the creation of the ultra-elite in science. The study draws on biographical and bibliographical data on laureates who did their prize-winning research in the United States, and on detailed interviews with forty-one of the fifty-six laureates living in the United States at the time the study was done. Zuckerman finds laureates being successively advantaged as time passes. These advantages are producing growing disparities between the elite and other scientists both in performance and in rewards, which create and maintain a sharply graded stratification system.

The story of a boy who did not want to become a priest; the masterpiece of Romania's greatest storyteller. Recollections from Childhood (original title in Romanian, Amintiri din copilărie) is a highly entertaining recount of the author's idyllic childhood, disrupted by his parents' ambitions to have him enter priesthood. "One of the main literary contributions of Romanian author Ion Creangă. The largest of his two works in the memoir genre, it includes some of the most recognizable samples of first-person narratives in Romanian literature, and is considered by critics to be Creangă's masterpiece." --Wikipedia

O nouă carte a lui Lucian Boia. Și, ca de fiecare dată, un subiect nou și o privire altfel. Noutatea demersului explică interesul din ce în ce mai mare pe care îl stărnesc lucrările sale, și nu numai printre cititorii români, ci și în afara României - dovadă stând numeroasele traduceri în engleză, franceză și germană, ca și în maghiară, polonă sau bulgară. Recent, la Universitatea din Jena i s-a acordat de către Südosteuropa-Gesellschaft medalia „Konstantin Jireček” pentru merite deosebite în domeniul cercetării istorice. „Lucian Boia a abordat în cărțile lui teme noi, pornind pe urma unor mituri rar supuse dezbaterii”, se spune în Laudatio rostită cu acest prilej. „Fiecare popor își are propria experiență cu «ceilalți». Puține însă în asemenea măsură și cu asemenea intensitate precum românii. Situat într-o regiune

«deschisă» și multă vreme vag structurată, actualul spațiu românesc a cunoscut o diversitate de dominații politice și de infuzii etnice și culturale.” În Vechiul Regat de dinainte de 1918, populația orașelor era cât se poate de amestecată sub aspect etnic și cultural. În perioada interbelică, România Mare cuprindea, alături de românii majoritari, o diversitate de naționalități ca niciunde în Europa. Lucian Boia înfățișează modul cum, începând cu cel de-al Doilea Război Mondial, apoi în perioada comunistă și în anii care au urmat, această diversitate a dispărut aproape cu desăvârșire. România e astăzi mai românească decât oricând. Din păcate, arată autorul, și românii s-au „românizat”, rupându-se în mare măsură, prin izolaționismul practicat de regimul comunist, de valorile culturii occidentale pe care se clădise România modernă.

True examines political and gendered identities in flux in post-communist Czech Republic. She argues that the privatization of a formerly state economy and the adoption of consumer-oriented market practices were shaped by ideas and attitudes about gender roles. This book also offers a provocative general thesis about the inextricable linkages between political and economic changes and gender identities.

Conventional wisdom suggests that citizens in many countries have become disengaged from the traditional channels of political participation. Commentators highlight warning signs including sagging electoral turnout, rising anti-party sentiment, and the decay of civic organizations. But are these concerns justified? This book compares systematic evidence for electoral turnout, party membership, and civic activism in countries around the world and suggests good reasons to question assumptions of decline. Not only is the obituary for older forms of political activism premature, but new forms of civic engagement may have emerged in modern societies to supplement traditional modes. The process of societal modernization and rising levels of human capital are primarily responsible, although participation is also explained by the structure of the state, the role of agencies, and social inequalities.
